

The Iconic™ window, also known as REHAU System 700, is one of the most comprehensive hung-slider replacement window designs on the market, providing five styles with a variety of design and performance options. This versatile design is an excellent choice for upscale residential and light-commercial replacement applications. The system is available in white, beige or clay and can be laminated with solid color or wood-grain foils.

**Reinforcements for main profiles** boost structural performance and element sizes

**Up to 1 in (25 mm) glazing capability** provides excellent acoustical and energy performance properties to meet current standards

**3 1/4 in (83 mm) frame depth with internal/external accessory grooves** provides flexibility for new construction and retrofit

**Main profiles engineered with multiple chamber** increase strength, energy performance and allow efficient water drainage

**Frame accessory grooves** accept a variety of accessories such as brickmolds, extension jambs and mulling components

**Internal sash glazing** satisfies market preference and increases ease and safety of glass replacement

**Frame design** accepts a variety of screen styles including FlexScreen

### Performance Summary

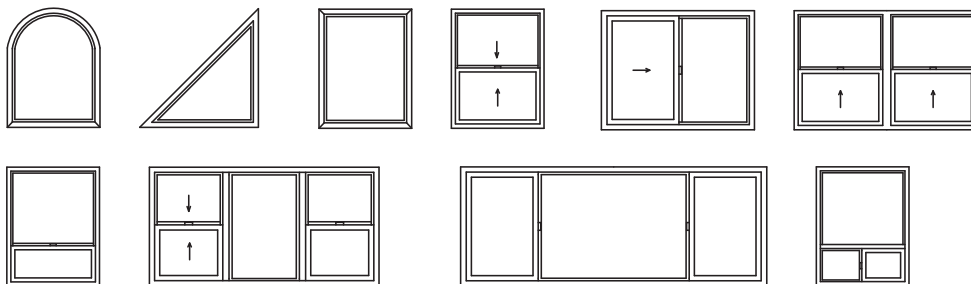

Structural: up to CW-PG70

Impact: up to DP60

Acoustical: up to STC 39; OITC 32

Thermal: down to 0.17\*

\* based on simulation
