

Jacqueline Kennedy Onassis High School (JKO)

Economics and Finance program at a glance...

Explore the world of business through the lens of economics as you prepare for the future. Understand how markets work in order to develop successful business strategies. JKO offers an array of business and math courses that provide an opportunity for work experience and post-secondary studies. Students explore a range of career paths, and gain meaningful experiences they can add to their resumes. Our students engage in a work based learning internship program during their senior year as a way to develop the skillsets necessary to thrive in the business world.

Below are the scope and sequence of our economics and finance program:

9th grade: Career Finance Management and Accounting

10th grade: Advanced Placement Macro Economics

11th grade: Advanced Placement Micro economics

12th grade: Advanced Placement Statistics and Work Based Learning/Internships
