International Torrance Legacy Creativity Awards

Visual Arts

The Torrance Creativity Awards Competition for the Visual Arts is now entering its seventh year, and has seen the number of participants and the quality of their submissions increase substantially. The visual arts competition asks children between the ages of 8 and 18 to submit any form of 2D or 3D visual art. The types of 2D or 3D visual art that may be submitted includes, without limitation, painting, collage, printmaking, photography, sculpture, ceramics, or other related works. The Torrance Creativity Awards Competition for the Visual Arts asks that families submit an electronic copy of a photograph of their work, which ensures easy publication of the winning entries.

Over the course of the year, the Torrance Creativity Awards Competition for the Visual Arts has received entries from children in North America, South America, Asia, Africa, and Europe, making it a truly international endeavor. Although all media have been represented every year, the focus of the children in any given year varies—some years we see more paintings, other years more photography, and other years more ceramics. Ultimately, however, students submit all types of visual arts media, making the competition intense and powerful. The universality of the Torrance themes used, which change every two years for variety, inspire the young artists to excellence and distinction. As the competition expands into the future, we will continue to see work that is creative, comprehensible, and coherent while children engage with the marvelous themes established by E. Paul Torrance.

Stephen T. Schroth
Coordinator of Visual Arts, International Torrance Legacy Creativity Awards Associate
Professor of Early Childhood Education, Towson University, Towson, Maryland

Ages 8-9

First Place

Christos Argyropoulos
Age 9
Wroctaw, Poland
