

CHALLENGE MOTORSPORT EXPANDS FOR WINTON ROUND

After missing the second round of the Supercheap Auto TCR Australia series at Phillip Island, Iain McDougall will return to the wheel of the Challenge Motorsport Audi RS3 LMS at Winton Motor Raceway with an expanded crew supporting the effort.

The newest addition to the team is Ruby McDougall who is Iain and his wife Mel's first child, she arrived in the days prior to Phillip Island. The team looks forward to welcoming her to the paddock later in 2023.

This weekend will also mark an expanded partnership with **Auto Plus More** with two high performing employees collaborating with Melbourne Performance Centre for the Winton round to prepare the Audi for each session. We are thrilled to bring this opportunity to life and it marks the first time both mechanics will work with a professional race team.

Iain McDougall Driver - "Whilst it was disappointing to miss Phillip Island, where we debuted last year, there are some experiences in life you can't miss out on, the birth of our daughter. I'm thrilled to be back in the car at a track where we have a lot of history and look forward to breaking into Q2 on Saturday."

*Barney Hogan, Managing Director of **Auto Plus More** - "The opportunity to reward my staff with the experience of working with the highly experienced and professional team at **Melbourne Performance Centre** is fantastic and we are looking forward to further opportunities to collaborate later in 2023."*
