

Dr Blake Fidock

Orthopaedic Surgeon

MBBS, MTrauma (Ortho), FRACS (Ortho), FAOrthA

Dr Blake Fidock is a Brisbane-based Orthopaedic Surgeon. His subspecialty focus is Robotic Hip and Knee Joint Replacement and Revision Hip and Knee Joint Replacement. Other areas of interest include General Orthopaedics, Orthopaedic Trauma, and Foot and Ankle surgery.

Dr Fidock completed his medical degree at the University of New South Wales (UNSW) in 2012, graduating with 1st Class Honors, and spent his junior doctor years working in hospitals throughout Australia, gaining broad exposure to specialist medicine. He undertook further postgraduate study, graduating with a Masters of Traumatology specialising in Orthopaedics with Distinction from the University of Newcastle in 2018.

He undertook his orthopaedic training in South Australia and the Northern Territory — and he continues to provide orthopaedic services at Alice Springs Hospital.

Having achieved a Fellowship of the Royal Australasian College of Surgeons (FRACS) and the Australian Orthopaedic Association (FAOrthA) in 2024, Dr Fidock undertook a postgraduate fellowship in Robotic Hip and Knee Arthroplasty at St Vincent's Private Hospital Northside and Prince Charles Hospital in Brisbane.

When not operating, Dr Fidock enjoys teaching junior colleagues and registrars, and has held Clinical Associate Lecturer positions with University of New South Wales, the University of Newcastle, and most recently the University of Adelaide. In July 2024, Dr Fidock appeared on the Aussie Med Ed Podcast to discuss the orthopaedic training pathway in Australia for medical students and junior doctors.

As a husband and father to two young children, Dr Fidock decided to establish his own Orthopaedic Practice in Southeast Queensland so he and his family could enjoy the vibrant lifestyle the sunshine state has to offer, and be close to extended family.
