### 4. Homeowner Responsibilities

- Submit this request at least 2 weeks in advance of the proposed project start.
- Coordinating with adjacent Unit well in advance of the start of work regarding any required courtyard access.
- Ensuring that the contractor provides the necessary protection to collect any debris and roofing nails within the adjacent Unit's courtyard (wall to wall), the perimeter of the property, adjacent road and HOA common grounds. Care should be taken to ensure that such debris collected is removed and then all areas be meticulously passed over with a magnetic rake. The Homeowner is ultimately responsible for ensuring contractor compliance.
