

## How to Measure:

Measure the widest part of each nail horizontally using tape. Mark both sides of the nail using a pen. Remove the tape from your nail and place it on a ruler. Measure and write down the size of each finger.

## Standard Sizes

(from thumb to pinky):

**XS: 3, 6, 5, 7, 9**

**S: 2, 5, 4, 6, 9**

**M: 1, 5, 4, 6, 8**

**L: 0, 4, 3, 5, 7**

If your measurements don't match the standard sizes, select "custom" and fill in the correct sizes in order from thumb to pinky in the "notes" section at checkout.
