

Why are you the best candidate for the office?

I am currently one of three Bath Township Trustees and the Trustee Liaison to the Bath Fire and Service Departments. Being a lifelong resident of Bath who served on the Trustees' Advisory Council for 20 years before being elected to my current post, I know firsthand the challenges facing the township and its residents and understand the responsibilities of working as a fiscally responsible public servant.

What are the top priorities you seek to address once in office?

I will continue to be fiscally responsible with public dollars while ensuring responsive, effective services to residents from our police, fire, dispatch, service, roads, parks, and zoning departments. I will stay mindful of pending state legislation that would adversely impact property tax revenue.

What strategies will you use to accomplish those priorities?

My four years of on-the-job experience and collaboration with fellow trustees, township employees and other elected officials ensure ongoing success.
