## 2020-21 Parent Newsletter #2

October 5<sup>th</sup> is **World Teacher's Day!!!**

To our JKO teachers, **THANK YOU** for all you do for our students daily!!!

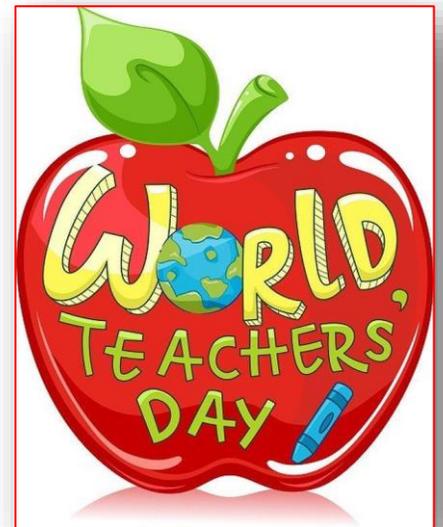

October 5 is a day to celebrate the educators who once affected you in some way as a student—to show gratitude to those you once aspired to be. It's a time to reflect on the teachers who were there for learning moments that defined your classroom experiences—even years ago—when you finally grasped a challenging concept with a feeling of accomplishment.

It's also a day for you to realize how you may now impact students in the same way. World Teachers' Day is an annual celebration across the globe. But what does this day represent? Let's answer some questions about its significance.

### What Is World Teachers' Day?

World Teachers' Day honors the anniversary of the 1966 adoption of the ILO/UNESCO Recommendation concerning the Status of Teachers. The Recommendation established benchmarks regarding the rights and responsibilities of teachers, according to UNESCO, and set standards for their training and continuing education, recruitment, employment, and teaching and learning conditions.

UNESCO holds World Teachers' Day in partnership with UNICEF, UNDP, the International Labour Organization, and Education International. Around the world, you can celebrate the protection of the rights and status of teachers while aiming to attract newcomers to the field despite the challenges educators currently face, including low pay and teacher shortages at K-12 districts nationwide. The day also honors teachers in light of the United Nations' [Sustainable Development Goal 4](#) on education, which defines access to an education and quality teachers as crucial to fulfilling the UN's [Education 2030](#) agenda.

This is an opportunity for you and your students to reflect on the role that educators have played in your life, and to consider ways to continue inspiring your own K-12 students each and every day in the classroom.

### **When Is World Teachers' Day in 2020?**

It's been held every year on October 5 since 1994. In 2020, October 5 falls on a Monday.

### **What Is This Year's Teachers' Day Theme?**

This year's universal World Teachers' Day theme is "Teachers: Leading in crisis, reimagining the future." According to UNESCO:

*The issue of teacher leadership in relation to [the COVID-19] crisis responses is not just timely, but critical in terms of the contributions teachers have made to provide remote learning, support vulnerable populations, re-open schools, and ensure that learning gaps have been mitigated. The discussions surrounding WTD will also address the role of teachers in building resilience and shaping the future of education and the teaching profession.*

### **How Is World Teachers' Day Celebrated?**

This year, UNESCO will honor World Teachers' Day with a week of virtual events, including an opening ceremony and the awarding of the 6th UNESCO Hamdan Prize for the Effectiveness of Teachers. UNESCO and its co-convening partners will also feature national, regional, and global virtual events tied to the 2020 theme throughout the week in an effort to celebrate educators worldwide, share their achievements, and ensure their voices are heard. The week will wrap up with a virtual closing ceremony on October 12.

Our website has been a hit! It has received over 1200 views in 30 days, but most importantly 340 of them in the last 7 days. We were ranked one of the top performing sites in education. A result of a freshening up as per our plan to rebrand our school and to prepare for the admission season. We are still working on improving the user experience in order to maximize our exposure and digital footprint. It is hard to believe that our school had no website a year ago today!!!

**How's it calculated?**  
Your custom InSight score calculates website engagement and social presence. It factors in how often your website is viewed, how many visits, and how active your customers are on connected social accounts.

**Why does it change?**  
Your InSight score is relative to the performance of sites like yours. For example, your score may go up if your site traffic is high compared to similar sites in education.
