Buyer/Seller Agreement

Your puppy will be health checked by our veterinarian at 7 weeks of age. Your puppy has been vaccinated on _____. We will also honor your veterinarian's health check which needs to be performed within 72 hours of purchase. This veterinary visit may be waived by agreement between the breeder and new puppy owner. This must be done to validate your guarantee. If your veterinarian finds the puppy to have a serious health defect, you may return the puppy to us for an immediate refund or a replacement puppy as soon as one is available.

As the owner of a new family member it is important for you to follow the guidelines of your veterinarian's vaccine schedule. Puppies are very susceptible to many types of viruses and diseases, so you should give a lot of thought to the places that you take your puppy until they complete the immunization program. We cannot guarantee your puppy against diseases, viruses or parasites once they leave Acme Creek Kennels. This includes coccidia or other stress related illness. Moving from your puppies mom and litter mates to your new home will be a bit stressful. We try to get your puppy ready for the big adjustment. Acme Creek Kennels is at no time responsible for any Veterinary expenses for your puppy.

We breed only genetically sound individuals

What this means to you as a pet owner is that we carefully screen our parents to decrease the chances of genetic defects in our pups.

Our Labradoodles are guaranteed up to 24 months against life threatening genetic defects. If one our Labradoodles is determined by at least two veterinarians to have a serious life threatening defect we will replace your puppy as soon as one is available. No money will be refunded. The final determination as to a replacement puppy will be at the sole discretion of the breeder, Carol Finch.

Mother Nature has the final influence on genetics. We will to the best of our ability meet the size, temperament, color and coat type.

We guarantee our Labradoodles to the original purchaser only.

Not included in this guarantee are health problems arising from trauma, abuse or failure to maintain general health of the dog. This includes proper grooming and coat maintenance. Obese Labradoodles will not be covered under this guarantee. Dogs must be kept up to date on all vaccines, heartworm medication as well as annual Veterinary check up schedule. The breeder must have access to all health records if the owner is questioning the health guarantee. At no time does the breeder consent to pay any Veterinary bills.

The buyer will agree to feed any 4 star dry food approved on our list. If you are feeding a brand not listed your guarantee is void. Proof of purchase must be maintained by pet owner. You are under no obligation to purchase your food from Acme Creek Kennels

You will need to provide proof of a minimum of two obedience classes during the 1st two years of your dog's life. Obedience classes will be by the trainer of your choice.

During the guarantee period you will need to send an updated report on your puppy. These are required at 3, 6, 9, 12, 18 and 24 months of age. Email or mail is fine. Please make sure you include any Veterinary updates as well as your puppy's weight. Also include a photo of your pup and information on training classes. This is a great time for you to ask questions that may arise as well! We will answer any emails and phone questions promptly. Your labradoodle is sold as a non-breeding pet. Your puppy must be neutered by 12 months of age. If this does not happen you are liable for \$5000.00 to acquire breeding rights. This includes planned or unplanned puppies born to your dog.
