

## General Information for Fall Wonders 2022

Our fall 2022 programs are designed for students currently in 1st-5th grades; however, we are flexible and feel keenly that all students deserve to be appropriately challenged. Please contact us if you would like to request/discuss a grade-level exception for your child who otherwise would be considered too young for our fall programs.

*Proof of student eligibility will not be required for our fall '22 programs. It is our privilege to serve bright, motivated children seeking new learning opportunities, exciting challenges and fresh inspiration.*

Enrollment for each session closes at 6:00 p.m. on the day before the session.

Payment in full of tuition and fees (if any) is due upon enrollment. The payment methods we accept are Visa, MasterCard, American Express, and Discover.

Full refunds (minus a \$5 processing fee) will be granted for withdrawals requested by the day before the session from which withdrawal is requested. Requests may be made either via conversation or voicemail to 847-901-0173 or email to [info@centerforgifted.org](mailto:info@centerforgifted.org). Beyond that, there are no refunds, credits, or pro-rated discounts for siblings or for enrolling in multiple sessions.

Need-based financial assistance may be available. If you would like to apply, please call or email The Center for Gifted to request an application.

The Center for Gifted offers inspiring learning experiences in small, peer-group classes, in controlled, safe, nurturing environments.

*Due to the current diversity of opinions and protocols regarding face masks, we have found it most practical to place the issue in the hands of the individual families, thus enabling them to exercise their own discretion.*

## Ever considered IQ testing for your child?

We invite you to have a conversation with our on-staff school psychologist, Cheryl Lind. An IQ test can ascertain not only whether a child is gifted, but also at what level and in which areas. It reveals learning styles, strengths, weaknesses, and how the child manifests these as a learner at home and in school. It can be a great awakening for parents and result in giant steps forward for the child. To talk or for an appointment, call or text Cheryl at 847-970-8074 or email [cheryllind@yahoo.com](mailto:cheryllind@yahoo.com) or [info@centerforgifted.org](mailto:info@centerforgifted.org). Her current locations for testing or in-person counseling include Glenview, Park Ridge, Elmhurst, and Long Grove. Cheryl Lind, M.Ed., Ed.S., is an Illinois Licensed and National Certified School Psychologist.
