CAMPCOCONUTS.COM

Does your child want to learn how to swim? Play softball? Express themselves in arts and crafts? Do things that they can't — or don't want to — try at home?

Camp is a pure learning **community**. It's one of the few places where children can **explore** physical activities next to creative arts and social connections, free from stress or judgment. It sets the stage for character education that will naturally benefit any skills a camper progresses in.

You've come to the right place

A summer at Camp Coconuts is more than just a summer at camp. It's an **experience** – filled with learning new skills, making friends, and taking on adventures!

It's making noticeable gains in physical, emotional, and social development. It's being immersed in a day camp environment dedicated to personal growth, friendship, and FUN!

Our mission has always been and remains a commitment to creating a wonderful experience where children thrive. We LOVE camp and LIVE camp in everything we do.

We can't wait for you to join us for our 11th summer!

OUR CAMPER GROUPS

Campers are between the ages of 4-14. Groups are based on the grade they are entering into in the fall school year for boys and girls.

Our campers participate in many bunk & divisional activities, but at the end of the day, our camp community gathers for camp-wide activities that foster the tight-knit spirit Camp Coconuts is known for. Each day campers will gather for morning assembly and end-of-day send-off. Not to mention tons of special events, gatherings, shows, Color War, and more!

We maintain a minimum ratio of 1:8 for our older Coconuts and 1:5 for our younger Coconuts

Each group is supervised by a Head Coach (college age or older), Junior Coach (high school juniors or seniors), and Counselor in Training. Camper Leaders in Training (LITs) also assist with camper's activities but are not included in the supervision ratio.

The average group size is 10-16 campers. Larger and younger groups will have more coaches.

PROGRAMMING

Each week campers enjoy exciting ageappropriate programming taught by our team of talented specialists. Every group has its own balanced mix of programming favorites!
