Zim Olson & Zim Mathematics

In order to address the numerous contemporary political dialogues which have failed to come to terms with System(s) concepts, I have started this Zim Math section, "Contemporary Commentary".

Some contemporary Mathematicians may recognize there is no Additional or New information in our Universe. Pseudo "Mathematicians" may not agree. Systems Math simply incorporates completely our domain of information into our available and axiomatic express-ability domain of Mathematics. As always intended."

And as editorial policy of Zim Math I expect to provide Additional Mathematics within the already recognized information domain.

Mathematics can make quick work of "Conservative/Liberal" Debate

I am a registered "Unaffiliated" voter. Reasons of mine are that although Republicans in general acknowledge Truth and it's applicability with logic and math, their Math is more often than not in error. While the Democrats aware of these errors subsequently fail to acknowledge an existence of Truth (Just another word in dictionary) and it's applicable Math and Logic. However if either parties were asked the infamous question (Biblical as well) "What is Truth?". Neither party would be able to offer a better response than the Biblical, Pontius Pilate, 2000 years ago... Zim Olson

Pseudo Political / Religion vs. Mathematics.

Equality and / or In-Equality express-able in Math vs.

Pseudo Political / Religion Equality or Inequality

The so called Political Diatribe of “Our founding fathers having sound understanding of Principals / Principles of US Government for Express-ability / Freedoms for all, but also including Christianity, as giving certain outcomes?”...

I see the outcomes of this to be certain, also. Jesus is Lord of Principal and Viable Express-ability.

Wives are ALWAYS right. Working from open domain is NEVER wrong. Everyone knows this already. Zim Mathematics provides a “How” and a “Why”.

Comparison and contrast of pseudo options or behavioral options can be exceedingly unhelpful, providing only additional Ms-information.

Our LBGQ friends insist on a methodology of selected/omitted principal object(s) expression(s). Science, as Expressed, is Glorified witchcraft. Science insists on denying/ignoring Principal/Principle powers, while utilizing other powers.

I heard on the “Network” from Zim Mathematics, “Obama is going to one up his LBGQ friends and experience a Race Change and become a Christian”. Jesus provides US the Answer regarding “Racism”, but this is only half the equation & lacking important information. Jesus provides The Answer **AND The Question. No need to ask the same old dumb question over, over again.**

Contrary to some of us, “Dysfunction is not a variation or another form of function” .

Admittedly I am no definitive expert on broad analysis of Social topics and issues we deal with as in today. It seems to me that the lady's strong point in intelligence is not in a functional intelligence. And vice a versa in that functional intelligence may not always be so intelligent either. But with systems mathematics these different features in intelligence are readily identifiable.

The Holy Spirit is not a God. That is what New Age teaches. No father, No holy spirit. A Zero in a computer is Zilch without a one digit. Much social instruction may be derivable from this example.

Any such One would be incapable of calculating *itself* to some Narfdum level, without a dedicated Zero digit.

The lady at the Social Security Counter asked me what my ethnicity or race was. I thought to myself, "I think my wife is from Venus, and I must be from Mars and this is the only ethnicity I am concerned about". The poor lady at the counter looked as it had been a long day already that morning and appeared to have already reached her quota of commentary from other customers.

Education Systems in US to can be easily pinned for the pathetic contemporary dialogues in media. Where information is billed as a form or variation of Truth. Stuff is not a fact and is not truth. For example: A commode is not a fact and also is not truth. At best a commode is a commode. We are indeed Thankful for this. Some in politics today tell us Love = Love, as some logical statement in which to develop our understanding of political issues. Or maybe as some foundation to build our understanding. Clever people can clearly show that ...

... Love is a Commode. However, the utility of this understanding is not clear. No identifiable use of principal / principle utility can be shown. Giving no information for developable/ reducible logic. As with our political dialogues of today.

They may as well as tell us Love = Shmove. Which appears to what many get from the proposed political foundation, Love = Love.

It is Zim's futuristic Vision, no one will spend immense fortunes of time, money and energy with these learning institutions that invest heavily in established pseudo learning-domains involving pseudo political express-ability, that give us only limited, terminal express-ability outcomes.

In my younger years I felt the Higher Common Denominator was the target in media dialogue. Now days, with diversity, inclusion, unit-versal equality it seems the lower common denominator has been the target dialogue in media. Resultant outcomes on content offered the public is completely outrageous.

Watching TBN today, before leaving for work. Commentator concluded with remarks by USA Founders "All men are Created Equal" as giving us foundations for rationale. Here is Zim Olson's commentary: Jesus "All believers and unbelievers are as sheep (Equal/Equality). Believers able to recognize my voice". Zim Math "All Humanity are Equal (Dumb/Intelligent)". This is shown and proven Biblically and Historically to provide **NO** utility". "Equality" just one more contribution to our pseudo piles. ... Just got the brainstorm to Winter Proof our A/C to keep cold weather out of our Apartment in Denver CO. This made me think, President Obama and I think more alike than I realized. "All things are possible with Duct Tape"..... Don't vote for Zim for Prezident either.

Every(1) = Any(A) = Something (_) = Non (_ 0)

The USA does not officially utilize universal standards of omission of information methodologies, while others and other nations officially do this. USA official policy of Separation of Church and State has given us the net result of banning discussion of religious paradigms and information from our Education systems and Governments. Giving the added outcome of an overwhelmingly ignorant USA population. However, USA News networks officially utilize standards of omission of information, for which, I think, they will be officially in serious trouble, sooner than later.

Consensus or agreement is not express-able within pseudo or partial express-ability domains. Principal and Principal open domain express-ability makes available consensus or agreement of identified object(s).

Understanding and G-dly Understanding are image based. Images are partial, principal, pseudo based and consist of some inverted, "backward", "upside down" principal expression(s).

The only Truth machine on Earth ever, was Jesus. The rest of us fall short.

A friend walked up to the bus stop with a T-Shirt yesterday. I could read some of it, "Science is Real, Fake News is Real, Love is Love, No one is illegal, etc." Thought to myself a number of responses quickly, here are some that I am able to write down, "Principal Earthly non-function is real, Satan is real, you are real, Love may equal Love but I am not sure what else Love equals, And I guess we all must be legal then". AND Even Stuff matters and is important! ... The long standing and so called fundamental Greek Philosophy of Humanity possessing a basic innate intelligence governing our behavior, is obviously seriously flawed.

The too much of a "Bad/Good" thing. Most of us are aware we are all part of Satan's domain. When we become part of Satan's kingdom (Capitol S) this becomes very, very Bad. As we all know logic can get you to heaven, and logic can get you to hell. Principally it is your choice. As in the Nazi phenomena of the last century. This segment recognized and identified with a phenomenon of Evolution, deciding that's us and we are it, all we need to do is give Evolution a little helping hand. The capital "S" of the 20th Century. A principle vs principal unity. Evolution, yet another glorified form of "Stuff" Theory.

As documented in Bible, Truth and Love are recognized as inseparable

As documented in Bible, Truth and Love are recognized as inseparable components to viable understanding and behavior. So without Truth there is no love. And without Love there is no Truth either. Selection / Omission Knowledge systems utilized by politicians have no utility.

The "Truth will set you FREE" does not apply to many politicians apparently, for a more important reason. They must be working on more important issues.

Pseudo US Politicians have decided they are not going to do this War thing anymore. Zim Mathematics considers any express-able object(s) within principal and principal open domain as feasible. However I do not think the Pseudo Political agenda domain will accomplish this with some sort of "Rain Dance" political platform. See My Math Art slide of "How to win a war by not doing something"

Some may consider Mathematics the only paradigm, so much that it does not make sense to disagree with anyone, simply because Mathematics is the only paradigm. Life on Earth somehow finds it necessary to utilize "Mathematics" in "Intelligent" behavior. Any source and/or origin(s) may not be derivable without such available utilizations. Any developability and/or reducibility of behavior, expression(s), and so called intelligent express-ability, may not be available without access to this utility...

...Express-ability however enables and incorporates non-express-ability with express-ability. This enables terminal series, events, truth vs. false paradigms, and the Earthly recognized system of behavior Earthly non-function. This is also apparent in contemporary political agendas.

Contemporary, prevailing educated philosophies appear to hold that all realities, Human or otherwise, as pseudo and programmable states. At the same time there seems to be no awareness of Uni-versally available system(s) concepts and their corresponding domains. A Zim Mathematics survey quickly shows at least 47 billion possible systems expressions. This does not include m-nkind's expression of expression(s) capabilities. In one of my typical Moments in Zim Math Description, I coined the term "Systems Weaponry". I expect NO difficulty in the acceptance of this description of my math, its utility, and readily available application, in this country. A vast number of individuals will be readily able to grasp the utility of this idea. Zim Mathematics provides valued systems concepts using principals / principles found in the Bible. The biggest joke in our uni-verse per available knowledge: Is that now that we know that all object(s) are express-able as Equal AND/Or Non-Equal, we "know" everything we need to make all stated object(s) as feasible. Ha! An incredibly huge joke on Earthly system(s) of "intelligence" and "knowledge". For example, imagine, some one taught/explained digital logic to you and said you now know everything you need to build a PC! AND it will never get any better with contemporary knowledge systems and intelligence systems. Jesus told us this on the cross. Humanity paradigms and their dependence on the Tree of Knowledge of Good and Evil. ie Expressions of Expressions (partial systems), is completely futile.

Available principal express-ability may be derivable from a computer generated object(s) list of some combine-able pseudo constructs giving new express-able principal object(s) and new Earthly + Viable express-ability. Inclusive of all possible Domain(s).

Our Kingdom of intelligence and corresponding domains stem from the famous and well documented Tree of Knowledge and Good and Evil. Mathematically documentable as our Earthly available Expressions methodologies. These principal / principle expressions provide us with partial system images at best. "Backwards", "Upside down" and much worse.

Our attempts at complete system express-ability with contemporary principal and principle expressions of principal and principle expressions and their domains, provides only terminal Events AND/Or series, Chronic Dysfunction, Truth vs False Paradigms, Life Or Death outcomes.

The Promise: Principal / Principle Express-ability within Principal/Principle Open Domains. As Documented in the Christian Bible. Our Countries only source to Opportunity, Wealth, "Gold", and Freedom.

And another morning, as we usually do, Ruth and I read something from the Bible. And with my usual cup of coffee I made my usual BRILLIANT commentary, "You know, it is good NONE of us read with the same comprehension or understanding as Everybody AND Anybody would be completely in error, ALL the time." It is our available Freedom within principal / principle domains and principal / principle express-ability that gives us our opportunities and ONLY viable Truth.
