

Retirement Plan Review

A BUSINESS OWNER'S GUIDE

Ask yourself these questions:

- Am I receiving the maximum benefit from my annual plan contribution?
- Is there a way to increase my plan contribution for my benefit while decreasing contributions to my employees?
- Do I have the ability to reward staff differently based on their importance to my company?
- Is my plan's design right for me and my company?

If your answer to any of these questions is "No" or "I don't know", you owe it to yourself to obtain a no cost Retirement Plan Review.

What is a retirement plan review?

A retirement plan review is a thorough analysis of your current pension plan with the twofold goal of increasing your share of the annual deposit and reducing your plan's administration expenses. Once the review is complete, you will receive formal plan recommendation which is customized to meet your goals.

How can a retirement plan review benefit me?

A retirement plan review can benefit you in one or more of the following ways:

- Increase your share of the annual deposit.
- Optimize the plan design to meet your goals.
- Reduce annual administration expenses.
- Increase the number of funds and funds families available.
- Allow access to professional money management for all participants.

Will the retirement plan review benefit my employees?

Of course all pension plans benefit your employees but, the amount of the benefit is controlled by you with certain limitations. The initial review will illustrate the maximum allowable contribution available for your benefit. If desired, the initial design can be customized to increase contributions made on behalf of all or a few select key employees.

How do I request a retirement plan review analysis?

Furnish your advisor with the following information:

- Completed fact finder
- Employee census
- Copy of your plan documents
- Copy of the 5500 reporting form you filed with the IRS last year

What is the advantage to the business owner?

The enactment of the Pension Protection Act dramatically increases the benefits available to owners and top executives like you. In some cases as much as 85%¹ or more of the contribution can be directed to the owner executive to fund larger retirement benefits.

If we find that your current plan is the best available, at least you have the peace of mind knowing this fact and it hasn't cost you a dime.

Let's Get Started With Your Future Today!

Built on Trust, Financial Strength, and Integrity

Chartered on March 17, 1905, by American National Insurance Company's founder, W. L. Moody Jr., the company began operations with \$100,000 of capital and \$20,000 surplus. Following a conservative investment philosophy, Mr. Moody believed that profits should finance future growth, so the company did not pay dividends to investors in those early years. Mr. Moody envisioned a company that would flourish for centuries. His conservative business approach created a unique corporate culture that remains the heart of the company today.

Over the last 115 years this culture has helped American National persevere through wars, hurricanes, economic volatility, extraordinary technological advancements, evolving products, and the changing needs of contract holders and agents.

As of May 2022, American National is owned by Brookfield Reinsurance, a forward-looking company established for long-term participation in the insurance and reinsurance industries. Brookfield Reinsurance is committed to build on the enduring value and security provided by American National to its clients and will continue to manage its business driven by its corporate vision to be a provider of financial services for current and future generations.

1) The 85% contribution is based on a proposal with two owners.

Nothing contained herein is intended to be federal tax advice and is not intended and cannot be used to avoid penalties under United Stated Federal income tax laws or promoting, marketing or recommending to another party any transaction or tax related matter. Neither American National nor its representatives provide legal or tax advice. Individuals should speak with their attorney or tax advisor for answers to their specific questions.

In defined contribution plans, the amount of funds accumulated and the investment gains or losses solely determine the benefit at retirement. Distributions made to a Participant before age 59½ may be subject to a 10% premature distribution penalty. Neither American National nor its representatives provide legal or tax advice. Please consult your attorney or tax advisor for your specific situation Qualified Plans have minimum distribution rules that govern the timing and amount of distributions. You should refer to your retirement plan, adoption agreement, or consult a tax advisor for more information about these distribution rules. American National Insurance Company, Galveston, Texas
