

FOR IMMEDIATE RELEASE

Biz Talk Today TV Debuts *The Torres Report*, a New Flagship Economics & Markets Series

Weekly Segment Featuring Interactive Brokers' Senior Economist José Torres Brings Clarity, Context, and Actionable Insight to Today's Markets

Washington, DC — January 15, 2026 — Biz Talk Today TV (BTT), a business and financial media network produced by CrossCheck Media Inc., today announced the official debut of ***The Torres Report***, a new flagship weekly segment focused on macroeconomics, financial markets, and real-time economic intelligence.

Hosted by Todd M. Schoenberger, CEO of CrossCheck Media Inc., *The Torres Report* stars José Torres, Senior Economist at Interactive Brokers (IBKR), and is designed to deliver timely, actionable insights that connect economic data to market behavior and real-world decision-making. The debut episode premiered on January 14th across BTT platforms.

The Torres Report is built to serve a broad audience of traders, investors, business owners, policymakers, and everyday consumers by translating complex macroeconomic developments into clear, practical takeaways.

“With *The Torres Report*, we’re launching what we believe will become a cornerstone of the BTT brand,” said Todd M. Schoenberger, CEO of CrossCheck Media Inc. “José Torres brings a rare combination of deep economic expertise and the ability to communicate clearly across audiences. This show is about cutting through the noise, explaining what actually matters, and helping viewers make smarter decisions in real time.”

The series will focus on key economic indicators, central bank policy, global macro trends, sector-level implications, and how shifting economic forces influence markets on a daily and weekly basis. Each episode aims to bridge the gap between academic economics and market-driven realities.

“The goal of *The Torres Report* is simple: provide clarity,” said José Torres, Senior Economist at Interactive Brokers. “Markets move fast, data can be confusing, and narratives often oversimplify reality. This show allows us to explain what’s happening beneath the surface — and why it matters — in a way that’s useful for investors, businesses, and anyone trying to understand today’s economy.”

The debut of *The Torres Report* reflects BTT’s continued expansion of original programming and its commitment to high-quality financial journalism. The show is positioned as a recurring, trusted destination for economic analysis, strengthening BTT’s lineup of live market coverage and expert-driven commentary.

The Torres Report will air weekly on Biz Talk Today TV and across its distribution partners, with live broadcasts and on-demand availability.
