PLEASE SELECT YOUR MEASUREMENTS
or check our classic table charts here

Chest measure 38"

Waist measure 34"

Shoe Size (US) Male 10+ / Female 11+

Drag the sliders out to your chest, waist and shoe measurements.

If you are on the high side of any size range, you may elect to move up one size if you like your garments to fit loose. Admiral garments are modern cuts which mean that they are more fitted to the body than older traditional sports shirts.

If the waist measurement is TWO OR MORE sizes larger than the chest measurement, we recommend buying the larger size for both top and bottom. Example: 31" chest, 36" waist suggests a YL top and AM bottom. We recommend that you buy AM for both top and bottom although the best method for sizing is to go to your club and try on the sizing samples that they have to ensure you order the correct size.
