SELENE

Contemporary Plain

Timeless yet contemporary, our Selene fabric is available in diverse colourways that encapsulate the most on-trend hues, from gentler neutrals to warming amber tones. This collection of classic plains is ideal for intensive use for upholstery, drapery, or accessories.

"Colors, like features, follow the changes of the emotions."

- Pablo Picasso

A modern interior scene featuring two armchairs, a brass lamp, and a large window. The room has a rustic yet sophisticated feel with exposed brick walls and a wooden floor. A large, multi-paned window on the right allows natural light to fill the space. In the foreground, a teal armchair with vertical ribbing and dark wooden legs is partially visible. To its left, a pink armchair with similar ribbing and dark legs is positioned. A brass desk lamp with a long, adjustable arm and a conical shade hangs over the pink chair. In the background, a wooden shelf holds a few decorative items, including a green vase. The overall aesthetic is a blend of mid-century modern and industrial design.
