

The Aspekt™ window, also known as REHAU System 1800, offers unsurpassed performance, ease of installation and total comfort that lasts. With outstanding structural, thermal and acoustical qualities, this casement window can be used in many commercial and residential building types for both new construction and remodeling projects. Choose from several different configurations and color options to make it your own. The system is available in white or clay and can be laminated with solid color or wood-grain foils.

Proprietary, highly engineered triple-seal technology provides optimal compression to improve the system's insulating properties and to ensure long service life

Up to 1 3/8 in (35 mm) glazing capability accommodates triple glazing enhancing thermal and acoustical performance

3 1/4 in (83 mm) frame depth with 1 in (25 mm) nailing fin set-back allow for application in commercial as well as residential wall constructions

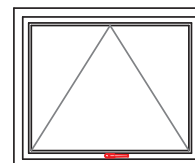

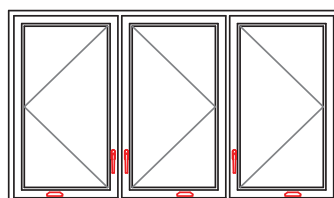

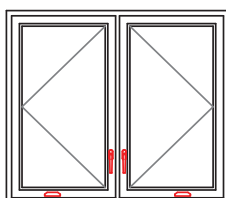

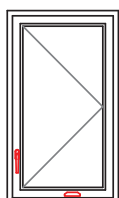

Frame accessory grooves accept a variety of accessories such as brickmolds, extension jambs and mulling components

Continuous frame design allows for greater design flexibility

Frame design accepts a variety of screen styles including FlexScreen

Performance Summary

Structural: up to CW-PG70
 Impact: up to DP60
 Acoustical: up to STC 40; OITC 34
 Thermal: down to 0.18*
 * based on simulation
