Course Overview

Mystery of History IV: The Wars of Independence to Modern Times, is written at a 10th-11th grade reading level. This volume's study begins with Bach and Handel in 1708 and ends with the Global War on Terror (2014 and the Revelation of Jesus Christ). Trace the flow of the last three centuries by examining countries/peoples; classical music and art; notable people; developing ideologies; struggling/oppressed people groups; and industrial/scientific developments. This Reader (text) contains 84 history lessons, using a 28-week, three-lesson-per-week format. Included with the purchase of the Reader is an in-text, user-unique, online access code to download the course-required digital PDF Companion Guide. These files include teacher directions, study guides, pre-tests, quarterly worksheets, quizzes, exercises, worksheets, activity instructions (with photos), tests, outline maps, suggested resource lists, appendix pages and more. Since the textbook covers history only to 2014, I will be supplementing the curriculum to include history from 2014 to 2024.

Students will earn 1 high school credit upon successful completion of the course.

Remember the former things of old; I am God, and there is no other; I am God, and there is no one like me, declaring the end from the beginning and from ancient times things not yet done, saying, "My purpose shall stand, and I will fulfill my intention."
