**Respectfully Submitted,**

**Donald Drummond, Secretary**

## President's Message – Fun, Fun, Fun

I know some of you are retired but have busier schedules than when you worked. I have a busy schedule too, but as a working stiff with family responsibilities. Last week though, I tried to do it all. No work - just play. Our friends at Abel Chevrolet, not an NBCA sponsor, but good friends nevertheless, hosted a wonderful two day event. Wednesday, there was a banquet luncheon at Granzellas in Williams followed by a fabulous mountain road drive west of Interstate-5. The two lane road must have been built for Corvettes - it was awesome. Remember I said I was trying to do it all?

I didn't mention I towed my car Wednesday morning two and a half hours from home to Thunderhill Raceway in Willows, unloaded it and drove my car 30 miles back to Williams for lunch and the drive.

Back to the story... on the 90 minute Mountain drive, we came to a lookout at the edge of a park entrance for a rest and stretch. Then proceeded

about 30 more minutes and ended up at Thunderhill where we took a large group photo and ran some parade laps.

This day was well attended and a lot of fun. That night Abel Chevrolet surprised those of us that went to The Mexican restaurant by buying our dinner and drinks. Mucho Bueno. The next day, I woke up at 6:00am, departed my hotel and got to the track at 7:15am for a track day, subsidized half price by Abel Chevrolet. I ran four of the six twenty minute sessions, two of them with Dan Davita as passenger.

It was a ton of fun, but I had more on my agenda that day. I loaded my car back on my trailer and headed for home again, two and a half hours. Once home I unloaded my car, removed my track stickers, and put away my trailer. Then, after a visit with Nora, a bite of dinner, and a change of my suitcases, I departed for my hotel 135 mile away near Monterey. You see, that weekend was the IMSA races where the Corvette Racing team and Corvette dignitaries hosted about 100 attendees. WSCC has coordinated the event with Corvette for years. Ken Albers is the WSCC Volunteer Coordinator of the event and I was one of his volunteers. Three days in a row, I woke up at 5:15am, cleaned up and had a quick

breakfast, then arrived with the volunteers at Laguna Seca at 6:00am. There are countless cars at the IMSA Races. Not only did the Corvette Racing team come, but Corvette shipped out two very nice C8's.

Then there are at least a dozen car manufacturers showcasing primarily their sport and luxury cars. The manufacturers spend a lot of money, likely as much as they do at the major auto shows. Corvette had a tent erected and hosted a few lunches, day long refreshments, and

speeches by the Racing Team manager, The Racing team drivers, the Executive Chief Corvette Engineer, the Chief Corvette Engineer and the C8 release manager. In addition, Michelin and Mobil 1 discussed their partnership with Corvette and discussed their products. Attending an IMSA race is like attending a major horse race. There are minor races occurring all day until the big race starts in the afternoon. Sunday, about half way through the race, I loaded up and escaped the confines of the Monterey area to get home. After three hours of driving, I made it back, quite tired but happy that I had five FUN days with my Corvette and my Corvette friends.

Having Fun with my Corvette! - Jeff

VICE PRESIDENT - Dan Divita

### NEW CARS, NEW CARS, NEW CARS

Yet another C-8 Corvette order has been placed by one of our member couples. In keeping with the practices of some of our past owners, many details are still secret. (Don't you just love a surprise?) We do know that the car will be another convertible, but for now, color and other specifics remain under wraps. Due to the current Corvette ordering environment with its related difficulties, no delivery time frame can be determined, but the car is officially on order.

We're sure that once the supply chain problems are alleviated, your C-8 could still get here in time for you to enjoy it to the fullest. How do you enjoy it to the fullest? Try a "Taste of the Track" day.

### TASTE IF THE TRACK

On Thursday, September 9, several club members enjoyed a fun day driving the track at Thunder Hill Raceway in Willows. Part of a program put on periodically by the "Hooked on Driving" organization, this provided an opportunity for drivers to exercise their cars as they were meant to be driven. The program is designed so that drivers of all experience levels can safely enjoy the track experience. On the preceding day, the group enjoyed lunch and a country drive in the rural area west of the track. The highlight of this day is always the stop at Stoneyford, where the town's museum staff ladies bake cupcakes for the group during a rest stop on the tour. Donations in support of the museum are welcomed.

Thursday, however, was devoted to the track. Inexperienced track drivers, such as myself, were assigned to the Taste of the Track group, meaning that this was a "Lead and Follow" outing, where groups of drivers followed a leader, who was an experienced staff member. Lest you think this was boring, think again. While not at full race speeds, I managed to top 118 mph on the straightaway. Try doing that on highway 101. Loads of fun

Our more experienced club members, who had already participated in Hooked on Driving's competitive driving program, were allowed to drive independently without leaders, in 3 different class groups, increasing in track freedom as their experience level provided. Most of our drivers were in the class "C" category, which restricted passing to the driver's left side only so anyone passing could be seen easily in the drivers mirror. Class "D" levels were full bore racing, where anything safe is allowed.

The day was a really fun way to play with your car and enjoy the company of other Corvette and Camaro owners. You will learn a lot about how your car really handles in an aggressive driving style. My most frequent thought while driving was "Don't brake. Trust the car and let it do what it was designed to do." I very strongly recommend that you try out this experience when it is offered again. You will be so glad you did.

In the meantime, obey the speed limit on 101 (or at least don't do anything stupid).

Don't forget to: *"Save the Wave..."*

**SOCIAL REPORT:** The Drive and Dine was Wednesday September 1, 2021. Bill Donnelly led this ride as we met at our sponsor "Daniele"s Classic Auto Body" in Sonoma. We took a picture and will be giving it to the owner soon. We then rode to Petaluma where we had dinner at Lagunitas Brewing Company. We had 11 cars and 19 for dinner. This was enjoyed by all! Thank you Bill!

Our Social ride was September 10, 11 & 12 attending the IMSA Races at Laguna Seca Raceway, Salinas. Ken Albers led this event. Jeff Farber, Bill Donnelly and Steve & Barbara Boyer attended from our club. Special thanks to Bill in helping park the 75 corvettes that attended from other clubs. Box lunches were provided on Sunday. The parade lap was done on Saturday. The speaker for Saturday was Laura Klanser from GM Motor Sports. On Sunday the speakers were Doug Fehan and Tadge Juechter, Executive Chief Engineers for the Corvettes. Josh Halder, Chief Engineer and Jack who are in charge of Quality Production back at Bowling Green also spoke. Weather was great and all had a great time. Big thank you to Ken for leading this event!

### **MARK YOUR CALENDAR FOR OCTOBER - 2021**

**Respectfully Submitted**

**Steven R. Boyer**

**Treasurer**

Barbara and I picked up our new C8 Z51 at Abel Chevrolet in Rio Vista and put over 1,000 miles on it in just a couple weeks so we could have them prep it for the Abel Chevrolet Day at the Track with Hooked on Driving. It was very hot, but a lot of fun. Thanks Derrick, et al.

Barbara and I really like fish, so we have several recipes that are quite easy and delicious.

## **Lemon Garlic Swordfish Recipe**

*Serves 2-4*

From: [chewoutloud.com](http://chewoutloud.com) 03/04/2019

### **Ingredients for Lemon Garlic Mixture:**

*2 tbsp. butter, softened to room temp  
1 tbsp. freshly chopped chives  
2 tbsp. garlic cloves, minced  
1/8 tsp. kosher salt  
1/4 tsp. freshly ground black pepper  
1 tbsp. juice from fresh lemon  
1 tbsp. grated lemon peel*

### **Ingredients for the Fish:**

*2 tbsp. olive oil  
2 (1-inch thick each) swordfish fillets,  
about 6-7 oz. each  
Kosher salt and freshly ground black  
pepper*

### **Preparation:**

- 1 Preheat the oven to 400 degrees Fahrenheit.
- 2 In a small pan, combine all of the Lemon Garlic Mixture ingredients and stir to fully combine. Set aside.
- 3 Use paper towels to pat-dry all excess moisture from the swordfish fillets. Evenly sprinkle both sides of fillets with pinches of kosher salt and freshly ground black pepper. Set aside.
- 4 In a large, oven-proof pan, heat the olive oil over medium-high heat. Once oil is hot, add the swordfish fillets to the pan and let cook until browned on one side, about 3 minutes (do not move fish around much, if at all). Carefully flip fish fillets over to the other side, turn the stove off, and immediately transfer pan into hot oven. Let fish roast about 5-6 minutes or just until the top is golden and the center is just coked through. Take care not to overcook.
- 5 A minute before fish is done cooking in oven, cook small pan of prepared lemon-garlic mixture over medium-high heat, constantly stirring, until just melted and bubbly. Plate fish and pour any juices from the swordfish pan into the lemon-garlic mixture, stir to incorporate and immediately turn heat off and pour mixture over the plated cooked fish.

### **Notes:**

I use swordfish steaks instead of fillets. Bon appetite!

# SCC Present Mad Cow AutoX – Cow Palace

**October 24 @ 7:00 am - 4:00 pm PDT**

\$90 – \$100

On Sunday, October 24, 2021, Santa Clara Corvettes is hosting autocross at the Cow Palace in Daly City. Our events are open to all cars, and we are inviting all autocross enthusiasts to come out and enjoy a fun course at a great venue. We are planning for 8 runs per driver. The cost is \$90.00 for Western States Corvette Council (WSSC) members and \$100.00 for non-members.

Set-up will occur Saturday afternoon from 3 – 6 PM, and all help is appreciated.

Check-In opens at 7:00 AM on Sunday

Sunday Competition begins at 9:00 AM Competition wraps up ~ 4PM.

There will be a total of 3 run groups for the day. All participants will checkin between 7:00 AM and 8:30 AM. Working during one run group is mandatory for all drivers. Our intention is for all drivers to get 8 runs in their session. In order to conduct our Driver's Meeting, we ask that you arrive by 8:30 AM on Sunday.

**Because of COVID, we are making several changes to the way we do things.** First off, all registration must be done at [MotorsportReg.com](https://MotorsportReg.com). There will be no signing up on site the same day. Doing this allows us to eliminate several “touch points” that would otherwise occur. Therefore, you must pre-register at [MotorsportReg.com](https://MotorsportReg.com). We are also doing away with individual registration forms. This makes check-in at the event easy, with small stickers placed on your windshield to indicate that you've registered and signed the waiver. Regarding the waiver, we plan on implementing an on-line waiver signature, so you won't be signing anything at the event.

Another change — we are no longer collecting money when you register. You still have to provide credit card info, but we won't charge you until two days before the event. That keeps your money in your hands longer and it makes it easier to process cancellations.

There will be no more coffee and donuts in the morning. We will still provide bottled water, but it will be set out on a table — not in an ice chest.

Have a 1 to 4-digit number, 8” high, on both sides of your car. Painter's tape works well if you don't have custom numbers (tape should be available at registration). If you register on-line, you must select a car number, and duplicates with other registered cars are not allowed. Most folks have reserved a permanent number. If you're new, or if you register on site, you may have to pick one not already taken.

You must have a 2005 or newer Snell or DOT-approved automotive helmet to run (loaners are available). (Motorcycle helmets not allowed.)

The self-tech form for your car is included in the registration process, so that's another thing you won't have to sign on site. An on-site inspector will also check a few basic things on your car while it's on grid. One basic rule – get all the loose stuff out of your car, so that it doesn't move around and distract you while you're driving.

Regarding food, we ask you to bring a lunch or buy lunch at an off-site venue like McDonalds (about 3 blocks away).

Here's how it works. . . show up the morning of the event. Clean out your car, walk the course, and attend the drivers' meeting. The course is laid out using orange traffic cones. You drive one-at-a-time. Once on course, drive it like you stole it.
