Pricing For Trans-Cervical Insemination (TCI) Using Fresh Semen 2025

❖ Progesterone Testing:

- \$125.00 per test.
- We typically do about 4-5 tests per breeding.
- Progesterone tests help us to know exactly when the female's fertile window occurs.
- When recommend getting the first progesterone test done 5 to 7 days after the first sign of blood.

❖ Trans-Cervical Insemination (TCI)

- TCI + Collection + Analysis: \$435 + 52 + 99.50 **Total: \$586.50**

- ❖ If you are from out of town and/or it is difficult to bring the female in for progesterone testing. You can drop the female off to board with us (5-7 days after the first sign of blood) at no charge.
- ❖ Please email, text, or give us a call if you have any questions or concerns!
