

MC INTRO FOR MARK AGNEW

“Today our speaker is a world renowned polar adventurer.

He is here today to help you find your polar bear, so you can take ownership of your problems, your motivations and your stress in uncertainty.

Our speaker and his teammates made history when they kayaked through the entire Arctic Northwest Passage. The 103 day adventure was packed with polar bears and near death experiences. Their success earned him two World First Records, the title European Adventurer of the Year, Endurance Asia Feat of the Year, he was made a fellow of the Royal Geographical Society and named a Top Explorer by the World Explorer Collective, not to mention his best selling book of the expedition There Will Be Headwinds.

Ladies and gentlemen, please welcome, record setting adventurer, Mark Agnew!”
