## What do our customers say

On behalf of TCS UKI, I thank Hardy for his amazing work in scaling facilitation and training capability among our senior faculty. All his programs and coaching were received well. Thanks very much, Hardy for the immense knowledge that you have brought to the geo.  
*(Gurpreet Kalra, Head of Talent Development, @TCS UKI)*

I was fortunate to be coached by Hardy when I transitioned from an IC to a people manager role. Hardy brings so much positivity and understanding into the conversation that he changes your outlook and approach to issues. Hardy coaches you towards "Success". I feel more confident in handling any challenges that come my way.  
*(Reebhumika Sharma, Manager Global CE, FedEx)*

Hardy is a great coach. He helped me map and understand my thought patterns. This clarity, I think, will help me make better decisions. Additionally, his insights into the sales function, helped me formulate an effective sales strategy for my firm.
