

Deconstruction Zone!

Saturday May 15, 2021

Discover the inner workings of a few of your favorite things and investigate how they were built by taking them apart. From an assemblage of electronic devices we'll have on hand, choose one (or two) to take on for the afternoon.

Under the excellent tutelage of technology expert, Robin Kiamco, open up a device and dive in, carefully observing, identifying, loosening, detaching, and removing parts and pieces, noting the important components and critical connections as you go along.

You will be amazed at your new perspective and keener grasp of engineering gained by this simple – yet as complex as you wish to make it – process still frequently used today in advanced technology.

The Center for Gifted – Elmhurst
533 West North Ave. Suite 30

Hours: 12:00 - 1:30 p.m.
Tuition: \$40 Registration Fee: \$5

Our challenging summer, fall, and winter programs are modified to meet Illinois and CDC pandemic guidelines. Our programs have been operating safely and successfully under Illinois and CDC guidelines since June 8, 2020.
