This position requires strong attention to detail and excellent work ethic.

Responsibilities

- Able to verify client information on prescriptions is complete and accurate
- Enters prescription into pharmacy software system, prepares prescription, labels product and files prescription to be checked by the pharmacist before product is given to client
- Proof, process and highlight specific details on pick tickets for shipping/delivery
- Maintain/updating RX client records (name, phone, address, expiring records/prescriptions)
- Manage inventory and restock medications as needed
- Comply with all regulatory requirements and standards
- Assist with other duties as assigned

Requirements/Education

- High school diploma or equivalent
- Successful completion of a pharmacy technician program
- Current certificate as a pharmacy technician (CPhT), required by the Pharmacy Technician Certification Board.
- Two years of work experience is preferred
- Strong knowledge of pharmaceutical terminology
- Exceptional customer service
- Must be detail-oriented and perform accuracy in all work

Benefits

- Pay according to experience and hours of availability

Application Process

Interested candidates, please submit resume detailing your relevant experience and qualifications to careers@deluxeah.com. Please include "Certified Pharmacy Technician/Pharmacist" in the subject line.
