Traditionally, the United States recognizes that if Everything does not Add up, the Bubble will burst, no matter how GREAT an Idea you have.

US economy , citizenry, Government is still governed by market pressures . You still cannot take fake news, marijuana high and smoke to the Bank.

“Our Federal Government has a perceived Policy to not exclude large segments of US population from participating in the principal/principle American Dream.” A-men.

Aspiring Know it All's.

A point of interest in Earthly Systems Math: A rationale of why we find No Know it all's on Earth after eons of so called Earthly evolution may be found in the following system expression; Every(A) = Any() = Some () = Non(A), documenting the Every Functionality of A is the functional equivalent of knowing nothing about A.

Which may explain why we end up with archaic intelligent methodologies such as Mathematics to approach this domain from Earth.

“Average”, “Norms”, or “Normal” have nothing to do with Statistics.

A metric of pseudo express-ability and domain gives no metric or indication of principal/principle/open-domain express-ability and domains.

In my younger years I felt the Higher Common Denominator was the target in media dialogue. Now days, with diversity, inclusion, unit-versal equality it seems the lower common denominator has been the target dialogue in media. Resultant outcomes on content offered the public is completely outrageous.

Equality AND/Or Inequality is express-able in Mathematics, within recognized available information of Principal / Principle open Domain Express-ability. Our pseudo Government'(s) intellectual and otherwise infrastructure by design consist exclusively of partial systems and expression'(s). Giving nothing but limitation of access to the principal/principle domain(s).

Our universal Mathematical applicability

EQUALITY

EQUALITY: The REASON we consider our country the Land of Promise and Opportunity is we consider and value our citizens as individuals. In fact we have somehow known that all of us are absolutely unique, and that none of us are equal, at ALL. AND subsequently within our Country's G-d given domain, recognized within principal and principal open domain express-ability, all of our unique citizens have unique value that no one or anything else has. AND no one else can provide. This gives us foundations + rationale for valuing our citizens as individuals. "All M-n are Created Equal", does not mean we are all some Image of information of some one, a Political Party or psychology.

Zim Mathematics

A contemporary origin to issues with the topic of “unity” lies with only our Mathematical challenges.

With Available Biblical Principal / Principle express-ability, it can all add up as a principle / principal “fruit salad”.

Solve this Expression for "Equality"

Every () Any(A**) Some() Non () =
Every () Any(**A**) Some() Non ().**

E=MC2

Or

**A System as Complete Expression(s) of an Object(s).
w/ Expression(s) Mathematics**

Every(X)Any(X)Some(X)Non(X) 1

E=MC2: E AND MC2 vs. E AND/Or MC2. As interpreted with available systems concepts, terms. Any(A) = Every(A), where the our Earthly functionality of Energy is documented as functionally equivalent to Every functionality of Energy. But we now know the rest of the equation with available systems concepts; Every(A)=Any(A)=Some(A)=Non(A) is now documentable where the Functionality is the same here for System and Sub System, and with the Nil value of A also expressed. This interpretation also shows the Nilism Kingdom as completely and explicitly expressed with available systems concepts. Otherwise known as Satan's kingdom, as expressed.

Albert Einstein in his self determined fate of a Relativistic Qualitative domain, must be frowning at the Lawyers of Washington DC, doing once again their own thing with the famous Equality application but in their own pseudo/partial terminal Lawyer Domains.

Pro-Choice

or

1 Or 0

Pro-Choice: Pro Choice (1 Or 0) vs. Choice. Choice as available within Humanities viable express-able domain, Principal/Principle AND / Or Principal/Principle Open Domains.

The assumed link between choice and outcome is implicitly / explicitly applied in Pro-Choice (1 Or 0). This choice utilizes the omission of information Methodology as chosen intelligence domain. Pseudo express-ability gives outcomes within pseudo outcome domains AND the corresponding availability of Pseudo/Partial Intelligence express-ability.

Freedom of Choice (1 Or 0)

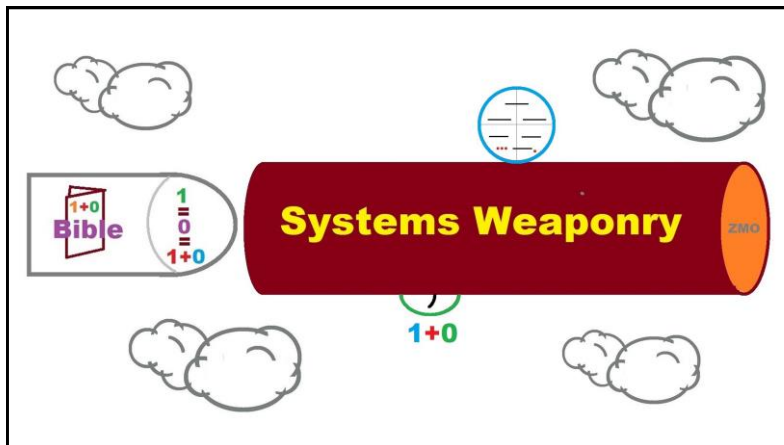

as m-nkinds' intelligent methodology, our source to constant ms-information, ms-truths, false vs. truth, illness, death vs. life, and chronic dysfunction .

Dominion and/or ownership of this express-ability paradigm has un-numerable precedence. Dinosaurs incorporate this paradigm if not ownership of express-ability. The GREAT Roman Empire took ownership as their lawful and governing methodology. Nazi's of last century in context of recent conflicts assumed this the more viable paradigm, and attempted to re-establish this 1 Or 0 express-ability dominion.

This calls for Zim Math Systems Weaponry

As with The ...

Zim Math Bazooka

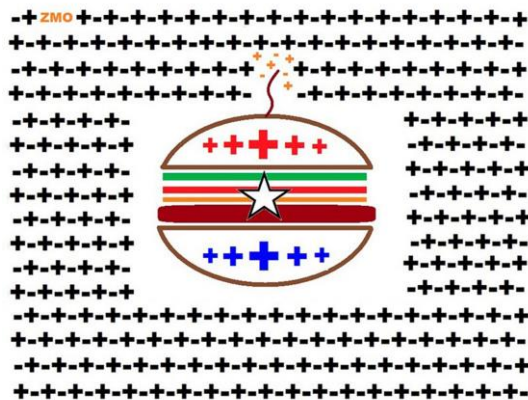

A Systems Math outline of the Zim Math Bazooka could include the following:

1. Any express-ability outcome of Principal object and/or object(s); $1=0=1+0 \dots$. As Jesus said in the Bible " You can tell a Tree (Zim Math Bazooka) by it's Fruit"
2. This bazooka should enable an outcome of the dominant express-ability of principal / principle "Horizon" Intelligence.
3. Any Object(s) should be readily identifiable as such. Otherwise, crank up the Systems math weaponry and available **Zim Math Bazookas !**

All Zim Math Conceptual Content of principal / principle express-ability, in all honesty, I dreamed up with reading the New and / or Old Testaments of the Bible. And we all 'know' full well this was written about 2,000 years ago. Documenting expression(s) of expression(s) history of the past 2,000 years giving our testimony. This state of intelligence that Humans lay claim to is nothing to aspire to. Essentially Humanity has no due claim to any such so called source. Our availability of principal / principle expression solely indicates our source to principal / principle express-ability domains (Our "Systems Math Weaponry")

The GREATest Idea of all

Time

Our Human Propensity and Tendencies of Grafting ourselves into the "Earthly" Systems, have given us Global intellectual infrastructure(s) patterned, mathematically and otherwise, as cumulative additive system(s). This has given us our worldly *realities* of systemic failures and chronic vulnerabilities from within and from without.

Such architectures NEVER add up to Anything at all.
