

What would be your top priorities if you were elected or re-elected? Why?

Building upon the experience gained as a Bath Township Trustee during my first term, I'll continue collaboration with fellow elected officials and Township staff. I will ensure responsive safety, administrative, and recreational services to residents from our Police, Fire, Dispatch, Service, Roads, Parks, and Zoning departments. I am committed to the implementation of the updated Bath Township Comprehensive Plan and maintaining the rural character of Bath by supporting our Parks and Zoning departments. I will continue to work towards enhanced, family-friendly gathering spaces in our parks. I am fiscally conservative and always responsible with public tax dollars and vow to scrutinize how potential property tax legislation could adversely impact Bath. I am open, honest, approachable, and responsive to the needs of Bath residents and always listen to all sides of an issue before making decisions. I consider myself a voice for all residents, especially those needing assistance, while working with anyone to address concerns. I believe people move to and stay in Bath for the best of reasons. My long history as a Bath resident and my priorities and experience as an elected public servant will help ensure Bath continues to be one of the finest communities in Northeast Ohio.
