Life Settlements

Most Seniors are unaware that their existing Life Insurance may possibly be liquidated for 10-60% of the coverage amount, regardless of the policy's cash surrender value.

Life settlements such as a Tax-Advantaged Life Care Benefit Plan can help seniors and their families utilize existing life insurance to pay for care.

A Life Settlement is the sale of an in-force life insurance policy to a third party financial institution for a lump sum settlement that is usually 3-5 times greater than the cash surrender value of the policy.

For a family looking for a way to fund senior living or private duty home care, a life settlement could be a viable option.

EXAMPLE:

Bob has a Universal Life Insurance Policy (UL)
Death Benefit = \$500,000
Cash Surrender Value = \$28,850

Life Settlement Option

Financial Institution offers to buy Bob's life insurance policy. Bob sells his policy for \$215,000. Bob now has cash he can take as a lump sum or a monthly payment to pay for care.
