

BOOST STICK

2-Way Humidity Control Solutions

BRING ON THE BALANCE.

Integra BOOST® sticks use our patented 2-way humidity control technology to expertly adapt to the air around them—either releasing or absorbing moisture as needed to maintain relative humidity (RH) in a contained environment.

FORM AND FUNCTION.

Boost® Sticks are designed to be slim & space-efficient, ensuring it effortlessly fits in various tubes and containers without consuming excessive space or disrupting the aesthetic of your chosen packaging. Available in two lengths, 80mm and 110mm, the Boost® Stick can easily integrate into any automated packaging and dispensing system.

RELATIVE HUMIDITY	SIZES	APPLICATION
» 55% RH	» 80mm	» Storage
» 62% RH	» 110mm	» Travel Tubes

THE INTEGRA DIFFERENCE:

SALT-FREE | NON-TOXIC | BIODEGRADABLE
FDA-COMPLIANT | NO CHEMICAL OFF-GAS
PLANT-BASED SOLUTION | SPILL- AND TEAR-RESISTANT
DESIGNED TO GRAB EXCESS MOISTURE FASTER THAN
OTHER LEADING BRANDS

OPTIMAL HUMIDITY

Integra BOOST® sticks offer a hands-free approach to humidity control, allowing you to eliminate the guessing game and regulate relative humidity safely and effectively at either 55% or 62% inside any contained environment.

- Preserves aroma, taste, and product integrity
- Perfect for automated packaging systems
- Hands-free monitoring
- Prevents mold

EXTENDED STORAGE

Finally – a smart solution that allows you to extend shelf life, without compromising quality. Integra BOOST® sticks immediately adapt to the air around them, adjusting the relative humidity in a closed container without altering your product's aroma or flavor.

- Retains weight to maintain profits
- Extends shelf life while maintaining product integrity
- Protects from mold and rot or boosts humidity to avoid over-drying

CONTROL YOUR PRODUCT—FROM CULTIVATION TO CONSUMER.

It's time to take control of your product's environment, rather than be at the mercy of it. Maintain freshness longer and deliver the highest-quality product by adding or removing humidity as needed—without lifting a finger. Say goodbye to lost time and compromised quality – and say hello to far fresher, far longer.
