The soil in the area was known to be good and early settlers notified their friends and relatives in **Germany, Holland, and Switzerland** of this. This attracted more farmers. Early crops consisted of potatoes, carrots, cabbage, and corn. Wheat was the main cash crop. Raspberries, gooseberries, grapes, black currants, strawberries, and cranberries were readily available.

In 1882 the railroad came. The first automobile appeared in Victoria in 1911. It was owned by **Anton Schmieg (brother of Frank Schmieg)**. Victoria Drive was the first road of great importance to Victoria and its settlers. It extended from Chaska toward what is now known as St. Bonifacious and Watertown. With steamboats plying between St. Paul, Chaska, and Carver, the trading center for Victoria moved from St. Paul to Chaska and Carver. Wood and grain could be sold in Chaska. This promoted clearing more land to grow crops.

The first European settlers constructed log houses. **St. Victoria parish** was organized in 1855, and a log church and school were completed in 1858. Around 1875, a larger, two-story school was constructed. **In 1870, the parish constructed its second and present church using bricks manufactured in Chaska.** In 1863, the Moravian Church was constructed of logs and was replaced in 1878 by the present church.
