

Welcome to Beginning Handwriting! I'm thrilled to have your children join us for a fun and hands-on introduction to handwriting. Throughout the co-op year, we will explore uppercase and lowercase letters in engaging, interactive ways. Like any skill, practice is key to improvement. While I won't assign mandatory homework, I strongly encourage you to practice with your child at home during the rest of the week to reinforce their learning.

Occasionally, I will reward excellent work with a special food treat. Please inform me of any allergies your child may have.

The class fee includes all necessary supplies, but your child will need a labeled folder specifically for this class to store their work. Please ensure the folder is a three-pronged one with your child's name clearly marked on it for easy identification.

This class is designed as a "parent-free zone" to minimize distractions and foster focused learning. You are welcome to peek in through the door window anytime.

I regret that I won't be available for the open house, but I look forward to meeting everyone in August!

Blessings,

Mrs. Liana
