

Prohibited And Restricted Items

Dangerous Goods

Dangerous Goods are articles or substances, which are capable of posing a significant risk to health, safety or to property when transported. Metal containers sailing on open seas are exposed to rough weather and variation in temperature and pressure. For example flammable items such as high-powered lithium battery can pose a fire risk and start a fire that could destroy property.

You may be held liable in the case that your cargo has cause damage or loss to property. For example if your cargo contained flammable items and has caused a fire, you will be held liable for the damage or loss of property that was caused by that fire.

All of the items listed below are strictly prohibited from shipment and must never be shipped through our services. Failure to abide with this demand may result in the shipper being prosecuted by the relevant authorities and leading to severe fines and/or imprisonment.

- All living animals and/or creatures of every description.
- Human or animal remains or ashes.
- Illegal goods (contraband).
- Firearms, weapons or any item than could be used as a weapon, explosive devices, ammunition, or any parts hereof.
- Ammunition, gunpowder, mace, tear gas or pepper sprays are generally forbidden.
