

TEACH Photo & Video Policy

TEACH may take photographs and videos of students throughout the day, including during classes, activities, performances, and TEACH events, to share and celebrate our community.

Permission to Photograph & Record

By agreeing to this policy, I give permission for my child to appear in photographs and videos taken by TEACH or individuals authorized by TEACH during daily activities and TEACH events.

Use of Photos & Videos

I authorize TEACH to use photographs and videos that include my child on:

- TEACH social media accounts.
- TEACH websites, portals, and other TEACH web resources.
- Digital newsletters, event highlights, and TEACH promotional content.

These photographs and videos may be used to highlight student participation, celebrate accomplishments, share activities with families, and promote TEACH programs and events.

Student Privacy & Appropriate Use

TEACH will use photographs and videos respectfully and in a manner appropriate for a family and educational community. TEACH will not publish a student's full name alongside their photograph or video without separate parent or guardian permission.

I understand that content shared on public websites or social media may be viewed, downloaded, or reshared by others beyond TEACH's control.

Permission & Future Changes

I understand that no compensation will be provided for the use of these photographs or videos and that I will not individually review or approve each use before publication.

If I wish to withdraw permission for future photography, recording, or use, I must notify TEACH in writing at ****[teachcoreymckeown@gmail.com]** (mailto:teachcoreymckeown@gmail.com)**. Withdrawal applies going forward and does not undo prior uses. TEACH cannot retrieve copies downloaded or shared by others.

Parent/Guardian Acknowledgment

I have read, understand, and agree to the TEACH Photo & Video Policy. I give permission for my child to be photographed and recorded during TEACH classes, daily activities, and events, and for TEACH to use those photographs and videos on its social media accounts, websites, portals, and other digital resources as described above.
