The Center for Gifted and Midwest Torrance Center for Creativity:

A Perspective by the Founder and Director

For more than 35 years, the summer programs of The Center for Gifted have provided the kind of joyful immersion in subjects that bright, motivated learners love. Students choose their own learning adventures through an exciting variety of topics and courses that challenge and inspire.

With critical and creative thinking as the framework for all learning, active, hands-on participation, problem solving, serendipitous discovery, and the application of innovative ideas are inherent in every classroom.

Our challenging summer, fall, and winter programs are modified to meet Illinois and CDC pandemic guidelines. Our programs have been operating safely and successfully under Illinois and CDC guidelines since June 8, 2020.
