

FIRETUBES C/W 180° HOT PRESSED RETURN-BENDS
DESAND WASH SYSTEMS
FULL RANGE OF GASKETS

FIRETUBES

- Reduce costly downtime with the installation of a Hot Formed Pressed Return bend on existing & new firetubes.
- This Hot Formed Pressed return bend replaces the typical 4 and 5 piece mitre designs
- ATLAS can supply for all OEM and After Market Treaters, FWKO's and other fired equipment
- Sizes include: 18", 24", 30"
- Full in-house design and CRN/ASME registration
- Comprehensive repair and alterations as required including Obround Flange rebuilds, Fired and Exhaust leg replacements.

DESAND WASH SYSTEMS

- Extend the service life of your firetubes by having ATLAS custom design and install a desand wash system on your firetubes
- ATLAS can install on new and used firetubes including OEM and After Market Fire tubes

GASKETS

- ATLAS can supply full gasket sets for all OEM and After Market Treaters, FWKO's and other fired equipment
- At ATLAS we generate the drawings and cut the gaskets in-house resulting in quick turnarounds

OBOUND FIRETUBE BLIND FLANGES

- ATLAS can supply Obround Firetube Blind Flanges for all OEM and After Market Treaters, FWKO's and other fired equipment
- Full in-house design and CRN/ASME registration
