NAIL RESTORATION SYSTEM

**Stefie's Niche offers this Revolutionary Cosmetic Procedure with Three Important Benefits:**

- *KeryFlex allows your natural nail to continue to re-grow.*
- *The new nail is strong and flexible and looks fully natural.*
- *Cured resin is impervious to nail polish, hot water, detergents and acetone.*

KeryFlex Nail Restoration is a painless, in-office application that restores the appearance of an individual's natural nails. This system remodels damaged nails affected by fungus, defects or trauma. The composite resin creates a flexible, but durable, non-porous nail that allows the remaining natural nail to grow.

*The KeryFlex nail is an immediate cosmetic improvement providing a perfectly natural-looking nail.*
