

NINEVEH: a conflict over water

MEDIA KIT 2023

After reading NINEVEH, Shaka King, director of the five-time Oscar-nominated film *Judas & the Black Messiah*, expressed the importance of this body of work. "There is great utility to escapist art. But this novel threads the needle pretty damn well by refusing to not acknowledge trauma just to make a piece of entertainment."

EXPERIENCE NINEVEH

Story + Description

Nineveh is a conflict over water set in the future in a post-oil depleted dystopian society. The epoch of climate change has now surpassed the global warming tipping point, and the melting polar ice caps have caused cessation of ocean levels to rise drastically. Wet areas got wetter and dry areas got drier. The rich got richer, and the poor got poorer. And they all met in Nineveh. A massive global drought combined with an epic contamination of the world's limited fresh water supply combined with the privatization of the remaining unpolluted aquifers has created a crisis of biblical proportions. As a result, water has been priced beyond the affordability of the masses, forcing them to collect rainwater which constitutes the new contraband. With a mind-altering drug introduced into the limited public supply, there were few resisters that dared to defy the ultimate fascist system.

NINEVEH: A CONFLICT OVER WATER ON SALE NOW

(WASHINGTON, DC) FEBRUARY 08, 2023— It's so easy to take water for granted until it's gone. For author and activist Papi Kymone Freeman, the best approach to explain the global water crisis was after his trip to Africa, when he decided to write a fictional book using Marvel-like superheroes to tell the story of climate change, global warming and the privatization of water. *NINEVEH* (pronounced ni-nuh-vuh) is a fiction novel about a conflict over water set in the future in a post-oil-depleted dystopian society. *NINEVEH* novel releases on March 22, 2023 - World Water Day.

“I spent the summer in Nairobi, Kenya, with a fellowship from the American Friends Service Committee, a Quaker organization dedicated to service, where we were forced to use bottled water to brush our teeth,” said Kymone Freeman, author of *NINEVEH*. “I saw people collecting water where goats were drinking. I saw parents feed babies Coca-Cola in their bottles because the soda was safer than the available water. Today, we see the water crisis even in America, from the Flint water crisis to now in Jackson, Mississippi.”

In *NINEVEH*, old cities are now underwater as a result of climate change, and new cities have emerged. A massive global drought combined with an epic contamination of the world's limited fresh water supply combined with the privatization of the remaining unpolluted aquifers has created a crisis of biblical proportions. As a result, water has been priced beyond the affordability of the masses, forcing them to collect rainwater, which constitutes as the new contraband. With a mind-altering drug introduced into the limited public supply, few resisters dared to defy the ultimate fascist system.

The Resistance is led by Ndbele, a gifted teacher and sage. His daughter, Evolon, is his greatest warrior, and Bethlehem is his most trusted ally. *NINEVEH* is ruled ruthlessly by Nimrod, the head of the Global Water Corporation that has a stronghold on the world's water market. He has only one weakness, his nymphomaniac son Saisir."

After reading *NINEVEH*, Shaka King, director of the five-time Oscar-nominated film *Judas & the Black Messiah*, expressed the importance of this body of work. "There is great utility to escapist art. But this novel threads the needle pretty well by refusing not to acknowledge trauma just to make a piece of entertainment."
