First, determine who is your **CLOSEST COMMON ANCESTOR (CCA)**. Put your Common Ancestor in Block 1 (upper left). List the direct descendants in order across the top, right to left, ending with you. List the **OTHER PERSON'S** descendant line down the left side ending with him/her. Follow the rows and columns to find your relationship.

(over for another example)

**Common Ancestor must be your CLOSEST Common Ancestor, or the calculation will not work**
