

We are committed to making our digital services accessible to everyone, including people with disabilities.

Our Commitment

Your Organization is committed to ensuring digital accessibility for people with disabilities. We continually improve the user experience for everyone and apply relevant accessibility standards to achieve this goal. We believe that every person deserves equal access to information and services, and we take that responsibility seriously.

Conformance Status

This website aims to conform to the Web Content Accessibility Guidelines (WCAG) 2.1 Level AA. WCAG is a set of internationally recognized guidelines developed by the World Wide Web Consortium (W3C) that define how to make web content more accessible to people with disabilities, including visual, auditory, physical, speech, cognitive, and neurological disabilities.

Accessibility Features

We have implemented the following features to improve accessibility across our site:

Keyboard navigation support – all interactive elements are reachable and operable via keyboard

Screen reader compatibility – semantic HTML and ARIA labels are used throughout

Text resizing support – content remains readable when text is scaled up to 200%

High contrast mode support – the site respects system-level contrast preferences

Alt text on images – all meaningful images include descriptive alternative text

Descriptive link text – links clearly describe their destination or purpose

Known Limitations

While we strive to meet WCAG 2.1 Level AA standards across our entire site, some older content or third-party integrations may not yet fully meet all accessibility requirements. We are actively working to identify and address these gaps. If you encounter a barrier, please let us know using the contact information below.

Requesting Accommodations

If you need information in an alternative format, require a specific accommodation, or have difficulty accessing any part of our website, please contact us. We will do our best to provide the information or service you need in a format that works for you.
