Address: _____
City , State, zip: _____
Telephone: _____

Trailer ID Number or last 5 digits of VIN
--

Dealer Name: _____ Date Sold: _____

Warranty: Once again, we keep it simple. The warranty is a three stage affair.

1st stage: From the 'DATE SOLD' on this signed form. This form must be received at Hull Trailers office to be valid.

90 day nose to tail parts replacement warranty. This means that you don't have to do a thing. For the first 90 days we will replace any part on any trailer free of charge, direct to the end user. The only items not covered are wheels and tires and paint, since you cannot know how these items will be treated. If you need clarification on how this works, contact us.

2nd stage: From the date the trailer leaves Hull Trailers Property.

Warranties from component manufacturers. The coupler, jack, lights, axles and other components also carry a separate warranty. When in question contact us and we will inform your customer about warranty on any components. These warranty periods range from 30 days to 5 years, depending on the item in question.

3rd stage: From the date the trailer leaves Hull Trailers Property.

10 year frame and floor rot warranty. The trailer must be brought back to our plant. We do not cover transport, storage fees, lost time expenses or any other items. This is simply our offer to repair or replace components of the frame or floor for a period of ten years from the date of purchase, free of charge, as long as they bring the trailer back to our plant. This warranty does not cover overloading, poor maintenance or abuse of any kind. The floor warranty covers rot only.

Buyers Signature _____

Dealer Signature _____

WARRANTY BEGINS:

The date this signed document is received in Hull Trailers Office. This document will be kept on file to document any claims or recalls. In case of a recall the purchasing Dealer will be contacted. If we have this card on file with the final customers information on it, we will also contact this customer if possible.

OR:
Without this signed warranty REGISTRATION, the warranty clock starts running the day the trailers leave the Hull Trailers property. Warranty defaults to begin at the date it was received from Hull Trailers Lot without this registration. The trailer ID number must be on this card, or it will not be accepted.
