THE PROBLEM?

UTILITY

Companies are hard pressed to find a bag which can do it all. Most bags can do some things but few bags can do everything. Customers are looking for a bag that is durable, reusable, customizable and high quality and which can represent their brand year round.

CORPORATE SOCIAL RESPONSIBILITY

In this economic climate, hampers are becoming more popular and clients are asking for bags which can accommodate a higher weight threshold for grocery distribution. Companies are also searching for the best product to achieve their CSR goals.

QUALITY

Many bags fail the quality test and either burst at the seams or handles when subject to high weight loads. Many bags carry heat transfer or screen prints which can fade or peel after washing. There is an inherent print limitation when printing bags locally.

COST

Local bag costs are high which means that a limited budget can only yield a small quantity of bags.

REDUCE/ RECYCLE INITIATIVE

Companies need to invest in promotional bags which can be reused over and over and which do not have a negative impact on the earth.

THE SOLUTION?

BUY DIRECT REUSABLE TOTE BAGS

- Enjoy unsurpassed quality and workmanship with our eco bag solutions.
- This product can be reused for years due to its durability and strength.
- Can hold up to 60lbs of weight.
- Achieve your organizations' CSR goals by safely utilizing bags as part of hamper distribution initiatives
- Decrease pollution by ditching one use plastics and adopting reuse initiatives.
- Save money by buying direct.
- Optimize branding and brand presence on bags with full colour print options.
