

AI Readiness & Opportunity Diagnostic Playbook

The Pit Stop Academy | AI & Data Innovation Labs

Tagline: Before you race, check your car.

An AI Pit Stop Playbook by Priyanka Shetty

1. Why AI Readiness Matters Now

Before accelerating into AI, your organization must ensure its foundation is ready — across people, data, and technology. This playbook helps you assess readiness and identify your most promising AI opportunities.

You'll Gain:

- An AI Readiness Scorecard
- A Readiness Canvas to map gaps
- A Quick-Win Opportunity Finder
- An Action Plan for your first AI initiatives

2. The 5 Pit Lanes of AI Readiness

Dimension	What It Covers	Ask Yourself...
Strategy & Vision	Alignment of AI with business goals	Is AI part of your business strategy or just an experiment?
Data & Infrastructure	Data quality, accessibility, governance	Do we have usable, trustworthy data?
People & Skills	Culture, talent, and leadership for AI	Are our teams skilled and ready for AI adoption?
Technology & Tools	Integration and scalability of systems	Can our tech stack support AI solutions?
Governance & Ethics	Responsible AI and data protection	Do we have clear ethical AI practices?

3. Readiness Scoring Framework

Rate each dimension from 1–5 (1 = Foundational, 5 = Leading):

Dimension	Score (1–5)	Notes
Strategy & Vision		
Data & Infrastructure		
People & Skills		
Technology & Tools		
Governance & Ethics		
Total		

Readiness Levels:

• 5–10: Foundational • 11–15: Emerging • 16–20: Transforming • 21–25: Leading

4. AI Readiness Canvas

Dimension	Current State	Desired State	Gap	Priority
Strategy & Vision				
Data & Infrastructure				
People & Skills				
Technology & Tools				
Governance & Ethics				

5. Quick-Win Opportunity Finder

Problem Area	Available Data	AI Idea	Potential Value	Feasibility

6. Pit Stop Checklist

- Clear AI vision defined
- Data quality and governance standards in place
- Skilled teams and leadership alignment
- Scalable technology infrastructure
- Responsible AI and ethics practices established

■ Pilot opportunities identified
