**This is Zim Olson of Zim Mathematics. The Mathematics of Zim Mathematics content is easily summarized. It seems sensible that all Math object(s), knowledge object(s), physical, symbolic, life, moral, art, qualitative, numeric, lawful, logical object(s) can and indeed are (implicitly/explicitly) interpreted as System concepts.**

**These system concepts are easily recognized and documented as our source, historically and otherwise, to all knowledge paradigms. I employ many systems concepts identifiable in my readings of the Bible, New and/or Old testaments.**

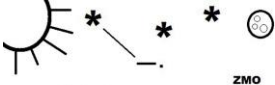

**I claim as a Dominant Mathematical Paradigm, “A Systems and/or Sub Systems as expressed for all object and/or object(s) within all domains”. Including expressions and/or non-expressions. Where all object(s) are express-able as such and indeed always have been, but entirely on a ad-hoc, pick and choose basis. One end result of this paradigm, is the providing of a principal and/or partial, principle and/or open domain measure of rationale. Mathematically and Logically. This signals the end of the domination of the intelligent methodology “The Tree of Knowledge and Good and Evil” or recognized as “Expressions of Expressions”, partial systems dependence & methods.**

**The utility of recognized principal objects as system(s) is shown, ie 1,0, 1+0, 1 or 0, 1 and/or 0 . Providing a tenable and viable Math + Logic alternative. Object(s) combinations identified also provide a source to additional Earthly/Heavenly express-ability.**

**The Jesus Principal / Principle express-able objects documented in the Bible, provide our source and analysis, rationale, 1 **AND/Or** 0. This also gives us our mathematical source to Subjectivity **AND/Or** Objectivity, serving as the implied / explicit basis for our Scientific Methodology. And also documents our Christian foundation, Evidence **AND/Or** Faith.**

**Object(s) as Identified provide us the “Additional” Earthly AND/Or Heavenly Express-ability.**

**Human AND/Or Spirit**
