ABOUT US

Two visionary brothers founded **GAZEVIEW** with a singular mission: to deliver comprehensive security and infrastructure solutions that protect what matters most to businesses and residences alike. Recognizing that security and smart infrastructure are no longer luxuries but essential needs in today's world, we set out to provide cutting-edge systems backed by expert installation and commissioning services.

ABOUT US

"A late start, but a great start" – this motto drives everything we do. Since our incorporation in 2022, we've rapidly grown to serve 200+ residences and 80+ industries, earning their trust through quality workmanship and reliable solutions. What sets GAZE VIEW apart is our holistic approach: we're not just a security company, but your complete infrastructure partner.

VALUES

Integrity

Trust is the foundation of security. We operate with complete transparency, honesty, and accountability in every project we undertake. Our commitment to ethical business practices means we never compromise on quality, and we stand behind every system we install. When you choose GazeView, you're partnering with a company that values your trust as much as your safety.

Excellence

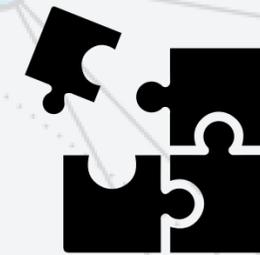

With a success and customer satisfaction rate above 90%, we don't just meet expectations – we exceed them. We take pride in our proactive approach, foreseeing our customers' issues and concerns through our robust CRM and follow-up strategy. Every installation is executed with precision, every service call handled with urgency, and every client relationship nurtured for the long term.

VALUES

Collaboration

GazeView connects with the best in the industry to deliver superior material and service quality. We work exclusively with trusted, world-class brands such as Solus, Spectra, Hikvision, and D-Link, ensuring our clients receive nothing but proven, reliable technology. Our strategic partnerships enable us to offer competitive pricing without compromising on quality.

Innovation

The future of security is intelligent, and we're leading the way. With cutting-edge technology from brands like Milestone and advanced AI-integrated applications, we transform traditional security into smart, proactive protection. We harness innovation to create truly secure environments where technology works seamlessly to keep you safe.

Plan

Planning is an integral part of the GazeView approach. We begin every project by creating a detailed blueprint that ensures your specific needs, site requirements, and security objectives are completely understood and catered to. Our technical team conducts thorough site assessments, designs customized solutions, and establishes clear milestones before any work begins.

Deploy

Deploying the right people for the right work makes all the difference. Our certified technicians and engineers are carefully matched to each project based on their expertise and specialization. This strategic deployment ensures faster execution with proficiency, accuracy, and minimal disruption to your daily operations.

Execute

Efficient execution is the cornerstone of successful project delivery. Our dedicated SDM (Service Delivery Management) team oversees every installation, ensuring adherence to timelines, quality standards, and safety protocols. From the first wire laid to the final system commissioning, we maintain rigorous oversight to keep your project on schedule and deliver results that exceed expectations.

Deliver

Project completion is just the beginning of our relationship. We conduct comprehensive system testing, provide thorough training to your team, and ensure complete handover documentation. Our post-installation support and maintenance services guarantee that your systems continue to perform optimally long after deployment.

September
2022 - The
Beginning

GazeView started with a headcount of 4 and an unwavering desire to reach as many clients as possible. Our first major breakthrough came when we secured Canara Bank ATMs across 17 locations, installing fire detectors, smoke detectors, and advanced door locks inside the teller machines. This allowed all ATMs to be monitored from a centralized location with foolproof theft protection.

March 2023
- Speed &
Precision

Aurubis Business Park on Residency Road needed a complete security system re-installation for perimeter coverage. We delivered what seemed impossible – completing the entire project in just 11 days instead of the 30-day timeline defined by the client.

June 2023 -
Centralized
Intelligence

We deployed a shared CMS (Centralized Management System) solution for all Naran Murthy Properties, enabling their security team to perform video surveillance of all 18 properties from a single centralized location – dramatically reducing costs while increasing productivity and response times.

September
2023 -
Expanding
Our Reach

GazeView began working with multiple high-net-worth individuals (HNI), police officers, and police stations. We proudly onboarded prestigious clients including Vibhu's International, Inqore Systems Pvt Ltd, Avaranya Pvt Ltd, and many more, establishing our reputation in the corporate sector.

January
2024 -
Enterprise
Scale

A milestone moment – we onboarded Embassy Business Park, providing comprehensive CCTV solutions for all towers at Embassy Tech Village Bellandur, Kirloskar Business Park, and MG Road. This partnership validated our capability to handle large-scale enterprise deployments.

March 2024 -
Rapid
Deployment
Excellence

When a client at Aurubis Business Park needed CCTV and access control across an entire floor with an urgent deadline, we rose to the challenge and completed the project within just 1 week, once again proving our commitment to speed without compromising quality.

July 2024 -
Residential
Milestone

With a growing team of over 8 skilled technicians, GazeView achieved a significant milestone – completing 100+ residential installations with home automation and comprehensive security systems, making homes across Bangalore safer and smarter.

Aug 2024 -
Investor
Confidence

JustPay wanted to secure their office as their CCTV Systems were not integrated and centralized. We installed over 140 cameras and gave a Centralized Environment to ensure Surveillance is performed daily. JusPay and Bathla wanted Computers, Printers, MacBooks, and TVs in Large numbers. We completed their requirement at the lowest price

Jan to March 2025
- Major Corporate
Wins

In pursuit of our biggest clients yet, we approached JusPay and Bathla Ladders. After detailed consultations and proposals, we successfully onboarded both businesses, marking a new chapter in GazeView's corporate journey.

April 2025 to
Present -
Enterprise
Integration

Deployed 140+ cameras for JusPay's centralized surveillance and fulfilled bulk IT requirements for JusPay and Bathla Ladders. Awarded 121-school contract by Karnataka Education Board for complete security and AV solutions. 3 schools completed, 118 underway.
