

# Welcome to my Chemistry and Physics with Lab Class! Grades Pre-K through 6th grade.

## MEETING TIMES:

- Pre-K - 2nd Grade:
  - Wednesday 10 AM
- 3rd - 4th Grade:
  - Wednesday 9 AM
- 5th - 6th Grade:
  - Wednesday 11 AM

## CURRICULUM REQUIREMENTS/LINKS

- **Please be sure to purchase your textbook at the Homeschool Hive [here](#).**
- **You may purchase an **OPTIONAL** notebook journal [here](#) if you would like homework ideas for at-home use. It is not required, so we will not be referencing it in class.**

## IMPORTANT - ALLERGY INFORMATION

- I am **ALLERGIC TO LATEX** (no balloons, no latex gloves, not even rubber bands are very safe for me). I do have an epi-pen on hand, just in case.
- I am also **EXTREMELY SCENT SENSITIVE** - I get a sore throat and headache every time I smell colognes or perfumes or lotions or heavily scented deodorant. While all of those things smell wonderful, I react to them (vanilla, floral, musk, etc). Limited amounts of these scents are likely somewhat tolerable, but please let your student know ahead of time, that even scented hand sanitizer can cause a reaction and that it is not personal. I may have to leave the room for a moment, or politely ask, if at all possible, they wash their hands to remove some of the smell. Safer scents are citrus and peppermint scents. I have not heard of students having to change their routine or care products, they just use a little less - especially not applying right before class or during class. I may need to step out of class if I am reacting, or may need to politely ask the student to see Ms Corey for help. Please let your student know this is not personal.

## SYLLABUS

- Each lesson in Exploring Creation with Chemistry and Physics will be taught, generally, over a two- to three-week period.
- We will complete an activity or lab during almost every single class.
- There is NO official homework for this class. Optional homework can be done at home using the

optional note booking journal.

- Lesson 1 - Chemistry and Physics Matter
- Lesson 2 - Moving Matter
- Lesson 3 - Building Blocks of Creation
- Lesson 4 - Compound Chemistry
- Lesson 5 - Multitude of Mixtures
- Lesson 6 - Mechanics in Motion
- Lesson 7 - Dynamics of Motion
- Lesson 8 - Working in the World
- Lesson 9 - Sound of Energy
- Lesson 10 - Light of the World
- Lesson 11 - Thermal Energy
- Lesson 12 - Electrifying Our World
- Lesson 13 - Mysterious Magnetism
- Lesson 14 - Simple Machines

## CONTACT INFORMATION

**Mrs. Wilson**

**TEXT/PHONE: 813-482-8099**

I will communicate primarily through Active email, and sometimes Active text.

My email is: [hatutoring@icloud.com](mailto:hatutoring@icloud.com)

\*I rarely see emails, so text is usually best.\*

## FAQS

- Is food allowed in Mrs. Wilson's classroom?
  - YES, BUT with restriction. Quiet snacks with thorough cleanup are allowed. No candy/gum, gummy snacks, or raisins (they grind into the carpet). Full lunch items should be eaten in the gym.
- What are the class rules?
  - RESPECT - Yourself, others, and Mrs. Wilson. This one rule covers all of the rules. Students do not need to ask me to use the restroom as long as they are respectfully quiet when getting up to go. Students will not be addressed about cell phone use in my class as long as it is respectful (limited to emergency or class use only). Pretty much any conduct rule you can think of involves respecting yourself, others, or the instructor. Text me if you have any questions.

- Why don't I see any due dates?
  - CHEMISTRY & PHYSICS Pre-K-6 - there are NO DUE DATES because you DO NOT have any required homework.
