

The Intel Unite solution lets you easily create and manage a secure content sharing and collaboration platform for your organization. Wirelessly connect displays, employees, and mixed technology environments so your team can share and collaborate seamlessly, wherever they are.

Intel, AgilQuest, and Meeting Machines are working together to enable a user to book a room and check-in via the Door Sign, Mobile App, or Web Browser and simultaneously launch the Unite application to create a seamless user experience from booking a room to starting a meeting.

Meeting Machines Unite System

Intel Core i5 vPro, 4GB RAM, 120GB SSD
