Acting for Film and Television	Sandefur, Thia	<p>Get ready to step into the world of lights, camera, and action!</p> <p>In this dynamic course, students will explore the exciting world of acting tailored specifically for the camera. Whether your student is a budding actor or simply a film enthusiast, this class offers a unique opportunity to delve into the techniques and skills required for film and TV acting!</p> <p>In the Fall semester, students will develop as actors through performing scenes with their peers. They will learn about auditioning and how to implement feedback into their performances. We will also work as a class to decide upon an idea for our short film script.</p> <p>In the Spring semester, students will get to showcase their talent and growth by acting in the short film. Family and friends will be invited to the film's premiere in a real movie theatre!</p> <p>Students new and returning will enjoy the process of acting on camera and seeing their face 'on the big screen'!</p>	Students need a 3-ring binder to keep scripts in. They should have paper and pencil to take notes, and a highlighter to highlight their lines. They will join our free online curriculum to view homework and notes to prepare for the following week of class.	\$500.00	7274180242	thiateach@gmail.com
Advanced Art	Chen, Ping	Ms. Ping's art class for students interested in taking the next step in art. You will build a portfolio using advanced art techniques.	No supplies needed	\$585.00	813-220-1194	pingcatbaby1@gmail.com
Advanced Art Appreciation	Wilson, Michele	<p>Welcome to Advanced Art Appreciation with Mrs. Wilson. We will work with more difficult styles and materials during this advanced exploration of art history. Because this class is an hour and a half long, we will be able to create more interesting and intricate projects by some of history's most famous artists!</p> <p>Each 4-6 weeks, we will study an artist or style and the time period. We will finish the segment by going hands-on as we work to create pieces inspired by our journey. To receive high school credit, there will be grades incorporating homework, projects, and tests.</p>	N/A	\$600.00	813-482-8099	hatutoring@icloud.com
Advanced Art II	Chen, Ping	Students who have taken Advanced Art and are ready to move to the next level. This is an hour and a half class.	No supplies needed	\$877.50	813-220-1194	pingcatbaby1@gmail.com

No grades given. No homework.	No supplies needed	\$500.00	813-220-1194	pingcatbaby1@gmail.com
ASL I	Sandefur, Thia	In this class, students will learn foundational ASL vocabulary, enabling them to engage in basic conversations and express themselves using ASL grammar. Emphasis will be placed on understanding basic sentence structure and grammatical rules unique to ASL. ASL is the 3rd most-used language in the US besides English, and its popularity at colleges continues to rise. Most students find ASL easier to learn because they do not struggle with the accent/auditory challenge of spoken languages. Students can access video lessons to continue their learning at home between classes through our online curriculum- INCLUDED in the class fee. Quizzes, video assignments, and tests will be used to gauge students' progress. Feedback will be provided to help students refine their skills and build confidence in their ASL proficiency. Homework takes an hour per week. Students should also bring to class a small three-ring binder with paper and pencils for in-class activities.	Curriculum is INCLUDED in the class fee. Students will receive login information to access the online platform after the first week of class.	\$560.00	727-418-0242	thiateach@gmail.com
ASL II	Sandefur, Thia	Building on the foundation established in ASL 1, this course delves deeper into advanced vocabulary, complex sentence structures, and cultural nuances of ASL communication. Through interactive activities, students will enhance their ability to communicate on various topics. ASL 2 encourages active participation through group activities, role-playing, and collaborative projects. These activities provide opportunities to practice and reinforce language skills in real-life scenarios. Through our online curriculum- which is included in the class fee- students will have access to video lessons to continue their learning at home between classes. Quizzes, video assignments, and interactive projects will be used to gauge students' progress. Feedback will be provided to help students refine their skills and build confidence in their ASL proficiency. Prepare for an immersive and rewarding experience as you continue your ASL journey in ASL 2.	Curriculum is INCLUDED in the class fee. Students should come to class with paper in a 3-ring binder and pencils.	\$560.00	7274180242	thiateach@gmail.com

ASL III	Sandefur, Thia	In this ASL 3 class, students will learn more signs to increase their vocabulary and continue to develop their communication skills. They will also embark on a class project of translating the music for the end of the year show into ASL. In previous shows, I have provided the translation for them. Now they will learn how to accurately translate the English lyrics into ASL themselves!	Curriculum is INCLUDED in the class fee. Students should come to class with paper in a 3-ring binder and pencils.	\$560.00	7274180242	thiateach@gmail.com
Band I	Ray, John	Curriculum is included in the class fee and login info will be provided to students the first day of class.	Essential Elements for Band - Book 1 (for your instrument)	\$850.00	813-693-7827	raytrumpet@proton.me
Band II	Ray, John	Curriculum is included in the class fee and login info will be provided to students the first day of class.	Essential Elements for Band - Book 2	\$850.00	813-693-7827	raytrumpet@proton.me
Beginning Handwriting Adventures	Kyper, Liana	Get ready to dive hands-first into the world of penmanship fun with our Hands-On Handwriting Extravaganza! In this interactive class, we're breaking the mold by molding letters with Play-Doh, vocalizing letter formations like pros, and practicing on mini chalkboards before unleashing the power of the pencil. No more dull drills – we're bringing the Learning Without Tears curriculum to life in a hands-on experience that's as entertaining as it is educational. Whether you're squishing, chanting, or scribbling on mini chalkboards, this course promises to make learning handwriting a fun adventure.	Students will need to bring a folder for their work. All other supplies provided.	\$600.00	352-875-6655	Lianakyper@gmail.com
Bible (3rd/4th Grade)	Sotolongo, Dr. Tito	In this class, we will have fun discovering many wonderful meanings throughout the Bible and why they matter to us today. The goal of this course is to plant Biblical seeds so that young boys and girls will grow up to value God's Word so that they may grow up to follow Jesus as Lord. [These classes are new every year]	All resources will be provided.	\$575.00	813-531-5821	pastortito@tddtampa.org
Bible (5th/6th)	Sotolongo, Dr. Tito	This class will equip 5th and 6th graders with the basic skills they need to evaluate the truthfulness of the ideas that are found in the Bible. This class sets the stage for critical thinking in every area of life. Children will learn the essential skill of carefully thinking Biblically so that they can better discernment truth from error in the world. [These classes are new every year]	All resources will be provided. Access to the internet to respond to homework is required to keep students accountable and parents informed of their understanding.	\$575.00	813-531-5821	pastortito@tddtampa.org
Bible 7th/8th	Sotolongo, Dr. Tito	Students will tackle some of life's biggest questions as we look into God's Word to know God more deeply, understand who we are, why we are still here, and what God has asked us to do. The ultimate goal of this course is to experience a personal and spiritual transformation by gazing into the beauty of the truth of God as we seek to apply these truths to our lives. Students are only required to submit all homework online. Classes are new every year, as Dr. Sotolongo does not repeat material.	All resources will be provided.	\$575.00	813-531-5821	pastortito@tddtampa.org
Bible Pk4-2nd	Sotolongo, Alisha	In this class, we will have fun exploring and learning about the Bible, showing the lessons that we can learn from the stories and what these stories tell us about God. The goal in this course is to plant Biblical seeds so that they will grow up to know and love God and know how to love others as they live for Christ. We will be using the Gospel Project!	No curriculum needed	\$575.00	3522061592	alishasotolongo@gmail.com

BUILD YOUR BRAND	Sandefur, Thia	<p>Teen entrepreneurs are invited to explore brand creation in this trendsetting class. Through individual and group projects, students will create brands from the ground up. Students interested in earning money with a real business creation will represent the brand and offer services/products for the Trinity community. Students will start with an idea and grow it to a functioning and scalable brand, developing skills easily applicable to any future endeavors!</p> <p>The course covers a range of topics, including graphic design, marketing and execution. Students will develop a comprehensive strategy for their brand. Their toolkit might include logos, animations, videos, and promotions, along representing their new brand in the real world. They will learn to communicate with potential clients to pitch their product/service.</p> <p>Students will create a Canva account, which allows them to design flyers, logos, websites, social media posts and more. This account is included in the class fee at no additional charge. We will set this up the first week of class with each student joining the class group on Canva so they can collaborate on projects.</p>	<p>Materials:</p> <ul style="list-style-type: none"> - Laptop required. No prior experience is necessary to build your brand. Students should bring a charger or ideally have their device fully charged prior to class time - Mellow Yellow will be used to organize class lessons, projects, and provide student feedback on their work. 	\$610.00	727-418-0242	thiateach@gmail.com

Chemistry and Physics (elementary)	Wilson, Michele	<p>Welcome to Chemistry & Physics Science Lab with Mrs. Wilson! This year, we will be using Apologia's Exploring Creation with Chemistry & Physics. We will meet together each week to cover, on average, half of a lesson per week. We will almost always have a hands-on lab activity or experiment to reinforce the lesson.</p> <p>Description from Apologia.com: Exploring Creation with Chemistry and Physics is part of Apologia's award-winning Young Explorer Series and a curriculum specifically designed for elementary students. Your student will appreciate the fascinating (and fun!) world of science in a whole new way as they study the basic building blocks of creation, atoms and molecules, simple chemicals, the laws of motion, and energy in its many forms.</p>	<p><u>I will have the textbook on the tv screen each week, so the curriculum is OPTIONAL; however, most students WANT the textbook. Older students are highly encouraged to have the book so they can read out loud in class. (*There is an optional work-at-home note booking journal that is a supplement to the textbook - I do not assign homework in this book - it is up to you if you would like to purchase it.</u></p> <p><u>We are partnering with The Homeschool Hive to purchase curriculum for classes. Chess 1	Alton, Krista	<p>Chess 1 is both an introduction to the game and extension of the basics of Chess. Chess is the most popular game in the world and a great way to make friends. Chess is a brain strengthener, it helps students with focusing, problem solving, social skills, pattern recognition, creative thinking, fair play, and more. Coach Krista is the founder of Alton Academy 4 Chess which is the largest Chess company in the Tampa Bay area, teaching over 350 students a week, website: www.alton4chess.com. Since 2018, she has worked for US Chess, flying several times a year to work National Scholastic Events. Coach Krista is passionate about teaching Chess and the life skills that Chess instills. Coach Krista has been the lead coach at Trinity since 2016. The Trinity Chess team has won 40+ FIRST PLACE SCHOOL trophies in local tournaments.</p>	<p>Each student or family should purchase a US Chess regulation Chess Set (board, pieces, and matching carry bag) from the instructor by the first class.</p>	\$500.00	813-727-9007	kristaalton@yahoo.com
Chess 2	Alton, Krista	<p>Chess 2 is an intermediate Chess class and is for students ages 7-18. In Chess 2 students will take their chess skills to new levels. Students are encouraged to participate in local chess tournaments. Trinity Chess team has won 40+ FIRST PLACE SCHOOL trophies in the past 7 years. Tournament participation is NOT required, but highly recommended. Established in 2011, Coach Krista founded Alton Academy 4 Chess, which is now the largest chess company in the Tampa Bay area, teaching over 350 students weekly. Check out are website at www.alton4chess.com. Coach Krista also works for US Chess flying to different cities to work National Scholastic Events.</p> <p>Chess education helps each student with focusing, problem solving, social skills, pattern recognition, creative thinking, fair play, and more. Each class includes instructional teaching and chess playing with friends. Private lessons are also available.</p>	<p>All students must purchase a Chess Notation Book from the instructor. Purchase the book in August cost is discounted to \$5 after September 1st cost is \$10. Each student or family should purchase an US Chess regulation Chess set (board, pieces, and matching carry bag) for \$30 from the instructor.</p>	\$500.00	813-727-9007	kristaalton@yahoo.com

Core 2	Kyper, Liana	<p>Welcome to Core 2, where our curriculum weaves together Language Arts, Geography, Math, Science, and the Bible into a diverse and engaging educational experience. Our primary focus is on nurturing fluent readers and adept writers, fostering the essential skills crucial for academic success. In our mathematical exploration, we will journey through multiplication, advancing to higher place values, and mastering the intricacies of multiple-digit addition and subtraction. The Good and The Beautiful takes center stage for Language Arts, Geography, and spelling, while Horizons Math guides our mathematical endeavors. Science comes to life with Master Books, enriching our understanding of the world around us. The seamless integration of the Bible into English Language Arts, History, and occasional Science lessons adds a spiritual dimension to our holistic approach. Join us for a year of academic excellence and well-rounded learning adventures in Core 2!</p>	<p><u>The Good and the Beautiful offers a comprehensive Level 2 Language Arts Course Set, encompassing Language Arts, Writing, Geography, and Spelling. This bundle includes the Course Book, Reading Booster C Cards, Reading Booster C Book - "Molly and the Falcon," Reading Booster C Book - "Wesley and the Wolves," and the Reading Booster C Books Set. The course book is available for free download, but the remaining items require a purchase, as detailed on their official website [https://www.goodandbeautiful.com/products/level-2-language-arts-course-set/].</u></p> <p><u>For additional reading materials, students will explore "My Third Nature Reader" and "A Wolf in the North Woods" by Heather Horn [https://www.goodandbeautiful.com/products/my-third-nature-reader/] [https://www.goodandbeautiful.com/wp-content/uploads/2019/10/Wolf-WEBSITE-SAMPLE.pdf], and "Atlas and His Amazing Adventure" by Mandi Coombs [https://www.goodandbeautiful.com/products/atlas-and-his-amazing-adventure-by-mandi-coombs/].</u></p> <p><u>In the realm of mathematics, Horizons Math 2, including Books 1 & 2 (with the Teacher Manual being optional)</u></p> <p><u>For scientific exploration, "Adventures in the Books</u></p> <p><u>We are partnering with The Homeschool Hive to purchase curriculum for our classes. Pre-order today! https://thehomeschoolhive.com/collections/liana-kyper</u></p> <p><u>In terms of general supplies, students will need a backpack, lunchbox, water bottle, a 1-1 ½ inch binder with tabs, a pocket paper folder, and the Spark half-page rule primary journal, grades K-2 [http://www.walmart.com/ip/Spark-Half-Page-Ruled-Primary-Journal-Grades-K-2-100-Pages-09644/146272594]. While basic school supplies, such as pencils, crayons, and glue will be provided by the teacher, students will need these essentials at home to complete assignments.</u></p> <p><u>Lastly, the Bible curriculum will be provided by the teacher as an integral part of the learning experience.</u></p>	\$2,600.00	352-875-6655	lianakyper@gmail.com

Core 3	Rydell, Candace	<p>We will have a blast this year working our way through the core subjects: English, math, science and history with a concentration on US history and government. Lesson plans will be given for 5 days. On core days, we will utilize games, labs, songs, and collaborative projects while using our texts as foundational learning opportunities. The Book Basket is a Charlotte Mason approach to learning our science and history while strengthening our ELA skills through reading, listening, summarizing, narration, and note taking. Titles are provided for multiple resources across the curriculum and form a backbone for discussion and foundational learning. Horizon 3 is a strong comprehensive approach to math, with review built into each lesson throughout the year. Lesson plans are provided in Mellow Yellow Education platform.</p> <p>Weekly Bible verse memory will be planned. Core Days will include Biblical Integration across subject areas. Core will provide the foundation for learning and we will get messy, be loud, and enjoy our friends in the process.</p> <p>Math will encompass measurement (metric and US customary), geometric shapes, addition, subtraction, multiplication, and division calculations, fractions, telling time, Roman numerals, counting money, word problems, multi-step calculations and word problems to highlight main skills.</p> <p>ELA will target writing sentences, paragraphs, and poems, reading strategies, grammar, spelling, and cursive handwriting. Students will study a minimum of four novels.</p> <p>Science will address physical, natural, and biological topics. Students this age love to study animals, plants, moon, planets, oceans, sound, weather, rocks, motion, food chains and webs.</p> <p>History will be comprised of US history, government, and American Revolution. Technology, hands-on activities, songs, and games will be used to have fun while learning.</p>	<p><u>Backpacks should always include class binder (1-1 1/2") with notebook paper and labeled tabs: ELA, Math, Science, History, Bible, Paper, Books: Bible, Science text and activity book, Math workbook: (fall semester will use the first workbook: spring semester will need 2nd workbook.) Pencil pouches are useful for keeping pencils, erasers, pens, colored pencils or crayons or markers, scissors, glue sticks, and post-it notes. I have rulers and clocks in the classroom.</u></p> <p><u>Textbooks:</u> <u>Math: Horizons Grade 3, December 2020 Printing</u> <u>TE: ISBN: 978-1-58095-971-1</u> <u>Student Workbook 1 for Fall and 2 for Spring, November 2021 Printing</u> <u>ISBN: 978-1-58095-970-4</u></p> <p><u>Learning Language Arts through Literature 3rd Edition: YELLOW Book, Grade 3 Homeschool Kit (includes Student Workbook, Teacher Edition & novels: The White Stallion, by Elizabeth Shub; Madeline, by Ludwig Bemelmans; Meet George Washington, by Joan Heilbronner; The Courage of Dalglish)</u></p> <p><u>We are partnering with The Homeschool Hive for curriculum for our classes. Core 5	Sandefur, Kelli	<p>Science: Unit studies will include an Introduction to the Scientific Method; Learning the Building Blocks to the Structure of Life; Human Body Systems; and Interactions between Humans and Earth. Weekly class meetings will introduce new concepts and some weeks will include hands-on labs and activities to engage students in active learning. Homework will include activities to ensure comprehension.</p> <p>Math: Concepts will be introduced and reviewed during weekly class time. Homework and quizzes will ensure concepts are understood and mastered, as well as providing on-going reinforcement for the entire year. Concepts will include a review of place value (digit/word form) and long multiplication and division; and an introduction/study of fractions, decimals, beginning geometry and algebra.</p> <p>History/Geography: We will study US Geography (learning all the states, capitals, locations, and fun facts) and US History through major events and the Presidents with History Bites. Hands-On activities and oral reports will give students the opportunity to learn how to prepare and deliver speeches, as well as overcome a fear of doing so - a valuable life lesson!</p> <p>Language Arts: The reading curriculum includes novels that grab the attention of students and encourages them to 'think beyond the text' to apply the lessons learned to their own life. Students will learn to answer text-dependent questions that build in complexity each week, as more skills are introduced. The language curriculum will keep grammar and word study standards fresh throughout the year. In addition, novel reading assignments will correspond with lessons from the history/geography curriculum, making the reading meaningful and reinforcing an understanding from both studies.</p> <p>Grammar: Rather than repetitive lessons that cover the same concepts over and over each year, Analytical Grammar helps students build their knowledge sequentially at their own pace, with concise, concrete lessons and plenty of practice.</p> <p>Cursive Handwriting: Students will learn to write and read cursive letters/words/passages.</p> <p>Keyboarding: Students will use an online platform to learn PROPER keyboarding skills.</p>	<p>Instructor will provide ALL necessary supplies, including ALL curriculum, binders/notebooks. Students will need access to a computer (at home) to submit assignments. The supply/curriculum fee (\$350+) is INCLUDED in the class fee.</p>	\$2,800.00	727-481-7990	kellisandefurteach@gmail.com

Core 6	Sandefur, Kelli	<p>Math: Prepare for Pre-Algebra with Mr. D Math! Grade-level studies which include Operations with Whole Numbers and Decimals (A 5th Grade Review Unit); Fraction Operations and Integer Concepts; Ratios, Rates, Percent and Proportions; Expressions; Equations and Inequalities; Geometry; and Data Displays. Concepts will be introduced and reviewed during weekly class time. Homework and quizzes will ensure concepts are understood and mastered.</p> <p>Language Arts: Grammar, writing and novel studies to spark interest and growth. Writing program utilizes Institute for Excellence in Writing curriculum, which teaches students to enhance their writing with simple techniques. Grammar and vocabulary will be reinforced and help strengthen students' writing. Novels will cover a variety of genres, challenging students to leave their comfort zone and dig deeper into the story.</p> <p>History/Geography: We will study Major Wars in coordination with World Geography, traveling across the globe and learning about all of the wonderful landscapes. Hands-on activities and oral reports will give students the opportunity to learn how to prepare and deliver speeches, as well as overcome the fear of doing so!</p> <p>Science: Unit study will include a review of the Scientific Method; Atoms/Elements/Compounds; States and Properties of Matter; Types of Energy; Weather; Rock and Water Cycles and so much more! Weekly class time will introduce new concepts and some weeks include hands-on experiments to bring each lesson 'alive'; homework will include reading, vocabulary, and quizzes to reinforce lessons.</p> <p>Cursive Handwriting: Students who have not learned cursive writing will be given an introductory curriculum. Those who have learned will be given a reinforcement curriculum.</p> <p>Typing 101: Today's students have learned to how to function on a keyboard in a 'hunt and peck' manner. We will learn proper technique!</p> <p>Field Trips: We will have at 2 – 3 field trips during the year. There will be an additional fee for each field trip.</p>	<p>Math Curriculum is provided by Mr. D Math. Curriculum fee for math is approximately \$120 after a discount code provided for TEACH students and paid directly to MrD Math. All other curriculum is provided by the instructor and included in the tuition fee. Some curriculum (books) will be provided on a library system (return books after completed); other curriculum (workbooks) are not required to return.</p>	\$2,800.00	727-481-7990	kellisandefurteach@gmail.com

Core 7	Danciger, Wendy	<p>Course Overview: Language Arts Learning Language Arts Through Literature Complete Package Green by Common Sense Press covers grammar, diagramming, vocabulary, reading skills, spelling skills, penmanship, short story, poetry, and research writing units plus higher order thinking skills. The authors are Diane Welch and Susan Simpson. A student notebook and a teacher's manual are included in the package. Passages from: Black Beauty, Borrowers, Devil in Print, Around the World in Eighty Days, Eight Cousins, Psalm 1, and Story of the Treasure Seekers. Three books we will read are included in the package: Star of Light, The Mysterious Benedict Society, and Much Ado About Nothing. The curriculum is easy to follow with 36 lessons in all. Each lesson consists of 5 days of assignments.</p> <p>History Uncle Sam and You Part 1 by Notgrass covers American history and government. How do elections work? What does the President do all day? Who decides where stop signs go? What is Labor Day? This course is designed for students in grades 6 through 8. The curriculum guides your family on an engaging tour of American government. Your student will learn about elected leaders and everyday citizens who have important roles to fill in making our country work. Students will record weekly current events and participate in at least one community service project of their choice. We will follow the weekly schedule posted on my Mellow Yellow website.</p> <p>Science This course explores topics such as the scientific method, designing experiments, simple machines, geology, archaeology, biology, anatomy, and other disciplines, providing a wide range of scientific exposure. Hands-on experiments are included throughout, giving students practical experience as they discover the principles behind the science! Looking at the world from a creationist position, topics are all presented with an eye towards God's role in everyday life. We will conduct experiments in class. We will follow the attached course scope & sequence.</p> <p>Math MrDmath.com Pre-algebra is an accredited online course that explores integers, real numbers, linear equations, number theory, decimals, ratios, proportions, percent, inequalities, relations and functions, polynomials, square roots, statistics, and probability. Students will be assigned homework via the mrdmath website to complete each week and must bring the coursework notebook (included and passed out on the 1st day) to class each week. They will keep track of their progress and record their grades in the online gradebook. In class, students will have the opportunity to review the week's assignments, ask questions, seek extra help, work in small groups, and play math games.</p> <p>Grades: Your grades for language arts, history, and science will be based on the following and will be recorded on my Mellow Yellow website for your reference: A=90-100, B=80-89, C=79-70, D=60-69</p>	<p><u>Course Texts:</u> <u>Language Arts: Learning Language Arts Through Literature Complete Package Green by Common Sense Press</u> <u>History: Uncle Sam and You Part 1 student textbook, The Citizen's Handbook, Blue Student workbook, and Answer Key by Notgrass. Crafty Tales Storytime	Kyper, Liana	Embark on a whimsical adventure with our Crafty Tales Storytime class, a magical fusion of storytelling and creative crafting! Each session begins with enchanting storytime, where captivating tales come to life through the pages of cherished books. Following the literary journey, young minds will dive into a world of hands-on creativity, bringing the stories to life through carefully curated crafts. From fanciful characters to imaginative scenes, our Crafty Tales class nurtures both a love for literature and a passion for artistic expression. Join us in this delightful exploration where the magic of storytelling seamlessly intertwines with the joy of crafting, creating cherished memories and fostering a lifelong love for both tales and crafts.	All supplies provided.	\$500.00	352-875-6655	lianakyper@gmail.com
Creative Writing (MS/HS)	Rydell, Candace	Does your child spend free time journaling or writing poems and stories? Then this class is for YOUR student! This is not technical writing or grammar intensive, so put the creativity on overdrive for a great adventure. Rubrics will be provided and grade book will be maintained. Focus is on creativity and development of characters, plot, setting, persuasion, etc.	TBD Bring binder, notebook paper, pencil or pens to class each week.	\$530.00	8139920047	on2college@gmail.com
Crochet Crafts	Ohlman, Amanda	We will dive into the craft world of crochet. I have 6-8 projects planned. Skills we will work on: the basic crochet stitches, granny squares, Tunisian crochet, amigurumi, felting, broomstick lace, colorwork, garments, pattern and chart reading.	Intro supplies (1st month) will be included, after that supplies are not included and will be needed fairly regularly and will not be the same for everyone. Supplies needed will consist of yarn for the project and the appropriate crochet hooks.	\$450.00	9312493896	amanda@ybsquare.com
Cursive Adventures	Kyper, Liana	Join us as we embark on a captivating journey into the world of beginning cursive. In this course, we'll demystify the art of flowing script and transform your writing experience into an exciting adventure. From loops to curves, embark on a journey where each stroke is a step toward mastering the timeless elegance of cursive script. This course will guide you through the foundations, making learning both enjoyable and rewarding.	Students will need to bring a folder for their work. All other supplies provided.	\$600.00	352-875-6655	lianakyper@gmail.com
Dance	Berrojo, Jennifer	In this class we will do creative movement, ballet, lyrical and jazz technique. The class will consist of warmup, stretches, and a variety of combinations fast and slow. They will learn a dance to perform at the end of the school year. The 3-5 year class will include dance and movement games.	No curriculum is needed. They just need to wear comfortable clothes for movement.	\$440.00	813-245-2582	jenniferberrojo@hotmail.com

Econ/Govt	Wilson, Michele	<p>Welcome to US Government and Economics with Mrs. Wilson. This year, we will be using Notgrass' US Government and Economics curriculum. The first semester we will focus on Government, and the second semester, we will focus on Economics.</p> <p>According to the Notgrass History website:</p> <p>"Exploring Government by Ray Notgrass is a one-semester course for high school. Explore the government of the United States from its beginning to the present with special emphasis on the Biblical pattern for government and on the U.S. Constitution. Learn about the operations of federal, state, and local government, and about issues facing our nation today. Become better equipped to understand, pray for, and be involved in our country's government.</p> <p>Exploring Economics is a one-semester course that provides one half-year of credit for high school. Students learn Biblical teachings about economics from the Old and New Testaments and a history of the U.S. economy. The curriculum emphasizes the contrast between command economies and free markets. Exploring Economics helps students understand both microeconomics and macroeconomics. The course explains economic terms from supply and demand to GDP and the Consumer Price Index, giving students tools to understand what they hear in the news and to make wise economic decisions."</p> <p>There will be about a half hour to hour's worth of homework per week.</p>	<p>We are partnering with The Homeschool Hive to purchase certain curriculum for our classes. Pre-order now! https://thehomeschoolhive.com/collections/michelle-wilson</p> <p>notgrasshistory.com/collections/exploring-government/products/exploring-government-curriculum-package</p> <p>notgrasshistory.com/collections/exploring-government/products/exploring-government-student-review-pack **<u>(required ONLY if you want your student to have an extra credit option)</u>**</p> <p>notgrasshistory.com/collections/exploring-economics/products/exploring-economics-curriculum-package</p> <p>notgrasshistory.com/collections/exploring-economics/products/exploring-economics-student-review-pack **<u>(required ONLY if you want your student to have an extra credit option)</u>**</p>	\$550.00	813-482-8099	hatutoring@icloud.com

Exploring Creation with Physics, 2nd Edition	Nastelli, Dr. Andrea	<p>Course Description: Exploring Creation with Physics, 2nd Edition</p> <p>The science of physics is an attempt to explain everything that is observed in nature, this text is an overview of the advances made over the last three thousand years! And while that may seem like a monumental task, we've designed it to be not only homeschool-friendly but also college-prep. This college-prep physics course is designed for the student who has completed algebra 1 and geometry and has had an introduction to the definitions of sine, cosine, and tangent.</p> <p>In this homeschool high school physics course, we go into detail but use a conversational style of writing so that students feel as if they are participating in the learning process. When they are finished with the course, students will be able to do things such as:</p> <ul style="list-style-type: none"> • Relate velocity, acceleration, time, and displacement • Use mathematical equations for one-dimensional motion <ul style="list-style-type: none"> • Understand and apply Newton's Laws • Be able to see the strong connection between math and science <p>Some important concepts covered in Apologia's high school physics include, but aren't limited to:</p> <ul style="list-style-type: none"> • One and two-dimensional motion • Newton's laws and their applications in nature <ul style="list-style-type: none"> • Work and energy <ul style="list-style-type: none"> • Electricity • Magnetism • Momentum, • Periodic motion <ul style="list-style-type: none"> • Waves • Optics <p>Solutions & Tests Manual The Solutions and Tests Manual only for Exploring Creation with Physics, 2nd Edition, contains answers to Study Guide questions, module summaries, tests, and test solutions.</p>	<p><u>Student text: 2nd Edition, Apologia, Physics Basic Set</u></p> <p><u>We are partnering with The Homeschool Hive to purchase curriculum for our classes. Forensic Science - High School	Sandefur, Kelli	<p>Forensic Science is the application of science to criminal and civil laws that are enforced by police agencies in a criminal justice system. Forensic Science and Criminal Investigations involve the study of real-world, high interest, engaging topics. Areas of study include physical evidence; impression evidence; hair and fibers; blood basics; entomology; anthropology; arson; chromatology and toxicology.</p> <p>Videos studied will be realistic, but they are reenactments and are not inappropriately graphic. For example, if the crime being evaluated involves death with a blunt force object, the video will show the crime scene and evidence collected but obviously not act of the real crime. We will be sensitive in dealing with all topics. IF there is anything in class that makes a student uncomfortable, he/she should feel free to leave the classroom at any time. Please note this class is also being offered for middle-school students. The course content for the middle school class WILL NOT cover all of those presented in the high school class.</p> <p>In addition to gaining a better understanding of the field of forensic science, students will leave this class with a better self-awareness and understanding of the dangers in society. The goal is not to scare students but make them cautious and less naive about their surroundings.</p> <p>Homework assigned in this high school level class is minimal but required. Enforcement of this policy will better prepare your student for the next level of their educational journey. This class fulfills a high school science with lab credit.</p>	All curriculum/supplies provided by instructor. Students will need a 3-ring-binder.	\$530.00	727-481-7990	kellisandefurteach@gmail.com
Forensic Science - Middle School	Sandefur, Kelli	<p>Forensic Science is the application of science to criminal and civil laws that are enforced by police agencies in a criminal justice system. Forensic Science and Criminal Investigations involve the study of real-world, high interest, engaging topics. Areas of study include physical evidence; impression evidence; hair and fibers; blood basics; entomology; anthropology; arson; chromatology and toxicology. Discussions and topics will be grade/age appropriate. When videos are presented for case studies, they will be realistic, but they are reenactments and are not inappropriately graphic. Our focus will be on the scientific evidence not the criminal act.</p> <p>In addition to gaining a better understanding of the field of forensic science, students will leave this class with a better self-awareness and understanding of the dangers in society. French 1a	Reinhart, April	<p>French 1a</p> <p>French 1a is designed to meet the needs of students with no previous experience in French. Combined with the follow up French 1b, these two courses are the academic equivalent of a High School French 1 course. This class introduces the fundamentals of French grammar, pronunciation and vocabulary, and will teach students to express themselves both orally and in writing. This course also introduces students to French culture and the francophone world.</p> <p>Grades will be assigned based on homework, unit exams, quizzes, creative activities and class participation. Course Topics include: Basic Greetings, Numbers, Family Members, Colors, Food and Drink, Telling Time, Days of the Week, Months of the Year, Seasons, Weather Expressions, Body Parts, Conjugating Verbs, Negatives, and Forming Questions</p>	<p>McDougal Littell Discovering French Nouveau Bleu 1 (2007 ed., ISBN-13: 978-0618656516) and McDougal Littell Discovering French Nouveau Bleu 1 Workbook (Paperback, ISBN-13: 978-0618661787).</p> <p>Recommended: A 2" three ring binder for class hand outs</p>	\$500.00	813-765-6177	madamereinhart@gmail.com
French 2a	Reinhart, April	<p>French 2a</p> <p>French 2b is the start of high school, level 2 French language learning. Students need to have completed French 1a and 1b at TEACH or the equivalent of high school French level 1. Students will build on the fundamentals of French grammar, pronunciation and vocabulary previously learned along with expanding their skill in expressing themselves both orally and in writing. During class time we will continue to explore French culture along with exercises to improve listening comprehension. We will also be reading the children's book "Flat Stanley" in French along with completing a travel diary for our paper "Stanley"s.</p> <p>Grades will be assigned based on homework, unit exams, quizzes, and creative activities and class participation.</p> <p>Course Topics: Nationalities Professions Extended Family Foods Table Settings Weekend Activities Irregular Adjectives Inversion Questions Future Proche Expressing the recent past The Past Tense Negatives</p>	<p>McDougal Littell Discovering French Nouveau Blanc 2 (2007 ed. Gardening (K-3)	Danciger, Wendy	<p>Class Description</p> <p>A school garden is an innovative teaching tool and strategy that incorporates hands-on activities in a diversity of interdisciplinary lessons. Growing a garden engages students by providing a dynamic environment in which to observe, discover, experiment, nurture, and learn. Students will gain an understanding of ecosystems, food origins and nutrition, plant life cycles, and practical horticulture skills. Students will learn about many different types of gardens. They will determine the type of garden to plant at Trinity. Some types of gardens we will learn about are; vegetable/fruit gardens, butterfly gardens, herb gardens, flower gardens, and colonial gardens.</p> <p>*Field trips will be planned if most of the class is interested to Old McMickey's Farm, Raprager's Family Farm, Sweetwater Organic Farm, and USF Botanical Gardens, and Abby's Organic Community Farm. At least one parent/guardian will be required to attend.</p> <p>Communication</p> <p>I may send emails, when necessary, but most of our communication will be done through the Remind.com app via text messages. Please download the app on your computer or smartphone and join our class. Remind.com access code will be given the first week of school.</p> <p>***This is the best way to reach me. If you send me an email, please send a text through Remind to notify me. I have 5 email accounts I check weekly not daily.</p> <p>Grades/Homework</p> <p>Generally, no homework will be assigned. Students may be asked to complete a class assignment/experiment at home. A certificate of completion will be given at the end of the year.</p>	<p>Materials</p> <p>Pocket Folder</p> <p>**If you are able to donate seeds, soil, fertilizer, etc. our class would definitely appreciate it!</p> <p>Bug spray</p> <p>Shovel</p> <p>Gloves</p> <p>Closed Toe Shoes</p>	\$500.00	(813) 789-4979	danciger700@gmail.com

Graphic Design	Chen, Ping	Computer graphic design combines skills in technology, business and art, using computer-generated images and words to create unique concepts and messages for publishing and advertising. Computer graphic design is everywhere in the modern world. You see it on street signs and in restaurants, television programs and magazines. You're seeing it right now as you read this. Computer graphic designers use technology to manipulate and combine words, images, color, typography and sound in order to elicit emotions and deliver messages to viewers. In this class the students will learn how to use Adobe Photoshop software to create picture images; how to design the signs, Ads, Flyers, Post cards, Greeting cards, Book covers, Billboards, Brochures, Banners, Logos, etc. You can use professional photography tools to turn your snapshots into works of art. Adjust, crop, remove objects, retouch, and repair old photos. Play with color, effects, and more to turn the ordinary into something extraordinary. And use the tools to do illustrations, paintings, and 3D artworks, animation art.....even the beginners can make something amazing.	1. Students need to bring a laptop computer. 2. Before come to the class need to download Adobe Photoshop CC software. The students need to go to adobe.com to choose the software payment plan, first week can try free trail, then need to do \$9.99 month plan.	\$600.00	813-220-1194	pingcatbaby1@gmail.com

Health and Nutrition Basic Set	Nastelli, Dr. Andrea	<p>Course Description: Health and Nutrition Basic Set Let's talk everything health and wellness for youth. What does it look like to implement healthy lifestyle habits? Your student will learn extensive tips and tricks for how to navigate a healthy lifestyle. Exploring Creation with Health and Nutrition, 2nd edition covers what maturing students need to know to help them make the best choices they can for themselves as they become young adults. This basic set includes the Exploring Creation with Health and Nutrition, 2nd edition textbook and student notebook.</p> <p>There are 2 ways to give credit for this course.</p> <ul style="list-style-type: none"> • Elective – Students who are taking Health and Nutrition as an elective course need only the textbook which is specifically written to expand a student's knowledge of topics typically not taught in high school. As such, it's easily read, conversational style can enhance a student's high school studies without additional burden. As an elective, students would be expected to read the text and complete the On Your Own questions to ensure they have comprehended the materials. The answers to the On Your Own questions are found at the end of each module. A student could easily finish the course in one semester, reading one module per week. This would be a 14-week course plan. However, it is also acceptable that a student would plan to read through a module every two weeks at his or her leisure. This would make a full-year, 28-week course. • State Requirement – Students who are taking Health and Nutrition as a state requirement should also purchase the Student Notebook. The notebook contains projects, Study Guides, and exams for the student to complete for State credit. The answers to the On Your Own questions are found at the end of each module. The answers to the Study Guides and exams are found online at the Book Extra site for this title. A student could easily finish the course in one semester, reading one module per week. This would be a 14-week course plan. However, it is also acceptable that a student would plan to read through a module every two weeks at his or her leisure. This would make a full-year, 28-week course. <p>The Answer Key is included on the Apologia Book Extras site. This course is for high school credit (1 or 2 semesters tailored to your needs).</p> <p>Parental Note: This is a full health textbook. Some students may not be mature enough to discuss some of the topics. The reproductive systems are covered in detail, including accurate, yet respectful, illustrations and descriptions. We respectfully discuss the act of marriage, sexual misconduct, pregnancy, and sexually transmitted diseases. We discuss alcohol and drug abuse, depression, pornography and other topics that also require maturity. Please use your knowledge of your students to decide if this course is appropriate for their maturity levels.</p>	<p><u>Student text: 2nd Edition, Apologia, Health and Nutrition Basic Set. (Student Text and Student Journal)</u> <u>Author: Dr. Laura Chase</u> <u>ISBN: 978-1-940110-34-9-90000</u> <u>https://www.apologia.com/product/apologia-basic-set-health-and-nutrition/</u> <u>We are partnering with The Homeschool Hive to purchase curriculum for our classes. Pre-order now! https://thehomeschoolhive.com/collections/dr-andrea-nastelli</u></p> <p><u>Materials needed in class each week:</u> o <u>Thin binder OR folder and notebook paper</u> o <u>Basic art materials should be brought each week (glue stick, scissors, colored pencils, pencils, erasers, highlighters, Post-It notes)</u></p>	\$625.00	7033002014	amnastelli@zoho.com

Homestead	Rosario, Malori and Deven	<p>Introduction to Homesteading</p> <p>Join our Homesteading Class, a hands-on journey into animal husbandry, livestock care, and traditional skills. Learn the art of self-sufficiency as we explore sustainable practices in raising animals and experiencing essential homesteading traditions.</p> <ul style="list-style-type: none"> •We will explore the traditions of self sufficiency and how to plan to grow our own food supply. •Hands on in-class experience with our favorite farm animals. Learn all about their anatomy and how they are used to benefit the family farm. •Create foods and products using the same skills our great grandparents needed. We will make butter, learn canning, create soaps, candles, and more! 	All curriculum and materials will be provided. Other than you will need a 3 ring binder, pencil, and colored pencils/crayons.	\$650.00	813-770-9384 / 813-770-9352	malorirosario@gmail.com
Homework Bootcamp	Donovan, Dolly	<p>Homework Bootcamp is a session where students come to complete assigned work from either Trinity teachers or parents. The work completed during our sessions will vary from Math, English, History, etc. depending on the student's need.</p> <p>All sessions run 50 mins each, parents provide all materials and determine the classes their student is taking, then they work with the chosen curriculum. If students show strong focus and concentration to complete their work, they may earn a 5-minute early release as a motivational tool.</p> <p>I provide a focused environment for each student to thrive in completing their assignments. They also receive a variety of tutoring resources, which I will provide, when they need material presented in a different fashion to assist the student's ability to grasp the material.</p> <p>This is an excellent opportunity to have them do their homework while at Trinity and having tutoring support in case they get stuck. This will then decrease workload to be done at home allowing for more family time!</p> <p>Homework Bootcamp program runs 30 weeks.</p>	Parents chosen	\$1,100.00	8138171594	dmdlita2@gmail.com

Improv	Sandefur, Thia	<p>In this fun and engaging class, students will embark on a journey of spontaneous expression, quick thinking, and collaborative storytelling through the exciting world of improv! Improv is a team sport, and this class emphasizes the importance of collaboration. Through exercises and group games, students will learn to trust their instincts and work seamlessly with their peers to create compelling and humorous scenes.</p> <p>Improv teaches the importance of being present in the moment, fostering effective verbal and non-verbal communication. These are skills students will take with them in life!</p> <p>Students will unleash their imagination, strengthen their communication skills, and enjoy the thrill of spontaneous creativity! Whether your student is a seasoned performer or new to the stage, this class promises a lively and supportive environment for all to shine.</p>	<p>No curriculum needed. Students should be dressed expecting to move around! Shorts should be worn under dresses/skirts. We also encourage the use of deodorant ;)</p>	\$400.00	7274180242	thiateach@gmail.com
Intermediate Entrepreneurs (8th-12th)	Danciger, Wendy	<p>Class Description Students will acquire foundational business concepts, learn economic and mathematic concepts, and apply those concepts to a new business idea. Real life examples are important to use when educating students. This course will take them through an entrepreneurial journey of creating their own business, producing a product, or offering a service, and marketing and selling to their peers. This course encompasses a variety of basic life skills such as money management, business development, bookkeeping, profit margins, marketing campaigns, and friendly competition. Entrepreneurs in the Tampa Bay area will be invited to speak to students in class. Students will learn how to start a small business of their own. Opportunities to sell their goods and services will be provided through Trinity Market Days approximately once a month. Students will plan and implement Trinity's annual Fall Festival and Spring Festival.</p> <p>Communication I will send emails, when necessary, but most of the time we will communicate via the Remind.com app. A class code will be given the first week of class. .***This is the best way to reach me. If you send me an email, please send a text through Remind to notify me. I have 5 email accounts I check weekly not daily.</p> <p>Class Swag To purchase a Young Entrepreneurs class t-shirt, go to www.bonfire.com/young-entrepreneurs-1. All proceeds go to support Trinity's charity, "Carol's Kids".</p> <p>Grades/Homework Intermediate Entrepreneurs may have some homework assignments and will receive 1 high school credit.</p>	<p>Materials 1" binder Notebook paper Poster Board Pens/pencils Markers Glue stick</p> <p>Laptop/ipad/tablet/smartphone etc. may be needed in class on occasion but isn't required</p> <p>Recommended Resources 1. Intro to Spanish (Elementary)	Sotolongo, Alisha	Intro to Spanish is a class that aims to teach students the basics of the Spanish language! Students build foundations in vocabulary, verb conjugation, pronunciation, syntax, and grammar usage. Your student will learn to meet and greet someone, talk about themselves, and ask others about themselves. They will speak, read, write, and understand full sentences using vocabulary, verbs, and grammar concepts that are useful in everyday day life! There will be games and activities using only Spanish for a more hands on and immersive learning experience!	All curriculum is provided	\$600.00	352-206-1592	alishasotolongo@gmail.com
Introduction to Technology & Touch Typing	Alton, Arthur	We have seen the many benefits of Technology help students to succeed. Learning when students are young increases their confidence and prepares academic success. Students will work with computers and have fun increasing their skills through the fundamentals of programming, - flow charts - basic algorithms We will introduce students to the syntax of computer languages through JavaScript, and begin some of the basics of coding. Also we will learn "Touch Typing". Students need to bring a Notebook computer (PC or MAC) for each class.	Bring Notebook PC or MACbook to each class, weekly downloads are provided! Tablets: iPad, Chrome book, & MS Surface not suggested!	\$500.00	8137278007	arthur@safecs.com
Jump into Lit (K-2)	Rydell, Candace	Adventure with us as we jump into literature with both feet-literally and figuratively! The beauty of Co-op is the time we have with each other to safely learn and collaborate. Deanna Jump's curriculum will provide the framework for this fresh approach to literature for your littles using engaging and thought-provoking titles. Classical selections will be brought into the classroom to supplement this hands-on approach to learning fiction and non-fiction text features and reading strategies to cultivate a love for literature. Vocabulary, reading, listening, sentence structure, and writing will be a focus each week. We will explore all aspects of texts: pictures, headings, title, setting, story elements, visualizing, etc., and learn how to ask as well as answer questions to help understand text. Biblical integration will be part of each unit to develop a passionate search for truth in all we do, see, hear, and read in our journey to grow in the Lord. Activities for home study will be offered to strengthen language arts skills, including phonics, writing, and thinking skills. Feedback during class will be offered as students participate and grow at their individual level. Phonics will be strengthened but this course is designed to create a love of literature and expose to understanding text. Read aloud selections may be purchased separately or checked out from the library. (There are also many You Tube videos with selections read by the author.) Mellow Yellow Education online platform has weekly at-home lessons for you to print and complete at your discretion. Each week lesson plans, phonics activities, and language arts skills will be available to print and add to notebook as student completes. You can print as many or few activities as you would like.	Materials: 2 primary composition books (OR 3-ring binder with tab dividers OR folder and notebook paper), AND Basic art materials should be brought in backpack each week: glue stick, scissors, crayons or markers or colored pencils, pencils, erasers	\$530.00	8139920047	on2college@gmail.com

Language Arts 7th/8th	Rydell, Candace	<p>Welcome to Let's Go! Lit (7-8) Middle school students are hungry for deeper examination of literature selections to compare and contrast the elements that build story complexity. Discussions in class encourage students to summarize, debate, predict logically and think critically while also examine Biblical truths either glaringly absent or found in characters or story lines. This course will explore literary elements, writing composition, grammar, reading strategies, spelling, and study skills. Deeper understanding of simile, metaphor, hyperbole, and alliteration among other literary devices further the student's reading comprehension. Students will gain experience verbalizing perceived strengths and weaknesses in literature, thereby building confidence in reading, thinking, speaking, and listening skills.</p> <p>Preparation of home study assignments will provide skill building practice and will assist in gaining the maximum Co-op experience while sharing together in class. Feedback will be offered as students participate and grow at their individual level in lieu of letter grades. Projects may be assigned to monitor student progress.</p> <p>Many families use this class to fulfill a core requirement for English Composition. Feedback will be given on essays but grades will be determined by parent as teaching daily will require parental input and observation. The answer key is located within this curriculum so it will also be parent responsibility to monitor student access. Essays and book reviews will be assigned, as well as novel and play analysis. Students are expected to participate in class and complete assignments in order to ensure a rich classroom environment and maximum engagement through games, live interaction, and discussion.</p>	<p><u>Materials needed:</u> <u>Student AND instructor texts: Learning Language Arts through Literature Green, 3rd edition. Language Arts and Literature 3rd/4th	Rydell, Candace	<p>Language Arts through Literature, Orange (4th grade) will be enriched with a variety of engaging activities. Games designed to reinforce language concepts such as vocabulary, grammar, and comprehension will offer interactive and enjoyable learning experiences. Students will explore the power of language through song, using music as a tool to enhance their understanding of literary elements and themes. Creative projects will encourage students to express themselves through writing, artwork, and multimedia presentations, fostering both individual creativity and collaborative skills. Interactive writing instruction will provide opportunities for students to actively participate in the writing process, from brainstorming ideas to editing and revising their work. Through these dynamic approaches, students will not only develop proficiency in language arts but also cultivate a love for literature and expression.</p> <p>Participation is our focus and encouraged so grades will not be given. Home study assignments provide skill building practice and allow parents to monitor progress.</p> <p>Mellow Yellow is our online education platform. Looking forward to facilitating your child by presenting tools to grow academically, spirituality, emotionally, and socially in an engaging classroom environment. I'm so happy to partner with you and your students in this year to achieve academic goals.</p>	<p>Learning Language Arts through Literature, 3rd Edition Orange Student Activity Book with Teacher's Edition and novels: The Boxcar Children (Book #1) by Gertrude Chandler Warner; Wilbur and Orville Wright by Augusta Stevenson; Ben and Me: An Astonishing Life of Benjamin Franklin By His Good Mouse Amos by Robert Lawson; The by Elizabeth George Speare</p> <p>We are partnering with The Homeschool Hive to purchase curriculum for our classes. Language Arts and Literature 5th/6th	Rydell, Candace	<p>Welcome to Learning through Lit (ELA 5-6)! Students will learn content and how to interact and make connections with text at a deeper level. Critically thinking, sharing dialogue, and expounding on ideas about text and among participants enables a rich literary experience. Vocabulary, spelling, comprehension, and writing instruction is included. Building confidence as readers and critical thinkers helps students analyze text and measure against Biblical truths, setting the stage for a joyful journey seeking God's wisdom through the written word.</p> <p>This course is an active setting encouraging meaningful participation enabling deeper connections and growth. Preparation of home study assignments will provide skill building practice and will assist in gleaning the maximum Co-op experience while sharing together in class. Feedback will be offered as students participate and grow at their individual level in lieu of letter grades. Projects may be assigned to monitor progress and engagement.</p> <p>Mellow Yellow Education is the online platform for this course. Occasionally there may be announcements and updates, but nothing will need to be submitted for grading.</p>	<p><u>We are partnering with The Homeschool Hive to purchase curriculum for our classes. Language Arts and Literature K - 2	Rydell, Candace	<p>Adventure with us as we jump into literature with both feet-literally and figuratively! The beauty of Co-op is the time we have with each other to safely learn and collaborate. Deanna Jump's curriculum will provide the framework for this fresh approach to literature for your littles using engaging and thought-provoking titles. Classical selections will be brought into the classroom to supplement this hands-on approach to learning fiction and non-fiction text features and reading strategies to cultivate a love for literature. Vocabulary, reading, listening, sentence structure, and writing will be a focus each week. We will explore all aspects of texts: pictures, headings, title, setting, story elements, visualizing, etc., and learn how to ask as well as answer questions to help understand text. Biblical integration will be part of each unit to develop a passionate search for truth in all we do, see, hear, and read in our journey to grow in the Lord. Activities for home study will be offered to strengthen language arts skills, including phonics, writing, and thinking skills. Feedback during class will be offered as students participate and grow at their individual level. Phonics will be strengthened but this course is designed to create a love of literature and expose to understanding text. Read aloud selections may be purchased separately or checked out from the library. (There are also many You Tube videos with selections read by the author.)</p> <p>Mellow Yellow Education online platform has weekly at-home lessons for you to print and complete at your discretion. Each week lesson plans, phonics activities, and language arts skills will be available to print and add to notebook as student completes. You can print as many or few activities as you would like.</p>	<p>Materials: 2 primary composition books (OR 3-ring binder with tab dividers OR folder and notebook paper),</p> <p>AND Basic art materials should be brought in backpack each week: glue stick, scissors, crayons or markers or colored pencils, pencils, erasers</p>	\$535.00	8139920047	on2college@gmail.com

Language Arts High School	Rydell, Candace	<p>Welcome to Legit Lit (9-12)! We are excited to incorporate reading and writing in this comprehensive course for 2024-2025. Learning Language Arts through Literature is the curriculum we will use to explore American Literature. We begin the year with short stories, novels, essay composition, and poetry. What a joy we have to present content and also teach Biblical truths in tandem. Please provide a copy of a New American Standard Bible for your child to refer to during our literature study. Lessons will be divided into 5 days. In-class participation as well as online assignment submission will be offered.</p> <p>Preparation of home study assignments will provide skill building practice and will assist in gleaning the maximum Co-op experience while sharing together in class. The goal here is to think independently, confidently verbalize, and respectfully hear others in a roundtable or Socratic setting. The goal is less about making a grade or getting an "A" but mastering and critically thinking about material while confidently expressing thoughts.</p>	<p><u>Materials: text kit: Gold box: American Literature: Learning Language Arts through Literature (7 books total)</u> <u>Note: Please purchase the 3rd Edition of the Gold Book kit. This includes Lesson Plan Book, Course Notes/Tests/Answer Keys booklet, Short Story anthology, 3 novels: THE RED BADGE OF COURAGE, THE OLD MAN AND THE SEA, and THE PEARL. Please be advised: test, vocabulary, and daily assignment answer key is included as part of student text. Parents will need to monitor as needed.</u></p> <p><u>We are partnering with The Homeschool Hive to purchase curriculum for our classes. Pre-order now! https://thehomeschoolhive.com/collections/candace-rydell</u></p> <p><u>New American Standard Bible (NASB) 3-ring binder with 5 tab dividers labeled</u> <u>1. Writing Assignments & Poems</u> <u>2. Vocabulary</u> <u>3. Literature Terms</u> <u>4. Essays & Short Stories</u> <u>5. Paper</u></p> <p><u>looseleaf notebook paper, highlighters, Post-It notes, pens and pencils (your choice), word processing and printing capabilities on home study days</u></p> <p><u>*Please bring binder, tabs, paper, pens, pencils, Post-It notes, Short story anthology and gold paperback lesson plan book to first class.</u></p>	\$600.00	8139920047	on2college@gmail.com

Leadership/Adulting: High School	Sandefur, Kelli	<p>This class is similar to our previously titled 'Student Leadership/Student Government' and 'Life Skills/Adulting' classes. As we all know, these skills are acquired and fine-tuned with time and repetition; so even if your student has taken this class under another name in the past, he/she will benefit from taking it again this year! If your student is new to the class, he/she will absorb and learn from classmates and the class experience. The purpose of this class is to give students an opportunity to develop leadership skills by organizing and carrying out school activities and service projects. In addition to planning events that contribute to school spirit and community welfare, this student group is the voice of the student body. They help share student ideas, interests, and concerns with the school wide community.</p> <p>This class also provides opportunities for students to interact with their classmates and build relationships outside of the classroom. Multiple 'team building' activities will be coordinated on days/times outside of our normal class meeting time. Participation in these activities, such as an Escape Room, Bowling or Ropes Course, is optional; fee for these add-on activities is not included in the class fee.</p> <p>There is a lot to learn about being a leader and follower, as well as learning to work with peers with similar and different knowledge and opinions. Any student that is interested in leadership, organizational behavior, event planning, or becoming more involved in the school is welcome to become involved!</p>	N/A	\$500.00	727-481-7990	kellisandefurteach@gmail.com

Liberty Girls Club (4th-6th)	Danciger, Wendy	<p>Liberty Girls club allows girls a chance to be themselves, develop self-confidence, and make new friends. Opportunities to form meaningful connections with girls who feel like them, are like-minded, and share a similar experience of the world are encouraged. Our club is a safe place to talk, to be heard, to have fun, without worrying about boys, bullying, or being self-conscious. We will learn about historic young female role models such as Joan of Arc and Sybil Ludington. Community service projects and field trips (on a Friday) will be encouraged and decided by a majority vote by students (with parent approval). Health topics such as hair and skin care will be discussed. Activities that boost self-esteem, teach manners, and develop leadership skills will be planned. Arts and crafts, fun and games, cooking, organizational skills, seasonal activities, and theme days are a but a few of the fun activities your daughter can expect.</p> <p>Communication I will send emails when necessary. Most communication will be done through the Remind app. A class code will be given the first week of school. ***This is the best way to reach me. Marine Biology, 2nd Edition	Nastelli, Dr. Andrea	<p>Apologia's Marine Biology course is one of the few homeschool science courses that include an entire education on ecology. It gives students self-directed learning tools to ensure that they thrive and master key science concepts. This Marine Biology course is rigorous and will provide your student with a thorough understanding of Marine Biology. We recommend it as a high school course as it requires knowledge of general biology and assumes that your student has previously participated in biological lab activities such as experiments, dissections, and microscopy.</p> <p>God designed the earth's intricate ecosystem for his glory and the needs of those He created, and it is crucial for Christians in our day to accurately understand the ocean's ecosystems and resources and how we can best steward them.</p> <p>Apologia is written in a conversational tone directly to the student, and while at times the ideas are complex, it is also written in a way that is accessible and easy to understand.</p> <p>Topics covered include:</p> <ul style="list-style-type: none"> •The Process of Life •Geography of the Oceans •Reproduction in the Sea •Classifying Life in the Sea •Kingdom Protista: The Unicellular Algae •Kingdom Protista: The Marine Protozoans •Kingdom Protista: The Multicellular Algae <ul style="list-style-type: none"> •Kingdom Monera •Kingdom Fungi •Kingdom Plantae •Marine Invertebrates •Marine Vertebrates <ul style="list-style-type: none"> •Marine Ecology •The Intertidal Zone •Estuary Communities <ul style="list-style-type: none"> •Coral Reefs •Continental Shelf Communities <ul style="list-style-type: none"> •The Epipelagic Zone •The Deep Ocean •Ocean Resources •Effects of Humans of the Sea 	<p>Student text: <u>2nd Edition, Apologia, Marine Biology Advantage Set</u> Author: <u>Sherril Seligson</u> ISBN: <u>978-1-940110-96-7</u></p> <p><u>- 3-ring binder OR folder and notebook paper</u></p> <p><u>We are partnering with The Homeschool Hive to purchase curriculum for our classes. PHOTOGRAPHY & VIDEOGRAPHY	Warren, Aaron	In this class, students will get the opportunity to learn and experience 2 visual arts: photography and videography! Visual storytelling is at the heart of this class, with students immersing themselves in the deeper narratives; touching on elements like style, emotion, and thematic series. Students will bring creative visions to life. As a part of this class, students will have real world photography opportunities! Students will regularly be given a particular topic or theme to capture between classes. Then they will present their photos to the class, where we will discuss their results. Students will compile their best work into an online portfolio to display their growing skills. In the spring semester, this class will collaborate with the acting for film and television class and get to put their videography skills to use! They will be the videographers for the annual short film and get to use a professional quality camera. Students will ensure appropriate lighting and get various angles as they film the acting class' short film. They will also take headshots of the students that are displayed in the credits of the film. This gives them a real hands-on experience behind the camera and they will get to show off their hard work with the short film debut and see their names in the credits!	Materials: -A camera, which can be a phone or DSLR camera. No prior experience is necessary to enjoy photography. - Laptop or tablet. Students should bring a charger or ideally have their device fully charged prior to class time -Mellow Yellow will be used to organize class lessons, projects, and provide student feedback on their work.	\$610.00	813-453-7086	Aaronmichaelwarren@gmail.com

Pre-Writing	Borders, Anne	This class will be using the Writer's Workshop Bundle by Samantha Kelly from Teachers Pay Teachers. The Pre-Writing class is for students who know how to write the letters of the alphabet and the sound that each letter makes. We will be using the Beginning Writing unit in this course. Writers Workshop is FUN and lets your child choose the topics that they want to write about. Class consists of a group skill lesson, independent writing where students are encouraged to use the new skill taught and sharing writing with classmates. As students are writing independently, I will circulate and help each child individually. We will make and use a writing folder for this class. Your child will be able to take it home at the end of the year. All supplies and curriculum will be provided by the teacher. Your child will only need to come to class ready to learn with a smile! There will be no grades or homework for this course. To learn more about this curriculum go to... https://www.teacherspayteachers.com/Product/Writers-Workshop-Bundle-1681509	None	\$530.00	(813) 690-7930	stborders@msn.com

THE OFFICE	Nastelli, Dr. Andrea	<p>COURSE OBJECTIVE: To gain proficiency in Microsoft Word, PowerPoint, and Excel, along with fundamental email functions and etiquette.</p> <p>CLASS DESCRIPTION: Enhancing skills in Microsoft Word, Excel, and PowerPoint, as well as document management and file sharing, is crucial in today's workplace. Proficiency in these software applications is equally valuable in academic and everyday settings. The initial phase of our course will focus on exploration and application of new skills, learning software terminology, and effective navigation of Microsoft programs. As our familiarity and skills grow, the latter part of the course will integrate engaging projects, allowing students to create while applying learned skills. Our primary focus will be on in-depth study of Word, PowerPoint, and Excel, with a brief overview of email etiquette.</p> <p>Learning will be hands-on and practical: Projects will be assigned to reinforce foundational concepts. For instance, students might take on the role of marketing executives for a self-created amusement park, requiring them to utilize Microsoft Office skills to fulfill various job responsibilities. For example, Word might be used to design posters and animal exhibit signs, Excel to graph survey data on a new attraction, and PowerPoint to create promotional videos. These engaging projects aim to master everyday Microsoft Office tasks.</p> <p>Certification Opportunity: Upon completion, students will have the option to take the MOS (Microsoft Office Specialist) Associate Certification Exam. This certification, recognized by Certiport, assesses proficiency in Microsoft 365 applications in a project-based environment.</p> <p>TYPING GOALS: Students will receive early access to TYPING.COM as part of our learning journey to improve typing skills.</p>	<p>Course Needs: Students are required to bring the following items:</p> <ul style="list-style-type: none"> • A laptop with Microsoft Office 365 Desktop installed and fully operational BEFORE the first day of class. • Each student must have a Gmail account or another form of email account. Please ensure the password is written down and readily accessible for your student. • A link to TYPING.COM will be provided to each student once the class is in session. • Additionally, please purchase 1 bundle of 3 print books (Word, Excel, & PowerPoint) from The HomeSchool Hive. 	\$525.00	7033002014	amnastelli@zoho.com
Theater 1	Garcia, Kim	<p>Theater 1 class is a captivating class for those new to theater. This class provides a comfortable environment where students learn the art of performing confidently on stage. In class, they will play games that teach the basics of drama: vocal expression, gestures, character development, stage awareness, monologues and skits. Students will develop friendships while working together as a team to put on performances. After learning the basics of theater each student will be given a part in a performance in the spring semester. Closer to production there will be a few extra rehearsals scheduled. I look forward seeing your child's God given talents blossom in this theater class.</p>	N/A	\$515.00	813-695-1490	kingarcia1112@gmail.com

Website Design	Alton, Arthur	Website Design is a fun class where students will design, develop and publish their first website's. Beginning with the fundamentals of the technology behind the world wide web (HTML & CSS). This class will spark their creativity to design and develop web pages. These building blocks for further success will help them throughout high school and college, and even into their full time career. Every class is hands on with downloads, exercises, and more! The final project will be publishing their own website. . Requirements: Students will need their own Notebook PC (Windows or MAC) – for each class.	Bring Notebook PC or MACbook to each class, weekly downloads are provided! Tablets: iPad, Chrome book, & MS Surface not suggested!	\$500.00	8137278007	arthur@safecs.com
Woodworking and Crafting	Wilson, Michele	Welcome to Mrs. Wilson's Woodworking and Crafting I class! This is the first year of a two-year course where students will learn frontier/homestead skills in the areas of woodworking and crafting. We will also incorporate some recipes throughout the year! This class is for 3rd-6th grade. Lower grades will not be allowed due to the heavy use of knives, sharp tools, and heating elements. Students will receive a pocket knife to keep. The rest of the materials and tools will be provided for them to use during class. Please note we scheduled this course for the end of the day so that students can take certain projects straight home for possibly baking or storing.	N/A	\$600.00	813-482-8099	hatutoring@icloud.com

World History (8th-12th)	Danciger, Wendy	<p>Students will earn 1 high school credit upon successful completion of the course.</p> <p>Mystery of History IV: The Wars of Independence to Modern Times, is written at a 10th-11th grade reading level. This volume's study begins with Bach and Handel in 1708 and ends with the Global War on Terror (2014 and the Revelation of Jesus Christ). Trace the flow of the last three centuries by examining countries/peoples; classical music and art; notable people; developing ideologies; and industrial/scientific developments. Included with the purchase of the Reader is an in-text, user-unique, online access code to download the course-required digital PDF Companion Guide. These files include teacher directions, study guides, pre-tests, quarterly worksheets, quizzes, exercises, worksheets, activity instructions (with photos), tests, outline maps, suggested resource lists, appendix pages and more.</p> <p>Students can expect weekly homework assignments posted on my Mellow Yellow website. Many assignments will be interactive and involve the opportunity for students to work with partners or small group. Students will be asked to keep a journal of current world events and expected to engage in class discussions about such events.</p> <p>Grades will be recorded on my Mellow Yellow Education website for your reference: A=90-100, B=80-89, C=79-70, D=60-69 Class participation/Attendance 25% Homework 35% Projects/Tests 40%</p> <p>Parents: You are in charge! All assignments are subject to parental discretion. If you deem it necessary to alter, enrich, or omit assignments, it is your prerogative as a homeschooling parent to adjust curriculum to meet your child's needs.</p> <p>Make-up work: Missed assignments can be made up. It is your responsibility to complete missed assignments and turn them in.</p> <p>Class Discussions/Behavior: Discussions of current events and other topics relevant to the course will occur regularly. There will be natural differences of opinion and varying levels of understanding during discussions. Students must be respectful of one another, allow speakers to talk uninterrupted, and give speakers their undivided attention. Cell phones will be collected at the beginning of class and placed in assigned pockets on a door pocket chart. If a student is being disrespectful to me or another student or is not following class rules: First Offense = warning, Second Offense = asked to leave the room and sit with Mrs. McKeown, Third Offense = parents notified and asked to sit in the next class with student.</p>	<p><u>Textbook: Mystery of History IV by Linda Lacour Hobar</u> <u>Required Materials: We are partnering with The Homeschool Hive to purchase curriculum for our classes. Writing with Skill 1	Rydell, Candace	This class focuses on fundamentals of writing composition. Writing with Skill Level 1 utilizes a classical approach to writing composition. Coursework begins with narrative summaries and moves to outlining and utilizing research resources, and then progresses to various combinations of learned forms. Students gain confidence and clarity in their writing skills by exploring various types of chronological narratives across the curriculum. Learners become adept at critically assessing and writing on topics including history, science, and literature. Students will be provided feedback via instructor, writing rubrics, and peer interaction. **Although students at this age prefer independence, this course requires parent interaction and support for maximum success. Rubrics are provided for essays to be submitted. Parent assistance is necessary. Some essays will be graded by parent. *This is NOT a creative writing class. Students will learn how to write specifically across the curriculum in response to content pertinent to subject.	<u>Materials: Text, Binder & tab dividers, word processing capabilities on home study days</u> <u>Text: Writing with Skill student workbook Level 1</u> <u>Author: Susan Wise Bauer</u> <u>ISBN: 10:1933339535 or 13:978-193333953-5</u> <u>Recommended: Instructor Text</u> <u>ISBN: 10:1933339527 or ISBN 13:978-1933339528</u> <u>We are partnering with The Homeschool Hive to purchase curriculum for our classes. Writing with Skill Level 2	Rydell, Candace	<p>Writing with Skill Level 2 walks students through a comprehensive and systematic approach to writing composition. Skills necessary for academic success include summarizing, outlining, and note taking. Students also practice writing patterns targeted to history, science and literature, which prepares learners to write across the curriculum. Detailed instruction in narration and sequences, comparisons, introductions and conclusions, and finding topics helps further the students' writing aptitude.</p> <p>Learners progress to critically assess prose and poetry, research, and draft a final project.</p> <p>Training in independent learning, effective writing and critical thinking are objectives for WWS Level 2. Co-op time together will focus on the weekly lesson targets, with heavy emphasis on student interaction sharing ideas and constructive feedback. Rubrics will be provided for feedback on student compositions. Grades will be responsibility of the parent and parent interaction is necessary. Useful prerequisite: Writing with Skill Level 1</p>	<p><u>Text: Writing with Skill: Student Workbook Level 2</u> <u>Author: Susan Wise Bauer</u> <u>Student Edition: ISBN 978-1-933339-61-3</u> <u>Recommended: Writing with Skill: Instructor Text Level 2</u> <u>Author: Susan Wise Bauer</u> <u>ISBN: 978-1-933339-60-3</u></p> <p><u>We are partnering with The Homeschool Hive to purchase curriculum for our classes. Writing: Beyond the Paragraph (4th-6th)	Rydell, Candace	<p>Learn how to take paragraphs and construct a cohesive essay. We will explore all forms of writing: Narrative, Opinion, Persuasive, Compare & Contrast, Nonfiction in a Writer's Workshop format. Feedback will be offered but no grades given for this course. Some creative writing assignments will also be included.</p>	<p>TBD</p> <p>Binder with notebook paper, pens, pencils needed each week.</p>	\$535.00	8139920047	on2college@gmail.com
YEARBOOK: JOURNALISM EXPLORED	Sandefur, Thia	<p>Explore journalism through this yearbook course, where students merge storytelling, design, and photography to chronicle the school year's highlights. They'll craft the yearbook with care; mastering style, layout, typography, and photo editing. The course spans journalism basics from news writing and interviewing to audience engagement.</p> <p>Students will collaborate with each other to develop group projects contributing to the larger goal. They will learn to infuse their individual creativity with the collective style the class has decided upon. For certain projects, students will be assigned leadership roles to manage their group and delegate tasks. Instead of a teacher nagging them with deadlines, they will learn to manage time themselves and fulfill their responsibilities to themselves and their peers. Students will create the yearbook from the ground up and be involved with every aspect of the project. Design choices and class discussions will ensure the yearbook accurately reflects T.E.A.C.H. The students will produce a yearbook that's both a collective creative effort and a cherished keepsake. Enroll to hone journalism and design skills, contributing significantly to a memorable yearbook that encapsulates student life.</p>	<p>Materials:</p> <ul style="list-style-type: none"> - Laptop required. No prior experience is necessary to build your brand. Students should bring a charger or ideally have their device fully charged prior to class time -Students will create a Canva account, which allows them to design flyers, logos, websites, social media posts and more. This account is included in the class fee at no additional charge. We will set this up the first week of class with each student joining the class group on Canva so they can collaborate on projects. 	\$525.00	727-418-0242	thiateach@gmail.com

Young Entrepreneurs (5th-7th)	Danciger, Wendy	<p>Class Description Students will acquire foundational business concepts, learn economic and mathematic concepts, and apply those concepts to a new business idea. Real life examples are important to use when educating students. This course will take them through an entrepreneurial journey of creating their own business, producing a product, or offering a service, and marketing and selling to their peers. This course encompasses a variety of basic life skills such as money management, business development, bookkeeping, profit margins, marketing campaigns, and friendly competition. Entrepreneurs in the Tampa Bay area will be invited to speak to students in class. Students will learn how to start a small business of their own. Opportunities to sell their goods and services will be provided through Trinity Market Days approximately once a month. Students will plan and implement Trinity's annual Fall Festival and Spring Festival. Parental involvement and assistance during the Fall and Spring festivals is highly encouraged.</p> <p>Communication I will send emails, when necessary, but most of the time we will communicate via the Remind.com app. A class code will be given the first week of school. ***This is the best way to reach me. If you send me an email, please send a text through Remind to notify me. I have 5 email accounts I check weekly not daily.</p> <p>Class Swag To purchase a Young Entrepreneurs class t-shirt, go to www.bonfire.com/young-entrepreneurs-1. All proceeds go to support Trinity's charity, "Carol's Kids".</p> <p>Grades/Homework Generally, homework will not be assigned, unless students need to complete a class assignment or prepare for an upcoming class event. A certificate of completion will be given at the end of the year.</p>	<p>Materials 1" binder Notebook paper Poster Board Pens/pencils Markers Glue stick Laptop/ipad/tablet/smartphone etc. may be needed in class on occasion but isn't required</p> <p>Recommended Resources 1.
