

Dear Sheriff -

I am writing as a deeply concerned citizen about the ongoing sale of illegal THC products - commonly known as “gas station weed” - within our county. These intoxicating substances called names like Delta-8, Delta-10, THC-A, etc., are illegal under Mississippi law but continue to be sold openly at local gas stations and convenience stores.

On June 11, 2025, Attorney General Lynn Fitch wrote “*Legality of Hemp Products for Human Ingestion and/or Consumption*,” confirming these non-FDA-approved products are prohibited under the Mississippi’s Uniform Controlled Substances Law.

**These illegal substances are unregulated, mislabeled, highly addictive, harmful, and easily accessible to the youth in our community.**

**Oxford and Brandon** have recently taken decisive action to remove these products and enforce state law. Meanwhile, our community remains unprotected, putting public safety and youth health at risk. I urge your office to vigorously enforce the state law ensuring that these harmful and illegal substances are no longer sold in our community.

**Your leadership and swift action on this matter would send a strong message: Our community’s safety and health come first.**

Thank you for your service and attention to this urgent concern.

Sincerely,
