Piazza	Stephanie	Stephanie.piazza@yahoo.com	8136791656	ABC Workshop	Wednesday	10AM	PK/K	ABC Workshop is a creative, play-based literacy class for Pre-K and Kindergarten students that introduces letters through music, movement, art, and hands-on exploration. Each week focuses on one letter, allowing children to practice recognition, sound, and formation using fun, non-traditional methods that go beyond worksheets. As confidence grows, students begin forming simple words and making letter-sound connections in an engaging and supportive environment. This class builds early reading readiness while fostering a love for learning through creativity and play.	ALL curriculum included in cost	All supplies included in cost	\$577	\$57.70
Pepe	Kendra	kendrapepe@gmail.com	8139242364	Acting for Film and TV with Content Creation	Wednesday	10AM	8, High School	Step into the world of on-camera performance! In this engaging, fun-filled class, students will learn how real TV and film actors prepare for scenes, auditions, and on-set work. They'll practice delivering authentic performances, breaking down scripts, and understanding what casting directors look for. Students will also get a taste of content creation—learning how to craft short, eye-catching videos with creativity and purpose. Whether they dream of being on screen or just want to build confidence and communication skills, this class gives them the tools to shine in front of any camera.	This cost covers all editing programs and curriculum.	All students will need a 1 inch 3 ring binder to hold scripts.	\$679	\$67.90

Brown	Cindy	rockhousecoffeecompany@gmail.com	8313061680	Acting Workshop - Acting & Improv I	Monday	11AM	3, 4, 5	Students will be introduced to stage acting and improvisation through theatre games, improv exercises, acting instruction, basic choreography lessons, and classroom performances. Students will grow in their creative thinking, problem solving, and communication skills through individual and team assignments, such as writing & performing skits & comedy sketches, monologues, musical theatre numbers, & choreography.	ALL curriculum included in cost	Acting folder, notebook, writing utensil	\$600	\$60.00
Brown	Cindy	rockhousecoffeecompany@gmail.com	8313061680	Acting Workshop - Acting & Improv II	Monday	12PM	6, 7, 8	Students will learn the fundamentals of stage performance through interactive lessons, acting exercises, improv games, basic choreography lessons, and in-class performances with feedback. Students will be required at times to memorize short performance pieces at home to present in class. Many theatre students overcome social anxiety, gain confidence, learn teamwork, grow in character, and develop a love for the arts.	ALL curriculum included in cost	Acting folder, notebook, writing utensil	\$600	\$60.00
Brown	Cindy	rockhousecoffeecompany@gmail.com	8313061680	Acting Workshop - Acting & Improv III	Monday	10AM	High School	Students will dive deeper into the fundamentals of stage performance through interactive lessons, acting exercises, improv games, basic choreography lessons, and in-class performances with feedback. Students will have creative writing opportunities and be required to memorize short performance pieces at home to present in class. Many theatre students overcome social anxiety, gain confidence, learn teamwork, grow in character, and develop a love for the arts.	ALL curriculum included in cost	Acting folder, notebook, writing utensil	\$600	\$60.00
Wilson	Michele	hatutoring@icloud.com	8134828099	Algebra I	Monday	11AM	7, 8, High School	DESCRIPTION: Welcome to Algebra I with Mrs. Wilson. We will be using Mr. D's Algebra I Curriculum. Students will have a log in to Mr. D's website with the purchase of their curriculum. Classes are taught live, with video lessons and homework help available for at-home use via the website. All of the grading is completed by the student and entered into Mr. D's grade book. Parents will have access via their student's log-in to view their student's progress. PRE-REQUISITE: Pre Algebra. Your student should be able to achieve 13 out of 15 correct without assistance* on the Section I portion of the Algebra I readiness exam. Section II is not required. *Without assistance - if you just had to give a minor jog of the memory, that is fine, but then they should be able to do the exam again without assistance. https://www.teachingtextbooks.com/media/pdf/Algebra1-Placement-Test.pdf ALLERGY STATEMENT: Please do not register for this class unless you agree that your child will come to class with scented body/hair products (including, but not limited to, essential oils), or with latex (ex: balloons). Exceptions for scented is peppermint, spearmint, eucalyptus, and menthol. I will provide soap and hand sanitizer that is allergen-free for students who need it. A reaction can cause class disruption.	All curriculum included in cost.	REQUIRED: 2 in. 3-ring binder and a 3-hole punch A TI-84 PLUS CE/calculator is recommended for homework. I will provide calculators for in-class work	\$628	\$62.80

Nastelli	Dr. Andrea	amnastelli@zoho.com	7033002014	Anatomy	Wednesday	8:30-9:55	8, High School	<p>Explore the Wonders of the Human Body!</p> <p>Students are invited to dive into the richness and fullness of life as we explore what it means to be healthy and to care for our bodies as Christ has charged us. Each human body is a powerhouse—an incredible example of our Creator's intentional design. Did you know that our bodies are self-healing and self-regulating? The choices you make each and every moment serve as the blueprint your body uses to function, adapt, and thrive.</p> <p>Exploring Creation with Advanced Biology: The Human Body, 2nd Edition offers a gorgeous and immersive study of the human body's 11 organ systems. This curriculum provides an in-depth exploration of both the anatomy and physiology of each organ system.</p> <p>Students who complete the full course—including thorough documentation of all labs, experiments, and dissections in a lab notebook—may earn honors-level science credit.</p> <p>Designed with homeschool high school students in mind, this high-quality program includes:</p> <ul style="list-style-type: none"> • Study questions • Laboratory exercises • Module study guides • Full-color photographs and illustrations • Opportunities for in-class dissections <p>*Please note: Students are responsible for purchasing their own curriculum materials.</p>	<p>MUST PURCHASE CURRICULUM.</p> <p>TEXTBOOK: Advanced Biology Advantage Set, 2nd Edition (by Apologia) \$89.00 https://www.apologia.com/shop/advanced-biology-2nd-edition-student-textbook/ , ISBN: 978-1-946506-60-3</p> <p>STUDENT NOTEBOOK: https://www.apologia.com/shop/advanced-biology-2nd-edition-student-notebook-2/ \$49.00, ISBN: 978-1-940110-38-7</p> <p>SOLUTIONS MANUAL & TESTS: https://www.apologia.com/shop/advanced-biology-2nd-edition-solutions-test-manual/ \$27.00 , ISBN: 978-1-935495-97-0</p> <p>ANATOMY COLORING BOOK (Kaplan Test Prep, 9th edition – includes 450+ illustrations and 96 flashcards) \$29.99 , ASIN: B0CGZ1R65N https://www.amazon.com/Anatomy-Coloring-Kaplan-Spiral-bound-Stephanie/dp/B0CGZ1R65N/ref=sr_1_1?crid=JVW9200TVFSZ&diib=eyJ2IjoIMSJ9.MANNjXhLgEym3yT8m1kMx0.fJCUzE2IzVbFJNuAyrxtDuRb26V-fd5bpAKSIq8U&diib_tag=se&keywords=Anatomy+Coloring+Book+%28Kaplan+Test+Prep%2C+9th+edition+---+includes+450%2B+illustrations+and+96+flashcards%29&nsd0ptOutParam=true&qid=1765246619&s_prefix=anatomy+coloring+book+kaplan+test+prep%2C+9th+edition+includes+450%2B+illustrations+and+96+flashcards+%2Caps%2C119&sr=8-1</p>	1- (1) binder or pocket folder with notebook paper colored pencils highlighter	\$800	\$80.00
Danciger	Wendy	danciger700@gmail.com	8137894979	Annual Evaluations with Wendy Danciger	Schedule with Instructor BEFORE Registration	TBD	K, 1, 2, 3, 4, 5, 6, 7, 8, High School, ALL LEVELS	Homeschool evaluations consist of a one-hour meeting with parents and students to review portfolios and assess academic progress for the school year and determine academic goals for the future. An evaluation form from the county a student is registered in will be submitted. I assess all homeschooled students including Step Up and PEP scholarship recipients and will provide necessary receipts/invoices/credentials. Contact me to schedule an evaluation at (813)789-4979.	N/A	All supplies included in cost	\$136	\$13.60
Pupello	Brad	bpupello@gmail.com	7038515831	Archery	Wednesday	11AM	5, 6, 7	This class will provide the fundamentals of archery to include range safety, proper shooting form, and how to handle equipment with confidence. This class is for novices and journeymen alike. Students will learn the intricacies of the long bow, recurve bow, and compound bow. We will mix in occasional history lessons to provide a deeper appreciation for the sport and for the impact archery has had on our history. Whether you're looking to try archery for the first time or looking to dedicate additional practice and coaching, this will be a year-long evolution. In the Spring semester, archery students will be encouraged to join our TEACH Archery Team for local competitions in the Tampa Bay Area (optional).	All curriculum and materials for the class is included in the price and will be provided by the instructor. Field trips will be additional cost.	Bows, arrows, targets will all be provided. Students are welcome to bring their own equipment to practice.	\$705	\$70.50

Price of class includes practice bows, arrows, and targets for each week. If the student would like to learn on their own bow, they are welcome to bring one.	\$705	\$70.50
Chen	Ping	pingcatbaby1@gmail.com	8132201194	Art	Monday	1PM	5, 6, 2007	<p>Creativity is making new connections and new synapses. Explaining art's effect on the brain is most impactful in children.</p> <p>The neural pathways created while engaging in art better prepare the brain for learning new skills throughout life, and not just for their art skills, it helps math language and science too. Art is a platform for children to unleash their boundless creativity and imagination. Through art, kids can express themselves freely and explore different ideas, concepts, and perspectives. They can experiment with colors, shapes, and textures, and come up with unique creations that are truly their own. This process of creative thinking nurtures their imagination and helps them develop problem-solving skills that can be applied in various areas of life. When children create art, they develop a sense of ownership and pride in their creations. Displaying their artwork in the form of a drawing, painting, or sculpture can boost their self-confidence and sense of accomplishment. Art provides children with a safe space to express themselves without fear of judgment, which helps build their self-esteem and encourages them to take risks and try new things. Art can serve as a powerful tool for children to express their emotions and thoughts in a healthy and constructive way. Art can also be a means of connecting with peers and building friendships as children share their artwork and engage in discussions about their creative process.</p> <p>Art exposes children to the beauty in the world. Through art, they learn to observe and appreciate the aesthetics of nature, people, and objects. They learn to pay attention to details, colors, patterns, and more! The students will follow the instructor to learn how to use acrylic paint and watercolors to paint landscapes, people and animal portraits; Use an etching tool or a steel pen to etch on multiple color and B/W boards; Use colored pencils and graphic pencils to draw realistic human and animal portraits; use colored papers to create 3D art; Use air dry clay to sculpture a variety of animals and things; Use markers, charcoals, colored pencil pastels and color papers to create people and cartoon characters; Use pen and ink to do ink wash art and line art</p> <p>ALL MATERIALS AND SUPPLIES ARE PROVIDED</p>	No curriculum necessary	All supplies included in cost	\$655	\$65.50

Art can also be a means of connecting with peers and building friendships as children share their artwork and engage in discussions about their creative process.</p> <p>Art exposes children to the beauty in the world. Through art, they learn to observe and appreciate the aesthetics of nature, people, and objects. They learn to pay attention to details, colors, patterns, and more! The students will follow the instructor to learn how to use acrylic paint and watercolors to paint landscapes, people and animal portraits; Use an etching tool or a steel pen to etch on multiple color and B/W boards; Use colored pencils and graphic pencils to draw realistic human and animal portraits; use colored papers to create 3D art; Use air dry clay to sculpture a variety of animals and things; Use markers, charcoals, colored pencil pastels and color papers to create people and cartoon characters; Use pen and ink to do ink wash art and line art</p> <p>ALL MATERIALS AND SUPPLIES ARE PROVIDED</p>	No curriculum necessary	All supplies included in cost	\$855	\$65.50
Chen	Ping	pingcatbaby1@gmail.com	8132201194	Art	Monday	9AM	3, 4, 5, 6	<p>Creativity is making new connections and new synapses. Explaining art's effect on the brain is most impactful in children.</p> <p>The neural pathways created while engaging in art better prepare the brain for learning new skills throughout life, and not just for their art skills, it helps math language and science too. Art is a platform for children to unleash their boundless creativity and imagination. Through art, kids can express themselves freely and explore different ideas, concepts, and perspectives. They can experiment with colors, shapes, and textures, and come up with unique creations that are truly their own. This process of creative thinking nurtures their imagination and helps them develop problem-solving skills that can be applied in various areas of life. When children create art, they develop a sense of ownership and pride in their creations. Displaying their artwork in the form of a drawing, painting, or sculpture can boost their self-confidence and sense of accomplishment. Art provides children with a safe space to express themselves without fear of judgment, which helps build their self-esteem and encourages them to take risks and try new things. Art can serve as a powerful tool for children to express their emotions and thoughts in a healthy and constructive way. Art can also be a means of connecting with peers and building friendships as children share their artwork and engage in discussions about their creative process.</p> <p>Art exposes children to the beauty in the world. Through art, they learn to observe and appreciate the aesthetics of nature, people, and objects. They learn to pay attention to details, colors, patterns, and more! Wilson	Michele	Hatutoring@icloud.com	8134828099	Art History & Appreciation I	Monday	8:30 - 9:55	8, High School	<p>Welcome to Art History & Appreciation (Part I) with Mrs. Wilson! In this class, study some of the world's most talented artists and art styles from the 1800s to today! This is Part I, so we will be covering artists and styles from Creation to Realism.</p> <p>Allergy Statement: Please do not register for this class unless you agree that your child will come to class with scented body/hair products (including, but not limited to, essential oils), or with latex (ex: balloons). Exceptions for scented is peppermint, spearmint, eucalyptus, and menthol. I will provide soap and hand sanitizer that is allergen-free for students who need it. A reaction can cause class disruption.</p>	There is no curriculum for the course. I will provide videos and articles for the students to study.	Supplies are included in the course fee.	\$700	\$70.00
Chen	Ping	pingcatbaby1@gmail.com	8132201194	Art: Advanced	Monday	2:00 - 3:25	6, 7, 8, High School	<p>In this "open studio" style advance class, students will be taught in a workshop format that is based on assignments from the instructor. This class will help teens discover their creativity, individuality, and unique style. Students will begin to work toward building an original body of work that can be used as a portfolio that will include paintings, drawings, and mixed media art.</p> <p>The class setting is similar to an art college studio class., teens may create artwork from their own inspirations. The instructor will guide students to reach their greatest potential and help make works of art to be proud of using a variety of techniques and media. While students have had exposure they are still developing their skill. In the advanced art class, yearly curriculum is based on a theme. This theme allows students to make connections between art, academics and their personal world. This course is intended to enhance student's abilities in drawing and painting through experimentation in a variety of media. Students will be encouraged to develop their own personal creative vision, while working on refining their artistic skills through traditional studies.</p> <p>Arts education is especially important in high school, when students are making important decisions about their future.</p> <p>Arts education can help students explore their interests and talents, and it can also help them develop the skills they need to succeed in college and the workforce.Arts education is an essential part of a balanced education. It can help students develop their creativity, critical thinking skills, and problem-solving abilities in order to make them well-rounded individuals and prepare them for a bright future ahead.</p>	No curriculum necessary	All supplies included in cost	\$765	\$76.50

Warren	Thia	thiateach@gmail.com	7274180242	ASL I	Monday	9AM	7, 8, High School	<p>Students will learn foundational ASL vocabulary, enabling them to engage in basic conversations and express themselves using ASL grammar. Emphasis will be placed on understanding basic sentence structure and grammatical rules unique to ASL. ASL is the 3rd most-used language in the US besides English, and its popularity at colleges continues to rise. Most students find ASL easier to learn because they do not struggle with the accent/auditory challenge of spoken languages.</p> <p>Students can access video lessons to continue their learning at home between classes through our online curriculum- INCLUDED in the class fee. Quizzes, video assignments, and tests will be used to gauge students' progress. Feedback will be provided to help students refine their skills and build confidence in their ASL proficiency. Students also get access to weekly Zoom ASL chat sessions, where they can practice their conversational ASL skills. Monthly Zoom sessions allow for furthering their ASL learning with activities such as learning songs in ASL and guest speaker presentations. These Zoom sessions are optional but included in the class fee for students to get the most out of their ASL learning experience!</p> <p>In person class will be taught by Jayce Velazquez using curriculum and lessons plans by Thia Warren. Thia also provides monthly Zoom sessions that students can attend for additional practice and interaction. Thia is a graduate of Gallaudet University and has a Master's in Teaching ASL. She is Certified through the ASL Teacher's Association. Jayce has been learning ASL for 4 years and continues to advance his ASL skills through higher level classes. This will be his 3rd year as TA of the ASL classes. With the combination of Jayce's enthusiasm and talent, and Thia's expertise, your student will thrive!</p>	ASL Curriculum included in cost	Students need to purchase and bring to class a small three-ring binder with paper and pencils for in-class activities.	\$577	\$57.70
Warren	Thia	thiateach@gmail.com	7274180242	ASL II	Monday	10AM	7, 8, High School	<p>Building on the foundation established in ASL I, this course delves deeper into advanced vocabulary, sentence structures, and cultural nuances of ASL communication. Through interactive activities, students will enhance their ability to communicate on various topics. ASL 2 encourages active participation through group activities, role-playing, and collaborative projects. These activities provide opportunities to practice and reinforce language skills in real-life scenarios.</p> <p>Students can access video lessons to continue their learning at home between classes through our online curriculum- INCLUDED in the class fee. Langford	Marisa	MARISALANGFORD@MSN.COM	8137858484	Build Your Brand -1	Monday	11AM	7, 8, High School	Dive into marketing and brands across various industries and learn about how brands market to you the consumer and why brand building is more important to gain your trust and business. We will analyze brands, their color, their taglines, their slogans, etc. as we talk through what makes you a consumer. We will explore an impact project that ties into a non-profit of your choice & will be yours to own and grow by the end of the class. We will also lean into helping T.E.A.C.H. build their brand in the community as well!	No curriculum necessary	Canva Membership	\$679	\$67.90
Langford	Marisa	MARISALANGFORD@MSN.COM	8137858484	Build Your Brand 2	Monday	1PM	7, 8, High School	Hands-on, next-level branding class designed for teens ready to turn their skills, passions, or business ideas into a polished, market-ready brand. Whether students are branding themselves (college-bound, athletes, creators, leaders) or a business or nonprofit idea/partnership, this class dives deep into identity, strategy, and execution. We will build on the principles we learned from Build Your Brand 1. (Not a pre-requisite but a building block that could be helpful).	No curriculum necessary	All supplies included in cost	\$679	\$67.90
Reinhart	April	madamereinhart@gmail.com	8137656177	Cake Decorating 1	Monday	12PM	7, 8, High School	In Cake Decorating 1 students will be learning the basic fundamentals of cake decorating and practicing techniques using buttercream, fondant, gumpaste and chocolate. Students will be hands on each week building skills they can use for all types of decorating projects - from cupcakes, cookies and candy to cakes for any occasion. All professional level decorating supplies and ingredients are included in the cost of the class (fondant, gumpaste, buttercream, chocolate, wafer paper, edible color dusts, etc.) and every student will have their own tools to work with in class. Each week students will discover a new decorating technique and will work with different tools used for decorating all types of desserts. Instructor will need to work with parents if there are food allergies to consider.	ALL curriculum included in cost	Every student will need a means to bring their decorating projects home each week. I am suggesting a Cake Carrier with lid (at least 10" x 10"). Students are required to bring this carrier to class each week. Additionally, students need to bring the following supplies just one time at the beginning of the school year. 1)A roll of paper towel 2)A package of paper bowls 3)A package of paper Dixie cups 4)A box of vinyl, disposable food service gloves (Size LARGE only) Suggested Materials: cloth apron	\$746	\$74.60
Reinhart	April	madamereinhart@gmail.com	8137656177	Cake Decorating 2	Monday	1PM	7, 8, High School	In Cake Decorating 2 we will be learning to work with popular decorating materials and specialty tools like stencils, molds, edible printing, edible paper, edible lace and more. Students will be hands on each week building skills they can use for all types of decorating projects - from cupcakes, cookies and candy to cakes for any occasion. We'll be sculpting, embossing, printing edible images and piping flowers (just to name a few!) All professional level decorating supplies and ingredients are included in the cost of the class. These include fondant, gumpaste, buttercream, chocolate, edible paper, edible color dusts and paints, etc. Every student will have their own tools to work with in class. Each week students will discover a new decorating technique and will work with different tools used for decorating all types of desserts. Your student is welcome to join the fun!! Instructor will need to work with parents if there are food allergies to consider.	ALL curriculum included in cost	Every student will need a means to bring their decorating projects home each week. Alton	Krista	kristaalton@yahoo.com	8137279007	Chess 2	Wednesday	10AM	1, 2, 3, 4, 5, 6, 7, 8, High School	Chess is the most popular game in the world. Chess is played all over the world for the past 1500 years! Since 2016, the TEACH Chess classes have been taught by Coach Krista and a TEACH junior coach in training. Coach Krista is the founder of Alton Academy 4 Chess. Coach Krista has been teaching for over 30 years and works in chess on a local, state, and national level. Alton Academy 4 Chess is the largest chess school for students in the Tampa Bay area reaching over 300 students weekly. Chess 2 Class: This class is for beginners - intermediate students, ages 7-18 who know how to play the game of chess and understand basic strategy. Chess education helps students with focusing, problem solving, social skills, pattern recognition, creative thinking, fair play, and more! Each class includes instructional teaching and chess playing with friends. Students should want to compete in local tournaments and be part of the TEACH Chess Team. Trinity Homeschool Academy is a TOP SCHOOL in chess competition, winning more trophies than any other school in the Tampa Bay area! Students are encouraged to play in BEGINNER FRIENDLY local tournaments. Tournament participation is not a requirement. Private lessons are also available. Each student or family should purchase a US Chess regulation Chess Set (board, pieces and matching carry bag) for \$40. Each student MUST purchase a chess notation book (hard cover \$10, soft cover \$5) from the instructor at Open House or at the first class. To learn more about Coach Krista and Alton Academy 4 Chess please check out www.alton4chess.com. If you have questions if this class is the right class for your child you may text Coach Krista at 813-727-9007.	No Curriculum Necessary	Chess Notation Book from Instructor \$10	\$620	\$62.00

No Curriculum Necessary	All supplies included in cost	\$628	\$62.80
Kyper	Liana	kyperliana@gmail.com	3528756855	Conspiracy Theory	Monday	1PM	High School	Did we really land on the moon? Was 9/11 an inside job? In this class, students step into the role of investigators to examine well-known conspiracy theories through timelines, historical context, key figures, and curated source materials. Rather than lectures, students analyze evidence, identify possible motives, and map connections using visual "spiderweb" charts to see how claims, people, and events intersect. Along the way, students learn how conspiracy theories form and why they persist, ; all while practicing critical thinking, source evaluation, and logical reasoning. The focus is on questioning claims and weighing evidence, not promoting belief.	All curriculum is included in the cost	All supplies included in cost	\$628	\$62.80

Each class will focus on functional movements to build strength, endurance, and overall fitness. The class will consist of a warm up, workout, and team building game.	No curriculum necessary	All supplies included in cost	\$577	\$57.70
Wilson	Michele	hatutoring@icloud.com	8134828099	CSI Mystery Science	Wednesday	1PM	7, 8	CSI Mystery Science Welcome to CSI Mystery Science with Mrs. Wilson! Forensic Science is the application of science to criminal and civil laws that are enforced by police agencies in a criminal justice system. Forensic Science and Criminal Investigations involve the study of real-world, high interest, engaging topics. Areas of study include physical evidence: impression evidence; hair and fibers; blood basics; entomology; anthropology; arson; chromatology and toxicology. PLEASE NOTE: The course content for the middle school class WILL NOT cover all of the material presented in the high school class, and will instead be focused on the CRIME MYSTERY aspect of the cases. Videos studied will be realistic, but they are reenactments and are not inappropriately graphic. For example, if the crime being evaluated involves death with a blunt force object, the video will show the crime scene and evidence collected but obviously not act of the real crime. We will be sensitive in dealing with all topics. IF there is anything in class that makes a student uncomfortable, he/she should feel free to leave the classroom at any time. In addition to gaining a better understanding of the field of forensic science, students will leave this class with a better self-awareness and understanding of the dangers in society. The goal is not to scare students but make them cautious and less naive about their surroundings. These videos will be more limited in the Middle School course. ALLERGY STATEMENT: Please do not register for this class unless you agree that your child will come to class with scented body/hair products (including, but not limited to, essential oils), or with latex (ex: balloons). Exceptions for scented is peppermint, spearmint, eucalyptus, and menthol. I will provide soap and hand sanitizer that is allergen-free for students who need it. A reaction can cause class disruption.	Curriculum is included in the class fee.	Supplies are included in the class fee.	\$600	\$60.00
Berrojo	Jennifer	jenniferberrojo@hotmail.com	8132452582	Dance	Monday	10AM	K, 1, 2	In this class we will be doing creative movement, ballet, lyrical and jazz techniques. They will learn two dances to perform at the end of the school year.	No Curriculum Necessary	N/A	\$600	\$60.00
Berrojo	Jennifer	jenniferberrojo@hotmail.com	8132452582	Dance	Monday	11AM	6, 7, 8, High School	In this class we will be covering a variety of styles of dance including ballet, lyrical, and jazz techniques. Kyper	Liana	hyperliana@gmail.com	3528756855	Digital Marketing	Monday	12PM	High School	Digital Marketing is a hands-on, creative course where students learn how businesses and creators attract attention, connect with audiences, and grow online. Rather than focusing on personal branding alone, students dive into the strategy behind real marketing campaigns, exploring social media marketing, content creation, email marketing, influencer partnerships, and basic analytics. Students will use Canva to design digital content, plan campaigns, test ideas, and analyze what works (and why). Through projects and simulations, students will practice making marketing decisions while building real world skills that can be used for future jobs, small businesses, or creative side hustles. A laptop is required for this class.	All curriculum is included in the cost	A fully charged laptop, access to Canva, and either Microsoft Office Suite or Google Workspace	\$705	\$70.50

Wilson	Michele	Hatutoring@icloud.com	8134828099	Government/Economics	Monday	12PM	High School	Welcome to US Government and Economics with Mrs. Wilson. This year, we will be using Notgrass' US Government and Economics curriculum. The first semester we will focus on Government, and the second semester, we will focus on Economics. GRADING: This is a high school course, so recommended grades will be provided. There will be about a half hour to hour's worth of homework per week. ALLERGY STATEMENT: Please do not register for this class unless you agree that your child will come to class with scented body/hair products (including, but not limited to, essential oils), or with latex (ex: balloons). Exceptions for scented is peppermint, spearmint, eucalyptus, and menthol. I will provide soap and hand sanitizer that is allergen-free for students who need it. A reaction can cause class disruption.	Textbook available online via My Teach Portal. Hard copy books are optional and can be purchased on Notgrass.com or at the Homeschool Hive store in Tampa.	Supply fees are included in the class.	\$600	\$60.00

Chen	Ping	pingcatbaby1@gmail.com	8132201194	Graphic Design	Wednesday	8:30 - 9:55	6, 7, 8, High School	<p>Graphic design courses are educational programs that focus on teaching students the principles, techniques, and skills necessary for creating visual designs for various mediums. Computer graphic design combines skills in technology, business, and art, using computer-generated images and words to create unique concepts and messages for publishing and advertising. Computer graphic design is everywhere in the modern world. You see it on street signs and in restaurants, television programs and magazines. Computer graphic designers use technology to manipulate and combine words, images, color, typography and sound in order to elicit emotions and deliver messages to viewers.</p> <p>In this class the students will learn how to create picture images; how to design signs, ads, business cards, flyers, posters, greeting cards, book covers, billboards, brochures, banners, logos, t-shirts, and many more.</p> <p>These courses typically cover a wide range of topics related to graphic design, including:</p> <p>Design Fundamentals: Graphic design courses start by covering the basic principles of design, such as color theory, composition, typography, and layout. Students learn how to effectively use these elements to create visually appealing and cohesive designs.</p> <p>Software Proficiency: Graphic design courses often include instruction on industry-standard software tools used in the field, such as Adobe Photoshop, Illustrator, InDesign, Piktochart and Canva etc. Students learn how to utilize these programs to create and manipulate digital graphics, images, and layouts.</p> <p>Branding and Identity Design: Students are taught how to develop visual identities and branding materials for businesses, including logos, business cards, letterheads, and other marketing collateral. They learn about the importance of consistency and how to convey a brand's message through design.</p> <p>Print Design: Traditional print design is still relevant, and graphic design courses often cover topics like designing for print publications, such as magazines, brochures, posters, and packaging. Students learn about print production processes and how to prepare files for printing.</p> <p>Motion Graphics: Some graphic design courses may include instruction on motion graphics, which involves creating animations and visual effects for videos, presentations, and digital media. Students learn how to use animation software and techniques to bring their designs to life.</p> <p>Portfolio Development: Throughout the course, students are encouraged to develop a portfolio of their work. They learn how to showcase their skills and create a professional portfolio that highlights their design abilities, creativity, and versatility. Overall, these courses provide students with the knowledge, skills, and practical experience needed to pursue a career in graphic design.</p> <p>Materials: PC or MAC laptop Computer, mouse, charger (or make sure the computer fully charged before come to the class), bring your notebook to each class. No experience needed. We will set up the account and download software in the first week of class."</p>	No curriculum necessary	Materials: PC or MAC laptop Computer, mouse, charger (or make sure the computer fully charged before come to the class), bring your notebook to each class. Pupello	Bradford	bpupello@gmail.com	7038515831	History of Espionage	Wednesday	2PM	8, High School	In History of Espionage, students will learn how spy craft is the story of clandestine information gathering and is as old as civilization itself. Beginning in biblical times, our class will study espionage (like Moses's spies in Canaan) to complex modern agencies (CIA, KGB, and Mossad) using advanced gadgetry. We will observe the exploitation of statecraft directed espionage for secrets, employing agents, codes, sabotage, and psychological tactics. We will reflect on Sun Tzu to World War II, Cold War gadgets, and today's cyber threats and modern espionage capabilities, driven by rivals seeking advantage through secrets.	All curriculum and project supplies will be provided by the instructor and are included in the cost of the course (approximately \$75).	Notebook, writing utensils, and access to MyTEACH.	\$600	\$60.00
Pupello	Bradford	bpupello@gmail.com	7038515831	History of War	Wednesday	1PM	8, High School	<p>This course will provide students with an opportunity to explore Military History across several key eras. We begin with the biblical lessons of Military History and warfare in the Old Testament. We will proceed to include warfare in theory, technology, philosophy, and culturally across the following eras:</p> <ul style="list-style-type: none"> •Ancient warfare (Biblical and Hellenic) •The Roman Empire •Persian and Islamic Empires •The Crusades and Medieval Warfare (Spring Semester) •Naval Warfare and Naval Engagements •America on the Rise •World Wars •Cold War and the Evolution of Low Intensity Conflict •Skies & Space, and Future Warfare <p>Each month, students will dive into several examples of Military engagements across time periods to understand the soldiery, weaponry, tactics, strategies, and culture of the combatants. We will draw biblical truths and historical lessons of the rise and fall of these empires and military conquests.</p>	All curriculum will be provided by the instructor and is included in the cost. Weapon replicas, class projects, and supplies for other building projects is included in the cost. Field Trips may cost extra and are optional.	Notebook, writing utensils, access to MyTEACH.	\$600	\$60.00

Roberson	Michele	michelesfone@gmail.com	7273643351	HISTORY: In God We Trust	Wednesday	12PM	3, 4	<p>God's care, control, plan and timing of events is highlighted over the course of history. Our text will highlight the origins of nations, God's law, Christianity's response to pagan beliefs, and Scripture's influence on history. It will follow the exploration and colonization of North America and give considerable attention to divine providence and the American Revolution. Study will continue with the remarkable period of invention and westward expansion, the World Wars, and a look at our motto, "In God We Trust."</p> <p>The textbook is The Mighty Works of God Divine Providence by Ruth J. Smith. Also recommended, but not required, is the user-friendly Teacher's Guide. It gives a wealth of resource materials as parents partner with the instructor to create a full and rich study of history for your student this year. Well-organized Reflection and Reasoning questions bring forward leading ideas that will transform your student's thinking.</p> <p>In this class, the students will compile their own, personalized, individual notebook. It will be created in part from the Student Activity Pages provided in the curriculum, projects in class, and whatever parents may use at home to expand the subject. The hope is this notebook will be a source of pride for the student as it will be a unique record of their hard work and growth.</p>	<p>The Mighty Works of God Divine Providence Student Text ISBN 9780970581855</p> <p>The Mighty Works of God Divine Providence Teacher's Guide ISBN 0970581865</p>	3-ring binder, page protectors, dividers	\$509	\$50.90
Roberson	Michele	michelesfone@gmail.com	7273643351	HISTORY: Liberty and Justice for All	Wednesday	2PM	2, 3	<p>Realizing that history is God's Story, and that liberty is a gift from God, students trace the foundations and development of liberty, originating with the author of liberty, God Himself. Students learn about significant events over the course of history, with concentration on the growth of liberty during America's colonial, revolutionary, constitutional, and pioneer periods. The final chapters highlight the Statue of Liberty, exploring Antarctica and the Arctic, and the Pledge of Allegiance.</p> <p>As students read, discuss, and record, they build their understanding and appreciation for the birth of liberty in the heart of the individual, in homes and churches, and eventually our nation. The heroes of liberty come to life as they read engaging narrative and consider the sacrifices of our forefathers as they struggled for liberty -- before and after Christ, in the days of first-century Christianity, in the lives of the Bible translators, and particularly in the discovery, colonization, and establishment of a nation with liberty and justice for all.</p> <p>The Teacher's Guide is recommended, but not required. It is user-friendly and provides everything you need to assist your student is going deeper in this subject and creating a full and rich study of history for this year.</p> <p>In this class, the students will compile their own, personalized, individual notebook. It will be created in part from the Student Activity Pages provided in the curriculum, projects in class, and whatever parents may use at home to expand the subject. The hope is this notebook will be a source of pride for the student as it will be a unique record of their hard work and growth.</p>	<p>The Mighty Works of God Liberty and Justice for All by Ruth J. Smith ISBN- 9780889561</p> <p>The Mighty Works of God Liberty and Justice for All Teacher's Guide ISBN - 0970581849</p>	3-ring binder, page protectors, dividers	\$509	\$50.90
Roberson	Michele	michelesfone@gmail.com	7273643351	HISTORY: The Road to Liberty	Wednesday	1PM	4, 5	<p>The textbook The Mighty Works of God Self Government with Union by Ruth J. Smith Our textbook guides upper-elementary students through key ideas of self-government, liberty, and America's heritage. Students explore: Individual self-government, Self-government in community, God's law and man's law, Liberty and law for nations, Foundational documents of freedom, Challenges of union—from the founding through the Civil War and How these principles shape the future.</p> <p>Also recommended, but not required, is the user-friendly Teacher's Guide. It gives a wealth of resource materials as parents partner with the instructor to create a full and rich study of history for your student this year. Well-organized Reflection and Reasoning questions bring forward leading ideas that will transform your students' thinking.</p> <p>Students will build a unique notebook recording their learning as they analyze primary documents, study historic figures, build timelines, research topics, write short essays, and compare ideas—all to deepen their understanding of America's principles of self-government and voluntary union.</p>	<p>The Mighty Works of God Self Government with Union Student Text ISBN 978-0-9801563-4-8</p> <p>The Mighty Works of God Self Government with Union Teacher's Guide ISBN 0980156335</p>	3 ring binder, page protectors, dividers	\$509	\$50.90
Nastelli	Dr. Andrea	amastelli@zoho.com	7033002014	Homeopathy	Wednesday	10AM	High School	<p>Give your kids a powerful health toolkit they'll carry for life. If you already understand the power of homeopathy, you know how meaningful it is to pass that wisdom on to your children. There is nothing quite like watching a young person gain confidence, insight, and practical knowledge about their own health as we learn to care for our bodies the way God intends.</p> <p>Teach Me Health and Homeopathy offers an inspiring and engaging way for kids to learn homeopathic remedies, discover the rich history of homeopathy, and explore the many ways we can support the body's natural ability to heal. This groundbreaking, literature-based curriculum introduces homeopathy in a meaningful and colorful way.</p> <p>Using a read-aloud, one-room-schoolhouse approach, Teach Me Health and Homeopathy equips students with a health toolkit they will never forget—and can use for a lifetime.</p> <p>This course functions as a hands-on learning laboratory with interactive lessons, a single reader, and a workbook full of activities and projects designed to support mastery.</p>	<p>https://paolabrown.com/product/teach-me-health-homeopathy-with-paola-brown/ COST is \$136</p>	<p>To support our hands-on learning and creative curriculum, please send your student with the following items, clearly labeled with their name:</p> <ul style="list-style-type: none"> one student art journal (Moleskine Art Sketchbook, Hard Cover, A4 (8.25" x 11.75") Plain/Blank, Black, 96 Pages, found on Amazon) water colors with brushes Colored pencils paint pens- similar to this Glue stick Scissors Yellow highlighter Ruler pocket folder 	\$794	\$79.40

Langford	Marisa	MARISALANGFORD@MSN.COM	8137858484	I.M.P.A.C.T.	Monday	2PM	7, 8, High School	I.M.P.A.C.T. Impactful Marketing Partnership Across Communities in Tampa: IMPACT is a purpose-driven, hands-on class that connects students with local nonprofits across the Tampa Bay community while teaching the power of service, storytelling, and real-world impact. Students will step beyond the classroom to learn how many organizations serve others—and how marketing, communication, and small acts of kindness can create meaningful change. Each class session counts as a documented volunteer hour, as students actively participate in nonprofit projects throughout the year. From community service initiatives to awareness campaigns, students will learn how to support causes through action, teamwork, and creative thinking. Through guided experiences, students will explore what it means to give back, build empathy, and understand how even small efforts can make a big difference. The program also introduces students to how nonprofits use marketing and partnerships to amplify their mission—empowering students to become thoughtful, engaged community leaders.	No curriculum necessary	No supplies necessary; however donations will be requested often for various non-profits.	\$679	\$67.90	
Rodriguez	Jenn	info@yourdesigntherapy.com	8132791314	Interior Design & Architecture	Wednesday	1PM	6, 7, 8	The goal of this class is to recognize design elements in our environment – including design styles (historic & current), well-known professionals represented locally, the use of specialized design (Lead, ADA, Smart Design), and the emotional response to a space. This knowledge will be used to create a unique design, and presentation skills will be utilized to “sell” their idea to their “clients”. During our History of Architecture units, we will be learning basic pen sketching skills - as we sketch our way through the history of architecture and furniture.	No curriculum necessary	Pencils, Hand-held Erasers, Spiral-bound Notebook with pockets, Internet Access (home or library) or Design Magazines, Color Printer (home or library)	\$810	\$81.00

Sotolongo	Alisha	alishasotolongo@gmail.com	3522061592	Intro to Spanish	Monday	12PM	5, 6, 7	Intro to Spanish aims to teach students the basics of the Spanish language. Students will build foundations in vocabulary, verb conjugation, pronunciation, syntax and grammar usage. Your student will learn to meet and greet someone, talk about themselves and ask others about themselves. The goal is that they will read, write, and understand full sentences using vocabulary, verbs and grammar concepts that are useful in everyday life. There will be games and activities using only Spanish for a more hands on and immersive learning experience. Curriculum is necessary for this class. We will be using Breaking the Barrier, Vamos!, Beginner A (Pink book). The book will come with Online access for more practice at home.	https://tobreak.com/	Vamos! Beginner A, pencils.	\$880	\$68.00

Rydell	Candace	on2college@gmail.com	8139920047	Latin for Littles	Monday	12PM	K, 1, 2, 3	Sing and move your way to learning Latin! Weekly lesson will incorporate songs, movement, and Latin vocabulary with writing practice. Students will learn simple Latin grammar, vocabulary, and derivative training while journeying with Simeon the Monkey through an animated story. Two or three days of practice at home in the workbook is recommended and is a simple review of concepts taught in class. No grades. It is helpful if students can write their letters, but I will teach them if needed.	Song School Latin Book 1 by Amy Rehn, ISBN 13-978-1600-514-999	Folder or thin binder with notebook paper, pockets, pens, pencils, highlighters	\$577	\$57.70
McKeown	Corey	teachcoreymckeown@gmail.com	8139514910	Leadership	Wednesday	12PM	6, 7, 8	Middle School Leadership Lab is a dynamic, interactive class designed to equip students with the skills, habits, and confidence needed to become strong, influential leaders—in school, at home, and in their communities. Each week, students will engage in hands-on activities, real-world challenges, team-building exercises, and guided discussions that help them understand what leadership really looks like. Students will learn to: Communicate clearly and confidently Collaborate and work well in teams Solve problems with creativity and courage Manage time, tasks, and responsibilities Develop positive habits and personal discipline Lead with integrity, empathy, and respect Through group projects, role-play scenarios, service initiatives, and practical decision-making tasks, students will discover their individual strengths and learn how to use them to make a meaningful impact. This class isn't just about being in charge—it's about becoming the kind of leader others want to follow. By the end of the course, students will leave with a deeper understanding of themselves, a stronger sense of responsibility, and the confidence to lead with character and purpose wherever God calls them.	No curriculum required	All supplies included in cost of class	\$543	\$54.30
Kyper	Liana	kyperliana@gmail.com	3528756655	Leaving the Nest: Adulthood 101 (aka Leadership)	Monday	11AM	High School	This course is designed to prepare students for confident, real-world independence whether their next step is college or starting a career. The course begins by building an adult mindset and teaching students how to manage time, personal information, and responsibilities. Students then move into practical employment skills such as job searching, resume writing, applications, and interviews, followed by essential financial literacy including budgeting, banking, understanding paychecks, credit, and taxes. As the year progresses, students learn how to navigate contracts and apartment leases, manage utilities and household responsibilities, make medical and professional appointments, and understand health insurance basics. The course also places a strong emphasis on personal and campus safety, digital awareness, scam prevention, communication skills, stress management, and self-advocacy.	All curriculum and supplies are included in the cost.	Students will need access to a computer and will be required to bring in a laptop from time to time.	\$628	\$62.80
Danciger	Wendy	danciger700@gmail.com	8137894979	LEGO	Monday	9AM	K, 1, 2	Lego offers so many learning opportunities. Playing with building blocks helps kids with math concepts, engineering, communication, as well as following directions, team work, and creative thinking. Lego challenges will be presented for small groups to complete. This is a great way to encourage learning and build friendships. This class is designed to be full of fun, engaging, student led activities that promote interactive play and social skills as well as team building and engineering concepts. A field trip to Lego Land will be planned in the spring if most of the class is interested. *All materials will be provided; however, Lego donations are always appreciated.	All curriculum included in cost	All supplies included in cost	\$600	\$60.00
Danciger	Wendy	danciger700@gmail.com	8137894979	LEGO LEAGUE	Monday	10AM	3, 4, 5	Lego offers so many learning opportunities. Playing with building blocks helps kids with math concepts, engineering, communication, as well as following directions, executive function, and creative thinking. Lego challenges will be presented for small groups to complete. This is a great way to encourage learning and build friendships. This class is designed to be full of fun, engaging, student led activities that promote interactive play and social skills as well as team building and engineering concepts. Students will be able eat their snack/lunch during this class. ***Grades 3-6 will learn robotics and coding with LEGO® Education SPIKE™ Essential. SPIKE Essential engages students in hands-on investigation of STEAM concepts while contributing to literacy, math, and social-emotional development. *A field trip to Lego Land will be planned for the spring if most of the class is interested. *All materials will be provided; however, Lego donations are always appreciated. Rydell	Candace	on2college@gmail.com	8139920047	Literature (Jump into Lit K-2)	Wednesday	12PM	K, 1, 2, 3	Adventure with us as we jump into literature, both literally and figuratively! The beauty of Co-op is the time we have together to learn and collaborate safely. Teacher-created materials provide the framework for this fresh approach to literature, using engaging and thought-provoking titles as mentor texts to supplement this hands-on approach to learning fiction and non-fiction text features and reading strategies to cultivate a love for literature. Vocabulary, reading, listening, sentence structure, and writing will be the focus each week. My Teach will have supplemental materials in writing, vocabulary, reading strategies and additional skills to print and complete on home days, if you desire. These will be added to the composition books students will construct in class. No texts needed. Most titles are available at the library or on YouTube for free. This class is a very hands-on approach to learning. No grades will be given.	No curriculum needed, book list available on syllabus	2 primary composition books, basic supplies: glue sticks, pencils, pens, crayons, scissors (please bring to class each week)	\$577	\$57.70
Rydell	Candace	on2college@gmail.com	8139920047	Literature (Legit Lit: High School)	Wednesday	11AM	High School	Legit Lit is a fun, engaging class that helps high school students fall in love with reading while strengthening fluency and comprehension. Using high-interest novels, students explore story elements—like characters, plot, setting, and theme—through lively discussions and creative, hands-on activities. From story maps and mini-projects to interactive challenges, lessons are designed to make literature meaningful and memorable. Students gain confidence as readers, build strong vocabulary and understanding, and learn to think deeply about what they read—all while enjoying great classics! Grades are not the focus of this course, and homework is minimal.	Our Town, Thornton Wilder, ISBN: 13-978-0063003996 The Screwtape Letters, CS Lewis, ISBN: 13-978-0060652937 Pride and Prejudice, Jane Austen, ISBN: 13-979-8373318655 The Great Gatsby, F. Scott Fitzgerald, ISBN: 13-978-1936767694 The Lord of the Flies, William Golding, ISBN: 13-978-0399501487 The Outsiders, SE Hinton, ISBN: 13-978-0142407332	Thin binder or folder with tabs, notebook paper, pens, pencils, highlighters, Post-It notes	\$611	\$61.10

Kyper	Liana	kyperlina@gmail.com	3528756655	Mad Science	Wednesday	1PM	1, 2, 3	Mad Science is where curiosity gets messy and learning feels like play. Each week, students jump into a brand-new experiment as we explore everything from exciting chemical reactions and physical science to layers of the Earth and how things work. Young scientists will ask questions, make predictions, test ideas, and share what they discover while learning the steps of the scientific method along the way. This class is structured enough to build real science skills, but fun enough that kids don't even realize how much they're learning. All supplies are included, and a folder is recommended to collect science papers that go home each week showing each step of the scientific method.	All curriculum is included in the cost	All supplies included in cost	\$628	\$62.80
Kyper	Liana	kyperlina@gmail.com	3528756655	Mad Science	Monday	2PM	K, 1, 2	Mad Science is an interactive, hands-on science class where curiosity gets messy and learning feels like play. Each week, students jump into a brand-new experiment as we explore everything from exciting chemical reactions and physical science to layers of the Earth and how things work. Young scientists will ask questions, make predictions, test ideas, and share what they discover while learning the steps of the scientific method along the way. This class is structured enough to build real science skills, but fun enough that kids don't even realize how much they're learning. All supplies are included, and a folder is recommended to collect science papers that go home each week showing each step of the scientific method. Prerequisite: Students must be at least kindergarten age and able to write their name, cut, glue, and follow directions independently. If a student needs extra support with following directions, a parent may be asked to stay and assist to help ensure a positive experience for everyone.	All curriculum is included in the cost	Folder for science papers to go home in	\$628	\$62.80
Wilson	Michele	hatutoring@icloud.com	8134828099	Maker's Guild II	Wednesday	2:00 - 3:25	6, 7, 8	DESCRIPTION: Welcome to Maker's Guild II with Mrs. Wilson! In this class, we will be working on more complex projects with using a variety of materials and tools. Examples of projects from Maker's Guild 1: Leather wallet, Sewn Canvas Bag, Stained Glass Stars, and more. YOU DO NOT NEED TO HAVE TAKEN MAKER'S GUILD 1. PREREQUISITES: Students will be required to take the class seriously and be able to follow instructions independently. Students MUST be able to tie a knot, be able to use scissors, sharp tools, hammer/screwdriver/drill, etc. Training will be provided for more complicated equipment, but those prerequisites are mandatory. REQUIREMENTS: Students will need to help with set-up and clean-up as part of their training in being a part of a Maker's Guild. The time for the class is an hour and thirty minutes, and will be at the end of the day so that students can take certain projects straight home. GRADING: Since this is a middle school class, there will be grading and homework. Students will be expected to complete planning assignments, journal their progress, and submit photos of their completed projects. The homework is minimal (15-30 minutes per week). ALLERGY STATEMENT: Please do not register for this class unless you agree that your child will come to class with scented body/hair products (including, but not limited to, essential oils), or with latex (ex: balloons). Exceptions for scented is peppermint, spearmint, eucalyptus, and menthol. I will provide soap and hand sanitizer that is allergen-free for students who need it. A reaction can cause class disruption.	There is not any curriculum for the course.	All supplies are covered in course fee.	\$705	\$70.50
Nastelli	Dr. Andrea	amastelli@zoho.com	7033002014	Marine Biology	Wednesday	1PM	6, 7, 8, High School	Apologia's Marine Biology course offers students a principled and comprehensive study of ecology, rooted in the understanding that God designed the earth's oceans with order, purpose, and interdependence. This enlightening course equips junior high and high school students with self-directed learning skills while deepening their knowledge of marine life. Because stewardship is central to a Christian worldview, students will explore how to wisely care for the ocean's ecosystems and resources, recognizing creation as a reflection of God's glory.	Textbook: \$89.00 https://www.apologia.com/shop/marine-biology-2nd-edition-student-textbook-softcover/ ISBN: 978-1-946506-61-0 Student Notebook: \$49.00 https://www.apologia.com/shop/marine-biology-2nd-edition-student-notebook/ ISBN: 978-1-940110-98-1	SUPPLIES: Thin binder or folder with notebook paper, colored pencils, highlighters, pencils	\$800	\$80.00
Pupello	Brad	bpupello@gmail.com	7038515831	Marksmanship	Monday	2PM	8, High School	"Marksmanship" will focus on teaching your students the basics of pellet, rifle, pistol, and shotgun disciplines, leveraging the National Rifle Association's marksmanship curriculum and program. As an NRA certified instructor, I will be leading your students through four NRA certification programs, developing the basics of good marksmanship for each of the types of rifles and pistols provided above. We will train and test on small caliber platforms that will be enjoyable and manageable for all ages. For intermediate and advanced students, they will have the opportunity to increase the difficulty and distance of their qualification attempts for each range day. We will emphasize safety at every level. We will teach the fundamentals of shooting, how to care and maintain your rifles/pistols/shotguns, and the opportunities to qualify and compete at local challenges. At the completion of the course, your students will understand how the fundamentals of shooting apply to a variety of platforms and how to employ rifles, pistols, and shotguns in a safe, effective, and skillful manner.	All curriculum will be included in cost: NRA books, pamphlets, shooting cards, presentations, etc. No books will be required by the student/parent to purchase. Several training pistols, pellet guns, and small caliber rifles will be available for classroom handling and dry-fire practice. RANGE COSTS will be extra and determined at the time of shooting.	Notebook, writing utensils, access to MyTEACH LMS portal.	\$705	\$70.50

Danciger	Wendy	danciger700@gmail.com	8137894979	MATH SKILLS & DRILLS	Wednesday	10AM	5, 6	<p>This class is designed to strengthen core math skills through consistent practice, review, and repetition, while keeping learning engaging and fun. Students will build confidence and accuracy in essential areas such as addition, subtraction, multiplication, and division, including multi-digit operations and decimals. The course also reinforces fractions, factors, multiples, basic geometry, measurement, algebraic thinking, and introductory problem-solving strategies.</p> <p>Math skills will be taught and reinforced through a combination of short, targeted instruction, daily drills, games, and hands-on activities that encourage active participation. Timed practice, interactive challenges, and math-based games help students develop speed, precision, and fluency while maintaining motivation and confidence. This class is ideal for students who benefit from structured practice paired with interactive learning experiences that make math both effective and enjoyable.</p>	All curriculum included in cost.	All supplies included in cost	\$600	\$60.00
Kelley	Kenneth	kennyk01@verizon.net	813-810-4525	Mechanics Workshop	Wednesday	10AM	8, High School	<p>In this hands-on "Fix It & Figure It Out" mechanics workshop, students will learn practical skills for diagnosing and repairing everyday mechanical problems. Through guided projects, they'll explore tools, basic engine concepts, troubleshooting steps, and safe repair practices. Designed for middle and high school students, this workshop builds confidence, problem-solving skills, and a solid foundation for future technical learning.</p>	No Curriculum Necessary	All supplies included in cost	\$788	\$78.80

Coffey	Lianna	liannacoffey@gmail.com	201-739-8992	Morning Basket	Monday	9AM	K, 1, 2	This early elementary class is designed to build early learning foundations in a fun, supportive environment. Children will participate in daily calendar activities to develop an understanding of days, dates, weather, and seasons. The class includes hands-on alphabet and number practice to support early literacy and math skills, as well as guided name-writing practice to strengthen fine motor skills and letter recognition. Each session also features storytime, encouraging listening skills, imagination, and a love of reading through engaging books and group discussion. Activities are developmentally appropriate and focus on learning through play, routine, and exploration. All classes will begin with a devotional.	N/A	All supplies included in cost	\$600	\$60.00
Babanats	Jessica	jessicababanats@gmail.com	8132442549	Music & Movement Through Stories	Monday	2PM	PK, K, 1	In this engaging Music & Movement through Stories class, young children in PreK through first grade will explore the magic of storytelling through sound, rhythm, and motion. By combining classic tales, nursery rhymes, and poems with music, puppets, scarves, bells, and the playful use of a parachute, students will experience stories in dynamic, interactive ways. This class encourages imagination and creativity while introducing key concepts of print, reading strategies, and sound awareness. Children will also engage in activities that help develop phonetic skills and a strong phonetic understanding. This approach fosters language development, builds early literacy skills, and takes wonderful stories beyond the page!	No Curriculum Necessary	All supplies included in cost	\$620	\$62.00
Kyper	Liana	kyperliana@gmail.com	3528756855	Nature Lab	Wednesday	12PM	2, 3, 4	Students will explore the natural world through observation, experimentation, and discovery. Using a lab-style approach, students will investigate topics such as plants, animals, ecosystems, weather, soil, insects, and the environment through guided activities, outdoor exploration (when possible), simple experiments, and nature based projects. Students will practice basic scientific skills such as observing, asking questions, recording findings, and drawing conclusions. Throughout the year, students will create a nature journal that they will bring home at the end of the course. All materials are included in the cost, including the nature journal.	All curriculum is included in the cost	All supplies included in cost	\$628	\$62.80
Kelly	Alyssa	Alyssa22deal@gmail.com	8505034438	PE	Monday	12PM	K, 1, 2	This class will focus on developing physical fitness, motor skills, health awareness, and social interaction through activities such as sports, exercise, and games. Each class will consist of a warm up, obstacle course, skill instruction, and game play.	No curriculum necessary	All supplies included in cost	\$577	\$57.70
Kelly	Alyssa	alyssa22deal@gmail.com	8505034438	PE	Wednesday	12PM	1, 2, 3, 4	This class will focus on developing physical fitness, motor skills, health awareness, and social interaction through activities such as sports, exercise, and games. Babanats	Jessica	jessicababanats@gmail.com	8132442549	PreK Core	Monday	11AM	PK, K	Pre-K core class will provide a warm, engaging environment where young learners grow through play-based learning and meaningful exploration. Children develop early literacy and language skills through stories, songs, conversations, and print-rich activities, while foundational math concepts are introduced using hands-on materials, games, and everyday problem-solving. Fine and gross motor skills are strengthened through art, sensory play, handwriting, movement, and outdoor activities. Social-emotional development is nurtured as children learn to share, cooperate, express feelings, and build positive relationships with peers and the teacher. Learning is organized around thematic units that will spark curiosity and connect ideas across subjects, allowing children to actively explore, discover, and build confidence through hands-on, developmentally appropriate experiences.	Instructor will provide Explode the Code curriculum.	\$25 of tuition = curriculum. No purchase necessary.	\$1,285	\$126.50
Luljguraj	Beth	beth_kegler@yahoo.com	8504433524	PRIVATE 1 Hour Career Exploration & Planning	Schedule with Instructor BEFORE Registration	TBD	High School	Would you like to learn more about yourself and options you may enjoy (occupations/majors/trade school programs)? If so, let's learn about you, explore careers, and start making a plan together! Career exploration and planning can help you: <ul style="list-style-type: none"> Understand your values, interests, and skills Identify majors, trade school programs, and/or occupational options of interest as well as those related to your attributes Explore your options Identify skills and education needed for your field of interest Learn how to make well-informed career decisions Set goals and create an action plan to achieve them Learn how to write and tailor your resume And more! We will work towards your goals through discussion, reflection, self-assessment, career assessment(s), and other activities like possibly talking to someone in your field of interest. *NOTE: To make the most of our time together there will be activities to do outside of our meetings. The more you put into your career planning, the more you will get out of it. Wilson	Michele	hatutoring@icloud.com	813-462-8099	Prove Me Wrong	Wednesday	11AM	High School	<p>Welcome to Prove Me Wrong with Mrs. Wilson, an exciting twist on the typical speech & debate class! We will be exploring and engaging in multiple popular examples of debate in social media, including, but not limited to: Turning Point USA (Charlie Kirk), Crowder, Jubilee, Billboard Chris, SOC 119, and more.</p> <p>Please note: I will try to find as many resources as possible that do not include course language, but material MAY be included that has one or two inappropriate words, as deemed necessary by the instructor. There will always be a warning, and students may leave during those portions of class, if needed.</p> <p>Homework and Grading: This class is a high school level course and will be graded. Students will be expected to prepare for and participate in debates. Homework time varies from 20 minutes per week to 2 hours depending on the project and the student's time management skills.</p> <p>Requirement: Respect and Maturity. Students will be expected to discuss mature political and social topics without laughing at inappropriate moments, making crude jokes, and/or shutting others down in a rude or ignorant manner.</p> <p>ALLERGY STATEMENT: Please do not register for this class unless you agree that your child will come to class with scented body/hair products (including, but not limited to, essential oils), or with latex (ex: balloons). Exceptions for scented is peppermint, spearmint, eucalyptus, and menthol. I will provide soap and hand sanitizer that is allergen-free for students who need it. A reaction can cause class disruption.</p>	There is no curriculum for this course. The instructor will provide study materials/instructions.	Supplies are included in the class fee.	\$600	\$60.00
Kyper	Liana	kyperliana@gmail.com	3528756655	Psychology: Mind and Behavior	Monday	10AM	High School	Behavioral Psychology explores what really drives human behavior and decision-making, with new topics and fresh material added this year. Students will dive into areas like motivation, personality, emotions, social behavior, psychological disorders, and modern treatments and therapies through discussion, real-life examples, and hands-on activities. While the class builds on core psychology concepts, it also introduces updated topics and case studies, making it a great fit for both returning and new students. The course is designed to move at the student's pace and interests, with optional weekly assignments, usually taking 30 minutes or less, for students who want to think a little deeper and strengthen retention.	All curriculum is included in the cost	All supplies included in cost	\$730	\$73.00
Rydell	Candace	on2college@gmail.com	8139920047	Reading Strategies	Wednesday	2PM	2, 3, 4, 5, 6	Whether your students love or hate to read, this course will launch your child's confidence and comprehension! In this fun, fast-paced Reading Workshop model, mentor texts will be used to teach powerful weekly reading strategies—like predicting, inferring, visualizing, and analyzing characters—while diving into rich, high-quality picture books. Through mini-lessons, partner discussions, hands-on activities, and independent reading time, students learn how strong readers think. Each student also builds their own Reading Strategies Composition Book, a personalized toolkit filled with notes, examples, and anchor charts they create throughout the year. Students will learn to read with greater purpose, understanding, and joy.	All curriculum included in cost; no curriculum necessary	Composition notebook, glue sticks, pencils, and pens	\$577	\$57.70
Alton	Arthur	arthur@safecs.com	8137278007	Robotics, Electronics, & Engineering	Monday	2PM	5, 6, 7, 8, High School	Robotics - introduces students to the wonderful world of Robotics. What are today's robots and how do they effect the world! Students will learn: - Safety, - Robotic Components, - Mechanics, - Importance of 3-D printers, - Motors, - Design, - Electronics, - Building series and parallel circuits - Motor Controller vs Computer Module, - Engineering designing your own truss bridge, - Programming, Build your own robot, and have fun. Every class is hands on, where learning is fun.	No Curriculum Necessary	All supplies included in cost	\$638	\$63.80

Kelly	Alyssa	alyssa22deal@gmail.com	850-503-4438	Run Club	Wednesday	9AM	7, 8, High School	This club will meet once a week to complete group runs and workouts in a positive team environment. Training programs will be given in August and January. Athletes will have the option to compete in a fall and spring 5k.	No curriculum necessary	Running Shoes	\$543	\$54.30
Piazza	Stephanie	Stephanie.piazza@yahoo.com	8136791656	Science Blast	Wednesday	2PM	K	Science Blast is an exciting, faith-based exploration class for Pre-K and Kindergarten students that blends age-appropriate science with short Louie Giglio devotions. Children will discover how God's creation works through simple, hands-on experiments that connect directly to each devotion's theme, encouraging wonder, curiosity, and awe. Through guided discussion, observation, and play, students learn basic scientific concepts while also building early spiritual foundations. This class nurtures both young minds and hearts by showing how faith and science beautifully work together.	All curriculum included in cost	All supplies included in cost	\$577	\$57.70
Brown	Cindy	rockhousecoffeecompany@gmail.com	9313061680	Show Choir - Concert Chorale	Monday	9AM	6, 7, 8, High School	Members of Concert Chorale will learn the basics of music theory & sight reading for voice. They will use sheet music and prepare performance pieces from a variety of styles of choral music. Students in Concert Chorale should be committed to regular attendance and practicing at home what is learned in class. Auditions for placement are required.	ALL curriculum included in cost	Choir folder, notebook, & writing utensil	\$660	\$66.00

Danciger	Wendy	danciger700@gmail.com	8137894979	The Etiquette Edge	Monday	1PM	6, 7, 8	This course introduces middle school students to essential etiquette and life skills needed for everyday interactions at school, at home, and in social settings. Students will learn respectful communication, table manners, digital etiquette, personal responsibility, and confidence-building skills through interactive lessons, role-playing, group activities, and real-life scenarios. Emphasis is placed on kindness, self-awareness, and making positive choices while developing habits that promote respectful relationships and personal growth.	"How Rude!: The Teen Guide to Good Manners, Proper Behavior, and Not Crossing People Out" Paperback by Alex J. Packer	All supplies will be provided.	\$611	\$61.10
Danciger	Wendy	danciger700@gmail.com	8137894979	The Etiquette Edge	Monday	12PM	High School	This course prepares high school students for real-world success by teaching practical etiquette, communication, and life skills essential for academic, social, and professional settings. Students will practice professional behavior, public speaking fundamentals, digital and social media etiquette, interview skills, dining etiquette, and leadership habits. Through discussions, simulations, and hands-on activities, students will develop confidence, respect, and self-presentation skills that support college readiness, career preparation, and responsible citizenship.	"How Rude!: The Teen Guide to Good Manners, Proper Behavior, and Not Crossing People Out" Paperback by Alex J. Packer	Students may need business attire for the following simulations; job interview, dinner meeting, networking meet and greet, etc.	\$611	\$61.10
Pupello	Bradford	bpupello@gmail.com	7038515831	Thrive in the Wild	Wednesday	10AM	3, 4	Thrive in the Wild is a course designed to bring out the explorer, nature lover, camper, and adventurer in each student. Students will learn skills ranging from knot-tying, shelter building, setting up the perfect campsite, water safety, fire starting, cooking in the wild, navigating, simple water purification techniques, fishing, canoeing, trapping, and other great resiliency life skills. We do this with quick skill demonstrations each week, accompanied by a handout, video, or ppt slide deck for the parents to reference and practice with their student at home. Several off-site trips are planned throughout the year to allow the students to apply what they've learned in an environment that is both challenging and rewarding to the students.	All books and curriculum will be provided by the instructor.	All supplies will be provided by the instructor and will be included in the cost of the tuition (approximately \$125 per student throughout the year).	\$705	\$70.50
Coffey	Lianna	liannacoffey@gmail.com	201-739-8992	Tour the USA	Monday	1PM	3, 4	In this early elementary U.S. geography course, students embark on an exciting journey across all 50 states. Using the Notgrass Our 50 States curriculum and a hands-on atlas workbook, children learn about America's diverse regions, landforms, symbols, and communities. Through engaging stories, maps, and interactive activities, students explore state capitals, major landmarks, and cultural traditions. Each week focuses on one or more states and reinforces learning through coloring, tracing, map skills, simple research, crafts, and narration.	50 states Atlas Workbook recommended as it will be completed in class each week. Kyper	James	jameskyper@gmail.com	3524100063	Trade School	Monday	12PM	7, 8	Trade School is a comprehensive, hands-on program designed to introduce students to a variety of skilled trades, including plumbing, electrical, framing, and more. The program provides both foundational knowledge and practical skills that students can build on as they prepare for future work on a job site. Students will learn how to properly use tools, perform basic estimates, understand required licensing steps, and explore the essential components of each trade. Each class is 90 minutes long and includes a combination of classroom instruction and hands-on, performance-based activities. The course cost reflects the expense of materials, safety gear, and tools needed to provide a safe and effective learning environment. This includes lumber, pipes, wire, and other materials used for demonstrations and hands-on learning.	No curriculum necessary	All supplies included in cost	\$950	\$95.00

Danciger	Wendy	danciger700@gmail.com	8137894979	US History & Constitutional Studies	Wednesday	12PM	8, High School	United States History & Constitutional Studies is a full-year, honors-level social studies course that provides a comprehensive examination of United States history with sustained emphasis on constitutional principles, civic institutions, and the development of federal power from the founding era to the present. The course emphasizes chronological study of U.S. history, including the colonial period, founding documents, constitutional ratification, Civil War and Reconstruction, Progressive Era, New Deal, Civil Rights Movement, Cold War, and modern constitutional issues. Students engage extensively with primary source documents, including the Declaration of Independence, U.S. Constitution, Federalist and Anti-Federalist writings, major Supreme Court decisions, and presidential speeches. Instruction focuses on historical analysis, constitutional interpretation, and civic literacy. Students examine the structure of government, separation of powers, federalism, civil liberties, and the role of the judiciary in shaping American law and society. Analytical writing, document-based questions, examinations, and structured oral argument are used as instructional methods to reinforce historical understanding and critical thinking. Oral argumentation is used as a method of assessment and analysis, not as a performing arts course. The course meets honors-level expectations through advanced reading, analytical writing, independent research, and cumulative assessments. Field Trip: Students will have the opportunity to travel to the Florida State Capitol in February for four days to participate in TeenPact. TeenPact is designed to help students understand the political process, value their liberty, develop leadership skills, and engage the culture through hands-on and practical teaching. Students will engage in a mock congress inside the capitol building. For more information go to https://teenpact.com/states/fl/	1. "The U.S. Constitution And Fascinating Facts About It" by Terry L. Jordan 2. "Common Sense: The Origin and Design of Government" by Thomas Paine 3. "The Federalist Papers, Extended Edition: An Essential Collection of The Original, Unabridged Text (1787-88) With Detailed Commentary on Each Essay to Guide you Through America's Founding Ideas" by Winston Mullins, James Madison, John Jay, and Alexander Hamilton All other curriculum will be provided or accessed online.	Laptop 2" Binder Paper Highlighters Post-it Notes Pocket Folder	\$645	\$64.50
Kelly	Alyssa	Alyssa22deal@gmail.com	8505034438	Volleyball	Monday	10AM	5, 6, 7, 8	This class will teach students the basic fundamentals and rules of volleyball in a fun and safe environment. Each class will consist of a warm up, core skill drill, and game play.	No curriculum necessary	All supplies included in cost	\$543	\$54.30
Alton	Arthur	arthur@safecs.com	8137278007	WebDesign - Website Design	Wednesday	12PM	4, 5, 6, 7, 8, High School	Students will learn about the technology behind the world wide web. This class will spark their creativity to design and develop web pages. Fundamentals are building blocks for further success. From HTML to images, and from styles to videos, students will learn from examples and weekly downloads. Students will learn skills that will help them throughout high school and college, and even into their full time career. Every class is hands on with downloads, exercises, and fun! The final project will be publishing their own website. Requirements: Students will need their own Notebook PC (Windows or MAC) - for each class. Not: Chrome book, Microsoft Surface Go, or iPad.	No Curriculum Necessary	All supplies included in cost	\$595	\$59.50
Langford	Marisa	MARISALANGFORD@MSN.COM	8137858484	Welcome to the F.A.R.M.	Monday	12PM	4, 5, 6	Welcome to the F.A.R.M.(Future Agriculture Role Models) is an engaging, hands-on class for 4th-6th graders that introduces kids to the exciting world of agriculture and learning about what the future holds for this industry. Students will explore where food comes from, learn how plants and animals are cared for, discover agriculture-related careers, and build leadership, responsibility, and teamwork skills along the way. Through interactive lessons, real-world activities, and fun projects, students grow confidence, curiosity, and a deeper appreciation for the role agriculture plays in everyday life—while becoming the next generation of Future Agriculture Role Models.	No curriculum necessary	All supplies included in cost	\$746	\$74.60

Danciger	Wendy	danciger700@gmail.com	8137894979	World History Through Literature & Film	Monday	2PM	8, High School	World History Through Literature & Film is a chronological survey of major world civilizations and historical eras from ancient times to the modern age. The course examines political, economic, social, and cultural developments through historically grounded literature, primary sources, and instructor-guided analysis of historically accurate films. Students analyze films as secondary historical interpretations, evaluating historical accuracy, perspective, bias, and context in comparison with primary sources and scholarly historical content. Instruction emphasizes historical thinking skills including chronology, cause and effect, continuity and change, and comparative global analysis. Writing assignments, document-based questions, discussions, and assessments focus on historical understanding rather than cinematic technique or literary analysis. (Course qualifies as a World History core course; films and literature are instructional resources used to support historical analysis.)	Required Literature: The Odyssey –by Homer The Canterbury Tales by Geoffrey Chaucer The Inferno by Dante Alighieri Utopia by Thomas More Tale of Two Cities by Charles Dickens Hard Times: Rebirth Classics Special Edition Annotated by Charles Dickens All quiet on the Western Front by Erich Maria Remarque: Rebirth Classics Special Edition Animal Farm by George Orwell	Laptop 2" Binder Pocket Folder Notebook paper pens Post-its	\$645	\$64.50
Brown	Cindy	rockhousecoffeecompany@gmail.com	9313061680	Worship Band - Praise Band	Monday	2PM	7, 8, High School	FOR STUDENT MUSICIANS & SINGERS BY AUDITION ONLY. WE WILL NOT BE TEACHING HOW TO PLAY INSTRUMENTS. This class will teach the fundamentals of leading praise & worship by forming a praise & worship band: choosing music for corporate worship, chord charting, transposing, leading vocally & instrumentally, creating a flow in worship, lead & background vocals & harmonies, learning to follow & blend as a team, and writing original worship music. The goal is to create a worship band to lead worship at TEACH & other events as opportunities arise. Students will learn the biblical call to worship through music and the difference between playing in a band and playing in a worship band.	ALL curriculum included in cost, students will have digital sheets to print at home	Worship folder, notebook, writing utensil, instrument & all supplies for your instrument	\$660	\$66.00
Piazza	Stephanie	Stephanie.piazza@yahoo.com	8136791656	Write with Me	Wednesday	1PM	PK/K	Write With Me is a gentle, engaging writing-readiness class designed for Pre-K and Kindergarten students to build confidence through play-based learning. Children will strengthen fine motor skills and pre-writing abilities using hands-on activities like tracing, drawing, letter formation games, and creative movement. As skills develop, students will transition into fun, guided journaling using pictures, simple words, and early sentences to express ideas and stories. This class fosters a love of writing while supporting early literacy, coordination, and self-expression in an encouraging and joyful environment.	ALL curriculum included in cost	All supplies included in cost	\$577	\$57.70
Rydell	Candace	on2college@gmail.com	8139920047	Writing with Skill Level 1	Monday	9AM	6, 7, 8, High School	The first level of Writing with Skill focuses on a classical approach to writing compositions. Students will learn to write narrative summaries and outlines, deciding which information is vital and omitting supporting details. Students then learn to narrow topics and use research resources to write various combinations of learned forms. Learners become adept at critically assessing and writing on topics including history, science, and literature. Students will receive feedback from the instructor, peers, and writing rubrics to support progress. **Although students at this age prefer independence, this course requires parent interaction and support for maximum success. Students are expected to submit a weekly essay. Rubrics and an online gradebook are provided for submitted essays. This is not a creative writing course, but a very specific writing course teaching students how to write for each subject (history, literature, and science).	Text: Writing with Skill Level 1, Susan Wise Bauer, ISBN: 978-1-933303953-5 Recommended: Instructor Manual, ISBN: 978-1-9333-3952-8	Device with word processing software, backpack with binder, pens, pencils, paper, Post-Its, highlighters, 5 tabs	\$611	\$61.10
Rydell	Candace	on2college@gmail.com	8139920047	Writing with Skill Level 2	Monday	10AM	8, High School	Writing with Skill 2 is a comprehensive and systematic approach to writing composition. Continuing skills began in Writing with Skill level 1, students will continue summarizing, outlining, researching, and note-taking. Writing patterns are targeted to history, science, and literature, which prepares learners to write across the curriculum. Detailed instruction in narration and sequences, comparisons, introductions and conclusions, and developing topics helps further the students' writing aptitude. Learners progress to critically assess prose and poetry, research, and draft a final project. This is a specific writing course. Writing with Skill 1 is recommended before taking this course. Rydell	Candace	on2college@gmail.com	8139920047	Writing: College Prep Writing-WRITE TO COLLEGE	Monday	11AM	7, 8, High School	This relaxed but highly effective college-prep writing class gives students the essential skills they need for success in college-level work. Students learn the foundations of strong writing—clear grammar, purposeful paragraphs, organized essays—and practice key formats such as research papers, narrations, compare-and-contrast essays, and opinion writing. Grammar is taught in a simple, stress-free way, woven naturally into weekly writing practice. Students also learn how to research colleges and begin building a polished high school résumé that highlights their strengths and goals. By the end of the course, students write with clarity, communicate with confidence, and take meaningful first steps toward college readiness—all in a supportive, encouraging environment.	ALL curriculum included in cost; no curriculum necessary	Thin binder, tabs, notebook paper, pens, pencils, highlighters	\$611	\$61.10
Rydell	Candace	on2college@gmail.com	8139920047	Writing: Master the Essay	Monday	1PM	4, 5, 6	Students will learn how to form cohesive essays from strong paragraphs. Students will create their own notebooks, including anchor charts and notes, writing samples, and edited essays. Teacher feedback will be provided, but no textbook is needed, no grades will be given, and no homework will be assigned. Students are encouraged to write daily in a home journal. Teacher-created materials will be provided.	*ALL curriculum included in cost; No curriculum necessary	1" binder, notebook paper, pencils, pens, highlighters, Post-It notes	\$577	\$57.70
Rydell	Candace	on2college@gmail.com	8139920047	Writing: Master the Paragraph	Monday	2PM	3, 4, 5	Students will learn how to formulate strong sentences and construct solid paragraphs while exploring different types of writing: narrative, non-fiction, opinion, compare and contrast, persuasive, etc. This is a hands-on learning approach whereby students will create their own notebook with anchor charts, writing samples, and completed paragraphs in various genres. No grades, no textbook, and no homework. Teacher-created materials will be provided. Students need to be able to write letters and copy words. Spelling is assisted.	*ALL curriculum included in cost; No curriculum necessary	1" binder, notebook paper, pens, pencils, Post-It notes	\$577	\$57.70
