Hello! We're Best Pest Solutions and we're here to help you get rid of your Bedbugs. Pest control works more effectively and quicker if the tenant and the technician work together. By following these Do's and Don'ts, you can help us help you. Not following the recommendations can drag out the time it will take to resolve the problem, and may make issues worse:

Do	Don't
Put all clothing and linens through the dryer on high heat for a minimum of 30 minutes	Throw out furniture (bedbugs will jump off furniture while moving and spread problem)
Get Mattress & Pillow protectors (available at most department stores, or we can purchase for you)	Use <u>ANY</u> over the counter treatments (foggers, raid, borax, alcohol, homemade treatments etc)
Keep track of areas where you are still seeing activity	

To effectively get rid of bedbugs, we need to come and treat every 2 weeks until the problem is resolved.

If you have any questions, comments or concerns, feel free to reach out to us via call or text message at the number above, contact us through our website, or email us directly at bpsolutions22@gmail.com

We are eager to get this problem solved for you and look forward getting rid of your pests for good!
